

# HAPPENINGS IN THE SPORT WORLD

## CHICAGO CUBS HEAD PARADE TOWARD FLAG

### Crestfallen Robins in Second Place First Time Since June

BY EDWARD J. NEIL  
Associated Press Sports Writer

The Chicago Cubs breathed deeply today of the dustless air at the head of the procession—leaders of the National League parade once more.

In second place, crestfallen and perhaps just a bit weary of the frantic struggle that is marking the final drive for the flag, are the Brooklyn Robins, out of first place, with the exception of a couple of one day lapses, for the first time since June.

The margin is only a point, but it is a margin, and the worst is yet to come for the falling flock of Uncle Wilbert Robinson, for the Robins must face the banking Cubs themselves in a four game series that opens today in the backyard of the 1929 champions.

## Big League BASEBALL

### "Coaching Dope"

**BATTER IGNORES SIGN WHEN COACHER STANDS ON FAR SIDE OF GLOVE WITH HANDS ON NEES ABOVE**

**STANDING ON NEAR-SIDE OF GLOVE WITH HANDS ON NEES MAKE "HIT SIGN" OPERATIVE**

BY AL DEMAREE  
(Former Pitcher N. Y. Giants)

One of the best sets of signs ever used in the major leagues by a manager, was originated by the late Pat Moran when he managed the champion Phillies in 1915.

Moran used the glove thrown down by his third baseman at the conclusion of an inning, for his key. All signs given on the far side of the glove were not to be taken by the batter, but all signs given on the near side were operative.

If he stooped with his hands just above his knees and was looking at the batter it was the sign to sacrifice. If he was looking away from the batter, with his hands in the same position, it meant to take the next ball.

If his hands were on his knees and he looked at the batter, it was the sign to hit the next ball pitched. The batter, of course, was supposed to give the hit and let the runner advance.

If, however, his hands were on his knees and he looked away from the batter, it gave the batter the privilege of hitting the next ball, provided it was a good ball and he liked it.

These signs are a little complicated for the average amateur team, but it gives you an idea of what can be accomplished and a smart coach or manager may be able to utilize them to advantage.

**Card Overthrown Robins**

The Cardinals dealt their final blow in the overthrow of Brooklyn yesterday, coming from behind in the ninth to score three runs and whip the Robins for the third straight time, 7 to 6, while young Buddy Teichert, freshman southpaw of the Cubs, was taming the Boston Braves, 4 to 2, the third time McCarthy's warriors have turned that trick in two days.

More woeful even than the drop of the Robins is the record of the flock against the Cubs themselves. Brooklyn has beaten Chicago only four times against 11 defeats.

The Cubs' tussle with the Braves was simply thing with Teichert allowing but six hits. Wallie Berger got his 29th homer but Cantwell was hit freely.

The Pittsburgh Pirates beat the Giants 5 to 5 and kept them from gaining precious ground. Larry French pitched nice ball to halt a Pirate losing streak that had reached five straight. Bill Terry did most of the Giant hitting with a homer, double and single and French helped his own cause with three hits.

**Senators Gain on A's**

Washington's Senators picked up a game on the pace setting Athletics in the American League but the breach is still very wide. Washington clipped Cleveland 9 to 3 while Old Red Faber and his spit ball were taming the A's and Lefty Wallace 5 to 2. Goose Goslin hit a pair of homers to lead a St. Louis attack that halted the Yankee winning streak at six games, 10 to 5. O'Rourke and Blue also hit home runs.

Danny MacFayden turned in the best pitching performance of the day, letting Detroit down with three hits, two of them by Easterling, as the Red Sox won 5 to 1. Ray Kops also hurled well for Cincinnati, holding the slugging Phillies to six hits as the Reds won 4 to 2.

**Calo and Marcus Fight Slow Draw In 10-Round Bout**

PORTLAND, Aug. 12, (AP)—Matt Calo, San Francisco and Joe Marcus, Portland, lightweights, fought a slow 10-round draw here last night.

Abie Israel, Portland's fast little flyweight and Jackie Evans, Kansas City, stole the show with their last six-round exhibition of skillful boxing and footwork. Israel was given the decision on the strength of his aggressiveness in the last three rounds, although Evans had an edge in the earlier rounds. In the first round Jackie shot home a sharp right to Abie's jaw and the local boy went down for a fractional second.

Again in the second Jackie put over a similar blow and Abie was on one knee for another split second. Because of the closeness of the decision, Israel agreed to give Evans another chance at 10 rounds.

Eddie Edelman won a technical knockout over Joe Eiraine in the eighth of their scheduled 10-round match. Referee Louitt stopped the bout to save Eiraine needless punishment. Chuck Rosander took a four-round decision over Ray Morgan in the curtain raiser.

**Washington Junior Champs Leave for Baker Tournament**

SEATTLE, Aug. 12, (AP)—The Rauler-Noble American Legion baseball team, Washington's junior champions, left here this morning in a special car over the Union Pacific for Baker, where the boys will compete in the regional play-off with teams from Oregon, Idaho and Montana, on August 14 and 15.

The winner of the Baker tournament will compete for the western championship at Colorado Springs, August 21 to 23. The winner of the Western states, in turn, will compete at Memphis for the national title.

**PHEASANT DATES CHANGED**

Those who are receiving a synopsis of the Oregon hunting laws will note that there are no changes this year other than dates for the hunting of Chinese pheasants in Eastern Oregon. There the legal hunting days will be October 1, 2, 5, 8, 12, 15, 19, 22, 26 and 29.

## Paddy Harmon, Builder of Sport Palace Dies Virtually Broke

CHICAGO, Aug. 12, (AP)—Paddy Harmon, the dreamer, whose dream of a \$7,000,000 sport palace came true since he started life—virtually penniless—this was revealed today when plans were set in motion to stage a benefit boxing show in the Chicago stadium, the building Paddy built, next month, with the receipts going to his widow and 4-year-old daughter.

Had \$2.50 in Cash

When Harmon's car skidded off the road two weeks ago and killed him, he had \$2.50 in cash to his name. That was found in his pockets. He had no life insurance, no other bank account, nothing left of his fortune except the money he sunk in building the Chicago stadium, largest indoor sport arena in America. When he was ousted from the presidency of the stadium, he still retained a great amount of stock, but this may or may not be valuable for several years to come.

**Couldn't Manage Money**

Friends of the dead promoter said today his most difficult task was managing his money. He allowed it to slip through his fingers, making loans to needy friends much after the fashion of the late Tex Rickard, who allowed his fortune to slip away.

Sidney Strutz, present head of the Chicago Stadium corporation, said Harmon only a few months ago had between \$70,000 and \$80,000 in cash in the bank, but it had disappeared, with no accounting left to show how it was spent.

It can now be revealed that Harmon's funeral expenses were paid by his friends—the same friends who are behind the movement to stage the benefit to raise funds for his widow and daughter.

## Deer Season Will Open by October 1st Norblad Says

The opening of deer hunting season under no circumstances will be delayed longer than October 1, and should it be necessary to postpone the opening, hunters will be given ample warning. This was decided recently when Governor Norblad, officials of the federal and state forest service, leaders in private timber associations and officers of the state game commission met in Portland.

Last year a great deal of inconvenience was experienced by hunters because the opening of the season was delayed when they were "all set" to go into the woods and mountains after deer. Hunters, as well as timbermen, are hopeful that by the time September 15—the date scheduled for the opening of deer season—rolls around sufficient rain will have fallen to cause no hazard in going into the woods. In deciding to under no circumstances postpone the opening, later than October 1, the state and federal officials were convinced that they were being fair to both sportsmen and those interested in saving our forests from fire danger.

Boston	39	74	.346

## Actors' Standing May Be Improved In Week's Series

By Associated Press

The league-leading Hollywood Stars play Seattle at Hollywood today, and unless circumstances show more baseball than last week they won only one of the series with Portland, indications are the top position of the Stars will not be seriously threatened. Seattle is at the tail end of the list.

The Senators go home for a session with Los Angeles the latter team trailing Hollywood by one game for leadership of the league, while San Francisco, third in position and only two games behind the leading Stars, plays host to Portland.

The fourth series will see the Oaks and the San Francisco Mission trailing in Oakland.

With the exception of San Francisco, which is awaiting completion of a new park, all games are being played at night this week. Coast League officials report night baseball a success, as far as attendance is concerned. San Francisco formerly headed the league in attendance records, has dropped to last place.

**ARCHERS MEET**

CHICAGO, Aug. 12, (AP)—America's Robin Hoods assembled at Grant Park today for their fifth annual national Archery championship. Bowmen from all sections of the nation were on hand to challenge the champion, Dr. E. K. Roberts. Championships were scheduled in both women's and men's divisions.

**Batterymen to Try For National Shoot**

Three members of Battery D, 249th Coast Artillery, Sergeants Elroy Call, Lorin Osborn and C. A. Lewand, leave tonight for Clackamas, Ore., where they will try out for the national rifle shoot to be held at Camp Perry, Ohio, this fall.

The national shoot is sponsored by the United States government. This is the first time any men from the local battery have tried out for the match.

Two new men, James R. Grover and Orval Harris, joined the ranks of Battery D last night. It was announced by Capt. Walter W. Abbey that there are still openings in the battery for a few good men.

**Wark's Injuries Worse Than First Report Revealed**

SEATTLE, Aug. 12, (AP)—A special dispatch to the Seattle Post-Intelligencer said Robert R. Wark, Seattle aviator, whose proposed Tacoma to Tokyo flight ended at Vancouver, B. C. Monday when his plane cracked up on landing at Ladner airport was taken to a Vancouver hospital last night in a serious condition.

The dispatch said a doctor's examination had revealed Wark may have sustained fractures of vertebrae in the neck and that it was learned both arm and leg ligaments on the left side had been torn, a piece of bone chipped from his left knee, and his jaw dislocated. The dispatch said he was suffering intense pain and had a high fever.

Wark's injuries were at first thought to be of a minor nature.

**Millions Suffer Agony With Piles**

New Method of Treating Is Only Effective Remedy

Found

A HOME TREATMENT GUARANTEED RESULTS

Everyone knows that piles and hemorrhoids are caused by swollen, dilated veins, but until the new method of internally treating piles was perfected, nothing seemingly would relieve except an operation. Now, thanks to the chemists of today, piles and hemorrhoids should soon be a thing of the past.

Only a person who has suffered long and terribly with piles can imagine how glorious it is to be free of such troubles, yet it can be done now. The chemists said—"Why can't we put a coating on a pill that when swallowed will not dissolve until it reaches the bowels? Then let it melt into a healing, soothing, pain banishing liquid that will help nature banish all signs of the trouble. Research resulted in the making of Colac Pile Pills and tests in thousands of cases prove it almost infallible. As one sufferer recently said—"It is the only thing that has helped me. For years I suffered terribly with piles. Could not work, stand up or lie down in comfort. It discouraged me to get no relief. Then one day a druggist friend told me about Colac Pile Pills—something entirely new—and I was desperate enough to try anything. To make a long story short, I got relief in two days and was cured in five, and haven't had a touch of piles since." Mr. John Quinlan, Glens Falls, N. Y., WHY SUFFER ANY MORE?

Similar cases in thousands of instances have responded promptly to Colac Pile Pills. Druggists are authorized to refund money if any user isn't relieved. Each bottle bears the name and is backed up by the nationally known reputation of the Colac Chemical Co., Brentwood, Md., who gladly mail a full size bottle in plain wrapper to any address upon receipt of 75c in stamps. If your druggist hasn't them,

**WE WELD WELL**

Our shop is completely equipped to do all kinds of acetylene welding. With our modern machinery we are able to do the work well and guarantee the seam to be as strong as any other part of the repaired piece. Welding our way saves time and expense of sending to the factory for replacement. We do little as well as big jobs well and promptly.

## Christner Kayoed By Butcher Boy From Livermore

OAKLAND, Calif., Aug. 12, (AP)—Max Baer, Livermore, Calif., heavyweight, took another step along the path to a championship fight by knocking out K. O. Christner, Akron giant in the second round of their scheduled ten round fight last night.

Baer, the finest heavyweight prospect developed on the Pacific coast since Jack Dempsey started here in 1913, won just about as he pleased. He scored three knockdowns in the first round and the gong was all that saved Christner.

**Grogy After First**

The Akron fighter came up grogy when the gong sounded for the second round and Baer swarmed all over him. The Livermore butcher boy scored two more knockdowns with a series of lefts and rights and finally laid away his more experienced opponent with a right hand punch to the jaw.

Christner looked fairly good during the first two minutes of the first round, but after that he didn't have a chance.

Christner, with a longer and more impressive record and weighing 200 pounds compared to Baer's 193½, was a short ender in the betting.

**Mrs. Moody Will Not Defend Title At Forest Hills**

SAN FRANCISCO, Aug. 12, (AP)—Mrs. Helen Willis Moody will not defend her national women's tennis title at Forest Hills, N. Y., this month.

Mrs. Moody, who has won the national title six times and captured the French and English championships this spring, said last night she intended staying at home with her husband and relatives for a time.

Not Giving Up Game

"It wouldn't be right for me to go away so soon when I have just returned from a long trip," she told the Associated Press.

I love competitive tennis and have no intention of giving it up, but I am not going to defend my national title this year."

The entry list for the national women's event closes today. In past years Mrs. Moody always has filed for entry well in advance of the closing date.

This year's championship matches begin August 18 at Forest Hills, N. Y.

**Emergency Board Provides Pay for Valley Flax Crop**

SALEM, Ore., Aug. 12, (AP)—Money for the immediate payment of farmers who have contracted their flax crops to the state of Oregon was provided by the state emergency board Monday, when it authorized a deficiency appropriation of \$245,000. The debt there-by created will be paid off from the sale of flax products.

It was estimated that \$296,000 will be required to handle the 1930 crop. But the state has received \$25,000 from seed advanced to growers and \$25,800 from pullers sold to the farmers.

At the request of Secretary of State Hoss, the board authorized \$6000 to cover a deficiency in the fund for the transportation of convicts within the state.

**Challenger Nears Coast of America**

ABOARD STEAM YACHT ERIN, Aug. 12, (AP)—The Erin conveying Sir Thomas Lipton's yacht Shamrock V, was at 39 degrees north latitude and 65.29 west longitude at 8 a. m. G. M. T. today (3 a. m. E. S. T.).

The ships hope to arrive at New London, Conn., Thursday.

**Boathouse Burns**

NEWPORT, Ore., Aug. 12, (AP)—The boathouse of the Yachting Club on the coast guard station on Bay Beach, was destroyed by fire at 2 a. m. today. Loss was estimated at \$20,000. The life boat, surf, boat and all beach equipment was destroyed. Origin of the fire had not been determined today.

## FIGHTS LAST NIGHT

By The Associated Press

Boston—Babe Hunt, Ponca City, Okla., outpointed James J. Braddock, Jersey City, (10).

Newark, N. J.—Arthur De Kuh, Italy, stopped Bud Gorman, Summit, N. J., (4).

Pittsburgh—Joe Dundee, Baltimore, and Buck McTiernan, Swantonville, Pa. drew (10).

Chicago—Ernie Peters, Chicago, outpointed Willie Pellgrin, Chicago, (10); Tommy Rios, Tucson, Ariz., outpointed Rosey Baker, Indianapolis, (10).

Toledo—Johnny Edwards, Columbus, Ohio, and Ollie Bartlett, Detroit, drew (4); Happy Atherton, Indianapolis, outpointed Frankie Gil, Toledo (4); Roger Bernard, Detroit, outpointed Tony Lupica, Toledo, (4).

**Insurance Agent May Lose License**

SALEM, Ore., Aug. 12, (AP)—Clare A. Lee, state insurance commissioner, yesterday held a hearing on complaint of the Metropolitan Life Insurance company demanding cancellation of the license of M. H. Packhour of Portland, an agent of the Atlantic Life Insurance company.

It was alleged that Packhour was formerly in the employ of the Metropolitan, and that since connecting with the Atlantic he had appropriated business rightfully belonging to the former.

The hearing was not finished and will be continued in Portland later this week.

**Improve Red Clover**

Hyalop points out that while Oregon red clover seed is rather disrepute in eastern clover markets, efforts are now being directed toward producing a strain that will be more in keeping with western conditions, and thus revive the market. He believes, however, that Oregon has an exceptional opportunity for expanding the acreage of alfalfa clover, which brings good prices in southeastern United States, and is adapted to conditions in parts of both eastern and western Oregon. Substantial acreage increases might well be made, he says, in Klamath, Lake, Crook, Deschutes, Baker, Union and possibly, Walla Walla counties in Eastern Oregon, and in Lane, Linn, Benton, Polk and Marion in the Willamette valley.

In the matter of crimson clover Oregon has both an opportunity and a responsibility, because this crop, while quite well adapted to well-drained lands of the Willamette valley and southern Oregon, has never been grown extensively, and the new tariffs were secured partly to allow Oregon to develop this industry, and supply markets previously supplied by importing.

He believes, however, that Oregon has an exceptional opportunity for expanding the acreage of alfalfa clover, which brings good prices in southeastern United States, and is adapted to conditions in parts of both eastern and western Oregon. Substantial acreage increases might well be made, he says, in Klamath, Lake, Crook, Deschutes, Baker, Union and possibly, Walla Walla counties in Eastern Oregon, and in Lane, Linn, Benton, Polk and Marion in the Willamette valley.

In the matter of crimson clover Oregon has both an opportunity and a responsibility, because this crop, while quite well adapted to well-drained lands of the Willamette valley and southern Oregon, has never been grown extensively, and the new tariffs were secured partly to allow Oregon to develop this industry, and supply markets previously supplied by importing.

**Improve Red Clover**

Hyalop points out that while Oregon red clover seed is rather disrepute in eastern clover markets, efforts are now being directed toward producing a strain that will be more in keeping with western conditions, and thus revive the market.
