"Vote For Your Armory"

THE words in the above caption appear on placards which those advocating the construction of a new armory have distributed in the city and throughout Klamath county. Somehow the thought, "vote for your armory," has been growing on us until we have come to the realization that it means just what it says: YOUR ARMORY.

Had the individual or committee composing the slogan worked for a solid year a better one could not have resulted. The construction of an armory is strictly a community project and one which if completed will belong to you and every citizen of Klamath county. An armory is not for the exclusive use of the military forces. Although provided primarily for that purpose the law governing their maintenance permits its use for all public functions and in many towns of this and other states it has become a civic center. We have only to go over the Cascades to Ashland and Medford for proof of this. There the Armory buildings are used for numerous events of a public and semi-public nature, many of which would never occur were it not that the armories provided suitable quarters.

There is not in this rapidly growing city today a structure of sufficient size to accommodate public gatherings such as necessity often demands, and for which there will be an increasing demand in the future. The new armory will meet that demand and become an asset to the county as a whole.

The construction of a building such as is proposed will not entail undue expense, and when viewed from the standpoint of value which the citizens of Klamath county will derive from it, the proposal cannot help but roll up a big majority at the election two weeks hence.

In the language of the fellows who are so loyally devoting time and energy to furthering this good cause, we say: "VOTE FOR YOUR ARMORY".

Does The Consumer Benefit?

AN address delivered Monday by the president of the Institute of Meat Packers revealed that most meats are now wholesaling at from one-fifth to one-third lower than a year ago.

The announcement is good news only insofar as the decline is reflected in a correspondingly low price to consumers. Unless retail prices have been lowered from one-third to one-fifth the only class to profit by lower prices is the wholesaler. Those who grow cattle and other livestock are taking their loss, and unless consumers are benefitting by the decline prices for meat are badly out of adjustment.

We are reminded that wheat has been hitting the skids for some years, yet the decline in price to growers has not been reflected in the price charged consumers of bread. It is not difficult to guess who has been making the profit.

EDITORIALS FROM OVER THE NATION

Changing Days

Four new flags to remember— if you care to remember. Under orders from the league of Nations France has carved out four nations in the Near East. Each with its new flag, they are the state of Syria, the republic of Lebanon, the state of Latakia and the government of Jebel-Durze. Jabel-Durze, by the way, has a flag somewhat like that of the United States. In the top left corner is a red, white and blue rectangle. The rest of the flag is made up of five stripes, green, red, yellow, blue and white.

A Search for a Pig

New York Times: With any number of actors looking for work Eva Le Gallienne is having a hard time casting at least one role in her coming production of "Alice in Wonderland."

It is the sort of part in which the actor must simply play himself. Friends of Alice will remember that when she rescued the quiche's baby from the noisy kitchen where the pepper soup was brewing, the poor thing turned into a pig. Where to find this pig is what is puzzling Miss Le Gallienne.

It must be a small pig, if Josephine Hutchinson, alias Alice, is to carry it about comfortably. And it must stay small, to save the stage manager the bother of training a succession of young porkers. Pet shops in the city that have been interviewed deny the existence of a pig of this convenient kind. Of course, a guinea pig might serve; but, after all, the quiche's baby was not that sort.

small pig is the matter of changing the sneezing baby into a grunting pig of any size. Who's to play the baby, and how is it to accomplish the "protean change"? The business of its very turned-up nose becoming a snout, and its eyes getting "extremely small for a baby" is done readily enough in the book but it must present something of a problem on the stage.

Such Wonderland habits as the constant vanishings and reappearances of the Cheshire Cat, and the sudden increases and decreases in the height of Alice, would seem to call for a technique easier in the movies than in the theater.

Lost Motion

Los Angeles Times: A scientist asserts that the gasoline we are using and the motor wheels it acts upon do not actually develop more than 10 to 15 per cent of the latent energy of the product. It would seem that here is a wide field for improvement. If 80 per cent of the power in the country's gasoline is actually going to waste why doesn't somebody get out an injunction.

In fitting up one of the present day giant liners, 4000 mattresses are required.

DAILY WASHINGTON LETTER

You Never Can Tell What Will Happen in Election Campaigns
New York Mayor Name a Republican Governor, While Ohio, Illinois and Pennsylvania May Vote for Democrats.

BY RODNEY DUTCHER
NEA Service Writer
WASHINGTON, Oct. 21—

Strange things have been happening in the election campaign, giving rise to such ordinary freakish thoughts that a Republican governor can be elected in New York and that Democratic senators can be elected in Ohio and Illinois—with possibly a Democratic governor in Pennsylvania.

Perhaps none of these things will come to pass, but it takes such possibilities to pep up a campaign.

Widespread interest in the New York gubernatorial contest is due both to the part prohibition has been playing in politics up there and to the fact that if the Republicans happen to win, the Democrats of the country will have to start looking for a 1932 presidential candidate with a grand free-for-all prospect.

Governor Franklin D. Roosevelt is standing for re-election, opposed by U. S. District Attorney Charles H. Tuttle of New York City. Tuttle is a strong candidate, anyway, and the recent disclosures of graft among Tammany leaders in New York have provided him with a neat issue because Tammany is such an important part of the New York Democracy.

He has come out for the repeal of the Eighteenth Amendment, ridding himself of the dismal drawback of being a dry or straddling candidate, a distinctly wet state, and the recent disclosures of graft among Tammany leaders in New York have provided him with a neat issue because Tammany is such an important part of the New York Democracy.

He has come out for the repeal of the Eighteenth Amendment, ridding himself of the dismal drawback of being a dry or straddling candidate, a distinctly wet state, and the recent disclosures of graft among Tammany leaders in New York have provided him with a neat issue because Tammany is such an important part of the New York Democracy.

He has come out for the repeal of the Eighteenth Amendment, ridding himself of the dismal drawback of being a dry or straddling candidate, a distinctly wet state, and the recent disclosures of graft among Tammany leaders in New York have provided him with a neat issue because Tammany is such an important part of the New York Democracy.

Everyone who has been out in the large cities of Ohio reports a feeling that Robert J. Bulkley, wet Democrat, will defeat Senator Roscoe McCulloch, the dry Republican. Republicans in those cities are often more wet than Republican. Bulkley has been winning the straw votes. McCulloch apparently will have to depend on large majorities from the smaller communities, strongholds of the Anti-Saloon League. Despite the confidence of Democrats and wets in a Bulkley victory, however, it is well to remember the hard cold facts that Hoover carried the state over Smith in 1928 by a majority of more than 750,000 and that Senator Fess defeated his Democratic opponent that year by about 500,000.

Illinois Is Puzzle
Illinois went for Hoover by 450,000 and gave Senator Glenn a majority of about 375,000. The Illinois fight looks like a horse race, but Democrats here are even more confident of electing J. Ham Lewis over Mrs. Ruth Hanna McCormick than of electing Bulkley in Ohio. Mrs. McCormick's worst worry concerns the number of dry Republican votes the Anti-Saloon League can pull to its independent candidate, Mrs. Lottie O'Neill. Her next concern is the question how many voters oppose the idea of having a woman senator and how many

EIGHTEEN YEARS AGO IN KLAMATH

The discoloration entirely gone from his eye and displaying no signs of an alleged fracture of the skull, or of having been hit in the head with an ax, R. Vance Hutchins appeared before the city council last night and presented charges against the Mayor of Klamath Falls, the chief of police, and two patrolmen.

After violent argument, the session of the council finally came to a close when a motion to postpone consideration of the matter for a week was carried.

Because the necessary figures were not available for the information of the city attorney, the city council was not in a position to proceed with the proposed Pine street change of grade at the meeting last night, and the matter was postponed until the next regular meeting.

Headquarters for the republican county central committee

are opposed to Mrs. McCormick in particular.

In Washington, Mrs. McCormick has lost much sympathy because she employed detectives to shadow Chairman Nye of the Senate primary investigating committee and then boldly defied Nye to do something about it. Illinois voters, however, may regard her as just a spongy little gal from home who isn't letting a bunch of senatorial smart-alecks put anything over on her. Pennsylvania gave Hoover 3,000,000 votes to Smith's 1,000,000 and in 1926 gave John S. Fisher 1,100,000 votes to his Democratic opponent's 365,000. In the face of such majorities and the state's well known rock-ribbed Republicanism it is almost impossible to imagine that Mr. Hemphill, the Democratic candidate, will be defeating Gifford Pinchot or the governorship. Nevertheless, the strong Republican Vore machine is said to be combining with the wets against Pinchot and there will be no such G. O. P. majorities this year in the gubernatorial fight.

Boss Vore's hatred of Pinchot is deep and bitter, dating back beyond the time Pinchot helped hinder him from taking the Senate seat which the Senate never let him have.

Long doren is a popular name given to 13, also known as a baker's dozen.

There is no panic. There is a business depression, which has been brought about largely through the efforts of the Democratic party.—Representative L. J. Dickinson.

Queen Marie is not a good feminist. She is more the mother.—Princess Cantacuzene.

The public never knows what it wants until it has got it.—St. John Ervine.

Squeezing together two handles with which a new cooking kettle is equipped lifts it for pouring out its liquid contents, a tight lid protecting the hands from steam.

Livestock Show. Opens October 25. Future Farmers. Fine Displays.

SALEM, Ore., Oct. 21 (UP)—Some of the most pretentious exhibitions in the Pacific International Livestock show in Portland during the week of October 23 to November 1 will be displayed by the future farmers of America.

MORE THAN 60 teams from Oregon, Washington, Idaho, California and Montana will compete in the livestock judging contests for the various silver trophies, medals and pennants to be awarded the youthful contestants, according to Earl H. Cooley of the state department of vocational education.

PLAN 30 DISPLAYS
SHEEP, HOGS, beef and dairy cattle will be judged. The three high point youths from Oregon will be sent to the American Royal Livestock show in Kansas City, November 17 to compete in the national P. F. A. livestock judging contests against boys from other sections of the United States.

BLAST IN CARTRIDGE FACTORY KILLS SEVEN

PRESSBURG, Czechoslovakia, Oct. 21. (AP)—Seven young girls have died from internal injuries and burns caused by an explosion in a cartridge factory.

Quinn Construction Company Awarded Building Contract

The James L. Quinn Construction company has been awarded the contract for constructing the building to contain the gas machinery necessary to the furnishing of gas service, Louis J. Rust, manager for the Natural Gas Corporation of Oregon announced last night.

Work has already been started on the building and it is expected that this will be rushed in the same way that construction has gone ahead on the pipe lines.

It is expected that gas will be turned on early in December. Now that we are coming closer to the time that we can give gas service, many people are manifesting the greatest interest in securing appliances for cooking, heating and refrigeration," Mr. Rust said.

"Some people are surprised to hear that there is a gas refrigerator which is not only entirely noiseless but is also very efficient. It has no moving parts. While this gas refrigerator has been named the Electrolux, it is not in any way dependent upon electricity for its operation."

County Again Leads In Liquor Fines

Klamath county again leads the state in amount of prohibition law fines turned into the state's \$50,000 prohibition fund, according to word from Salem received here.

Louis C. Mueller was in charge of enforcement work in

the county during the time that the arrests were made and the money was collected and turned over to the state. Mr. Mueller is now a federal Indian officer in charge of enforcement on the Klamath reservation.

The figures show that Klamath county turned in \$7,400, while Multnomah county was second with \$6,000. In 1929 Klamath led the state with \$6,400 turned in and Multnomah was second with \$5,000.

FACT NO. 15. There are good coffees and bad coffees. There are 1st grades - - 2nd and 3rd grades - - - cheap blends - - good, bad, and indifferent. Do you believe that all these kinds of coffee can be produced in the same factory, and still maintain the good kind at its best at all times? Schilling believes that cheapness is contagious and Schilling is the only one who specializes on a 1st grade coffee. No cheap coffee finds its way into the fragrant Schilling roasting rooms. The finest things usually come from those who devote themselves to fine things exclusively.

FACT NO. 31. Mix 1 part of Schilling Cinnamon to 10 parts of hot water. Do likewise with any other cinnamon. Dip a cube of sugar in each of these solutions, and place on the tongue. Then YOU decide which has the finer flavor! Schilling's is made from the finest Saigon cinnamon bark—unadulterated with cheaper grades.
