

5,000,000 MEN In The United States ARE OUT OF WORK

and 500,000 Independent Merchants Have Been Put Out of Business by Chain Stores in the Last Ten Years — Awaken to the Greatest Menace of Today

Railroad Men! Will Chain Store Trucking put you out of a Job? Better Think

This country faces the greatest unemployment situation in years. Five million men in the United States are walking the streets looking for work, and—500,000 independent merchants have been forced out of business by chains in the last ten years. Think of it! Consolidated merchandising uses less men, they work longer hours and pay them less wages. What do chain stores care about you or your family? NOW. In many parts of the United States chain stores have established their own trucking lines to avoid the railroad transportation charges, and the transfer charges that must accompany the railroad shipment. Consequently the railroads have "LAID OFF" men. Naturally the more chains that truck their goods the less work there will be for the railroad men. If your wife has been "saving at a chain store" she will soon SAVE you out of a job.

F. L. Laudeman:

General Vice President of International Association of Machinists Says:

"The great danger that confronts the people through the concentration of wealth, beyond a reasonable need lies in the fact that it will eliminate competition and place the masses at the mercy of a few dictators."

The Lieutenant Governor of Wisconsin Said Recently:

"We must take from these monopolies the sinews of great power and limit their field of exploitation or the dream of those who have preceded us having builded great communities and cities may be entirely shattered and the fine flowers of distinctive community life will go to seed."

"Every mother or father who steps across the threshold of a chain store helps to stifle the chances of opportunity of their sons and daughters."

"Every taxpayer who spends one penny with a chain is contributing to a fund in direct opposition to his own interests."

PUBLIC MARKET'S 9th ANNIVERSARY SALE

IN NINE YEARS YOU HAVE MADE THIS STORE KLAMATH'S LARGEST GROCERY, from a most humble beginning. STARTING WITH WOODEN BOXES for counters (which were furnished by K. Sugarman and the KKK store), publicity was plentifully furnished by E. J. Murray of the Evening Herald, many thanks to all three—we now have the latest type of steel equipment, two Fridges, electric slicing machine, auto delivery truck, and other modern equipment.

This has been accomplished all because of our loyalty to Klamath county and its products. We have never sold a pound of cheese but that made in Klamath; a pound of butter except that made in Klamath, nor any other farm product obtainable in season in Klamath county. We sell more Klamath products than any other store in Klamath county.

We have consistently kept our prices on competitive basis with those of chain stores and others. Consistently sold Quality and Nationally Advertised merchandise.

We maintain our own delivery system, giving five complete deliveries daily throughout the city. Any order amounting to \$1.00 is delivered without extra charge.

1921—Our First Delivery—1921

We Thank The People Of Klamath County And Thoroughly Appreciate Your Patronage. Eleven Clerks Will Welcome You Saturday.

Make Permanent Farm Improvements Yourself

With the Handy Farm Mixer

With a Handy Farm Mixer, you can make those long needed farm improvements—no wood to rot, no barrels to cove in. The simple gear drive is fully protected from sand and grit. One minute is all that is required to thoroughly mix a wheelbarrow load of concrete. The three blades in the barrel speed up and improve the mixing.

On an ordinary concrete-walk job from the house to the barn, you can save enough over the cost of having a contractor do the work to pay for a Handy Farm Mixer.

Come to see and use this money-saving mixer. It's low cost will surprise you.

TEACHER SPEAKS—

"If I had my way about it, every child in my classes would have to wear shoes fitted by a competent shoe man, and wear shoes that give growing feet a chance to develop normally. I know it would be much easier for me, and for the children, too, if this were always done, because I know happy feet make better scholars."

Harold McGugin

of Coffeyville, Kas.,

Says:

"Roosevelt"

Was scarcely in his grave before in any six months period there were more trusts and monopoly combinations established in America than Roosevelt dissolved during his entire term as president. This monopolistic program has been nothing less than insolence of the memory and name of Roosevelt. It has taken opportunity from the hands of every merchant, every farmer, every banker, every lawyer, every minister, in fact every free, independent individual citizen of the country."

He continues: "This American civilization has largely been built upon the rock foundation of economic independence of the individual citizen. When this economic opportunity and independence is swallowed up by monopolies and mergers then the decay of a great civilization will not only have begun but will be beyond cure. To restore the economic independence and opportunity of the lone, American citizen is something more than an economic program or campaign. It is a patriotic struggle worthy of all the heroism of fervent patriotism of loyalty to country."
