Gloria Swanson And Husband Seek Separate Abodes

LOS ANGELES, Aug. 5, (AP)—Gloria Swanson and her titled husband, the Marquis De La Falaise, have decided "to live apart." The screen actress made public a statement to that effect today following the return of her husband from Paris Sunday.

"Henri and I have decided to continue living apart," she said, "as we have lived for the past year and a half.

"He plans to remain at a hotel during his stay here, and I shall continue to live at the beach. We have found it possible to maintain separate establishments and still be the best of friends."

The couple was understood to have spent most of yesterday conferring on their future courses, but no other word was issued. Reports of an alleged separation had been current in Hollywood for several months but they previously had met repeated denials.

No More Piles

HEM-ROID, the prescription of Dr. J. S. Leonhardt, is guaranteed to banish any form of Pile misery. It gives quick action even in old, stubborn cases. HEM-ROID succeeds because it heals and strengthens the affected parts and removes blood congestion in the lower bowel—the cause of piles. Only an internal medicine can do this, that's why salves and cutting fail. Underwood Pharmacy and druggists everywhere sell HEM-ROID with guarantee that it cost you nothing if it doesn't end all Pile agony.—Adv.

Sinnott Memorial To Have Sightly Location on Rim

CRATER LAKE, Ore., Aug. 5.—Plans for the Sinnott Memorial Museum to be built in Crater Lake National Park are nearing completion. The Museum will be similar in construction to the Yavapai Lookout Museum at the Grand Canyon, and no effort will be spared to make the building one that will fit into its natural surroundings.

Victor Rock, on which the building will be located, is one of the finest observation points along the rim from which to view the lake, the rim, and surrounding mountains. The front or parapet of the Museum will be so built as to appear a continuation of the rock ledge.

To Have Telescopes

The exhibition room will be 21 by 42 feet. On the front of this, overlooking the lake, will be an observation platform 22 by 40 feet. It is planned to place telescopes on this platform, to point out the important features of the rim and surrounding country, as well as the prominent mountain peaks; and there will be additional pointers of the tube variety. Directly under telescope or pointer, will be an exhibit—samples of rock, etc.—from the object to which attention is directed by the pointer above.

The building was designed by the Landscape Architectural Division of the National Park Service, after consultation on the ground by Dr. John C. Merriam, president of Carnegie Institute, and Dr. Harold C. Bryant, assistant to the director and head of the Educational Service of the National Parks.

American, Swedish Vessels in Crash

STOCKHOLM, Aug. 5, (AP)—The American freighter Chickasaw, owned by the Moore MacCormack company collided early today with the Swedish freighter Femmern, cutting the Femmern in two. Four men were reported missing.

The Chickasaw, slightly damaged, was expected to arrive here this afternoon.

The Chickasaw, of 3,023 tons, left New York July 24 for Copenhagen, Stockholm and Leningrad.

The Femmern is listed in the American shipping record as of 287 net tons, built in 1890 at Oslo, owned by Anghata. No Femmern is noted in any available shipping register.
