The Priceless Ingredient

In the city of Bagdad lived Hakeem, the Wise One, and many people went to him for counsel.

There came to him a young man who had spent much but got little, and said, "Tell me, Wise One, what shall I do to receive the most for that which I spend?"

Hakeem answered, "A thing that is bought or sold has no value unless it contains that which cannot be bought or sold. Look for the Priceless Ingredient."

"But what is this Priceless Ingredient?" asked the young man.

Spoke then the Wise One: "My son, the Priceless Ingredient of every product in the market place is the Honor and Integrity of him who sells it. Consider his name before you buy."

Here's the reason every can of **HILLS BROS COFFEE** is so fresh

As fast as Hills Bros. Coffee comes from the roasters which produce the famous flavor, it is packed in vacuum cans. By this process, air, which destroys the flavor of coffee, is taken out of the can and kept out. No air-tight can will keep coffee fresh. Hills Bros.' vacuum can is easily opened with the key.

Controlled Roasting gives Hills Bros. Coffee a flavor no other coffee has.
