FOREIGN CAPITAL "KNOWS NO QUARTER"

FOREIGN CAPITAL HAS NO CONSCIENCE—IT KNOWS "NO CHARITY"—IT IS UNSCRUPULOUS, DESTROYING, ENSLAVING A GREAT NATION WITH CHAIN STORES, MERGERS, CONSOLIDATIONS AND MONOPOLIES

M-M-M

Patronize These Home-Owned Independent Stores

They have made your city what it is. They keep their profits in Klamath Falls to build Klamath Falls.

The Chain Store Evil Has Aroused the Nation-Monopoly Deprives the Community of Beneficial Competition -- DEPRIVES YOUR CHILDREN OF OPPORTUNITY -- BLEEDS YOUR CITY OF ITS RESOURCES!!

Many people in Klamath County recognize the danger when any business or businesses expand beyond a reasonable point to the detriment or ruin of independent enterprises, and that limits individual opportunities through its giant monopoly in business. To you people who do not realize the seriousness of this situation this advertisement is directed. To you mothers and fathers whose most cherished desire is to see your sons and daughters educationally equipped to meet the battles they must face when finally thrown upon their own resources to make an honest living. Every father and mother harbors a great desire to accomplish this end. But what will face these unfortunate children when they have finally graduated and find all individual opportunity blocked by mergers, trusts and chain stores. Is it worth a thought? If so, read on. The fight against the chain store has just begun. We are in the throes of an economic revolution which in magnitude will surpass any governmental problem that has ever been presented. All must realize that a power has come into our governmental affairs which seeks to become greater than the people themselves, consisting of various and controlling

interests, combined into a "chain system" bound together by a "consolidation" of vast wealth in the hands of the few. We believe the wisdom and intellect of the people when properly exerted, will arouse an enlightened public opinion sufficiently to preserve this wonderful country of ours for the benefit of the whole people, and will not permit it to become a play ground of a favored few. Let an intelligent public opinion demand that our anti-trust laws be enforced and the greed and avarice of the few be controlled and enjoined from their orgy of consolidations and trusts,—to crucify liberty-loving American citizens upon a cross builded by the heartless and greedy rich. Thinking men of our country fully realize that our nation cannot prosper when our farmers—the bulwark of creative wealth—are compelled to accept such prices for their commodities as a monopoly—controlled market will offer. And our mass of laborers, from necessity, are forced to accept employment at less than a living wage. We, the Modern Minute Men of Klamath Falls, make our first appeal to the fair minded public of Klamath County.

Did the Chains Build Our Schools?

Where did the millions come from to build our schools, churches, colleges, roads, bridges, lodge buildings, pavements, homes, etc? Did it come from mail order houses in Chicago or New York? NO! They were all built by your home merchants and citizens from taxes cheerfully contributed by people who have made their money in this city and who have spent it here. The profits of every independent merchant STAYS in Klamath Falls, it is not sent to build a greater Chicago or greater New York. Ministers, who have erected your church for you, the Chain Store Man? Your home merchant is an active and contributing part of your community, interested in its progress and its welfare; he lends his support to your churches and local charities and pays taxes to maintain your school and roads. What do Chain Stores contribute to civic welfare? Ask your Community Chest workers—the Salvation Army, the Boy Scouts, or any of your church workers. These organizations will tell you how much Chain Stores care for community welfare. The Chain Store does not enter a city until it has been built to a considerable size by the honest labor of independent merchants. Then it saps the very life of the city by sending all its profits to a distant financial center to build more chain stores. It takes nearly all of its profits out of your city and leaves very little. Be fair to yourself, your children and your city. Don't be a party to exploiting your neighbor and your community by patronizing Chain Stores. The fate of the independent merchant rests entirely with you. But there is still a greater responsibility—that is the responsibility of planning for the future of our sons and daughters. Whether they become captains of industry or merely well disciplined servants of monopoly.

THE PUBLIC MARKET

During our nine years in Klamath Falls has never sold a pound of cheese but that made in Klamath County. We have never sold a pound of butter but that made in Klamath. We never purchase any farm products outside of Klamath that can be purchased at home. Patronize the merchants that keep the money circulating within the county in which you live. Does your merchant do as much for Klamath?

READ

What

"The American Independent" Says:

It is one hundred and fifty-four years since the adoption of the Declaration of Independence. It is one hundred and thirty-one years since America took her place among the nations of the earth.

Our forefathers loved liberty and equal opportunity. At the risk of their own lives and their fortunes they declared that "all governments derive their just powers from the consent of the governed."

Surely every individual in every community wants to make progress, and this can only be accomplished by the entire cooperation of the people of the community.

Equal opportunity for every man, woman and child should be the watch-word of the hour. Do you realize that our business men are surely and rapidly being crushed and ground to powder by the ruthless hand of trusts and combines? We have been asleep at the switch. While we have slept and slumbered the enemy passed by the sleeping sentinel. Thousands of men and women have given this question but little, if any, consideration, but we believe now that they see the situation and are taking cognizance of the pronounced change at this very moment that is taking place in every state in the U. S.

If we strangle our own business men here then in the name of common sense, who will pay the taxes to take care of our indebtedness, run our schools, our fire department, the police department, the health department, and other departments of your city?

A chain store owned and operated from some central point away from your city, and whose purpose is to take everything they collect out of your community, is a detriment to you and the whole city and section.

Keep the home-fires burning is the only safe, sane, course to follow. Any other alternative will surely bring disaster. No other community is looking out for us, no other community will pay our debts, no other community will keep our home fires burning—we must do this ourselves. Will we do it, or will we go on stabbing ourselves to death.

The profit made by our own business men will be kept in our community but not so with the stores run and operated by the trusts and combines. Their profit will be sent away from the city and invested in non-taxable securities in some other community.
