ECONOMISTS IN DISTRIBUTION THE NAME OUR POLICY

SCALDED TO DEATH

THAT'S really what happens to fine silks and fluffy woolsens when you wash them in hot water. But, you say, you can't get them completely clean any other way. That's where White King Granulated Soap comes in.

White King is a vegetable and not oil soap. No coarse animal fats are in its make-up. The result is quick, rich suds, thorough cleansing, and swift rinsing in lukewarm water. Wash your fine things with White King in lukewarm water, and spare their delicate lives. Your hands will bless you for it too.

White King is economical. One teaspoonful in a basin of water, one cupful in the wash-tub—that's all you'll need. Try it today. Sold by grocers everywhere.

"Cheapness" is contagious

The finest things usually come from those who make fine things exclusively. Schilling makes only fine coffee—so can anyone else—but only Schilling does it.

Cheap coffee never enters nor leaves the Schilling roasting rooms, for Schilling believes that "cheapness" is contagious.

the quality you would insist upon if you knew all of the facts.
