WHITE HANDS ON THE SHELF
THERE are two ways to keep your hands young. One is to douse them with skin creams and lotions every time they are irritated. The other is to avoid getting them irritated. White King Granulated Soap, made from pure vegetable and nut oils good enough to eat, contains nothing that can roughen and redden the skin. Washing, especially dish-washing, is the greatest single cause of dried and wrinkled hands. Try White King. It yields quick, rich suds and thorough cleansing, even in lukewarm water. You need use hot water only for rinsing dishes. Afterward notice how smooth your hands are.

Fabrics, dishes, silver, glass, floors, woodwork—White King solves every household washing problem. It cannot injure anything that water won't harm. It's effective for everything. Is it on your list today? At your grocer's.
