

OPENING DAY OF SEASON IS BIG SUCCESS

(Continued from Page One)

... Pursued with red hatted hunters. R. C. Prudhomme was one of the earliest hunters to return. He bagged a buck on Hayden mountain near the Greensprings highway and reported that 15 animals were taken out of a three mile area in a few hours.

George Van Buskirk secured his buck in the same region and H. R. Wagner returned from Gearhart mountain with a deer. Among other fortunate hunters were Rusty Griffith and Max Hulse, each of whom bagged a five-point mule deer on Parker mountains.

A 250-pound, five-point mule deer was shot by R. C. Dabrucky on Leonard creek, east of Gearhart.

Jack Fitzgerald and his brother each returned with a deer. Others who returned with deer were the first day were W. G. Dixon and Prince Packard of Klamath Falls and Carl Swanson of Modoc Point.

Among those who have their deer in storage already are Frank Farr, who bagged a 135 pound buck; C. O. Drummond, 100 pound deer; Thomas Tillman; Russell Griffith, 120 pounder; Frank Nimbley, 135 pounder; Beverly Thomas, 135 pounder; F. W. Overman, 140 pounder; Dick Conquest, 135 pounder; and R. M. O'Brien, 148 pound deer.

The only huntress to return with a buck, as far as could be learned Monday, was Gladys Shelton who secured a 135 pound mule deer.

Norman E. White, 16 year old boy, secured a four point mule buck, weighing 175 pounds, on the first day of the season. Norman, with a boy companion, left Klamath Falls early Sunday morning for Irons Valley, 75 miles east of Klamath Falls, returning the same evening with his buck. The deer was killed with a .22 rifle.

George L. Brooks bagged a 2-point mule in the Irons creek district Sunday morning. Sheriff Lloyd Low got the jump on the Oregon season and went into California late last week. He and a companion each got a nice animal.

Deputy County Assessor Glenn Terrill was one of the lucky hunters on the first day of the season, returning with a fine 4-point buck. Henry Leitake, Terrill's hunting companion, was also fortunate in bagging a fine deer. Leitake's buck boasted 5 points.

CRATER LAKE NATIONAL PARK—Hunters entering the Crater Lake park area during the deer hunting season to open soon are warned by park authorities to confine their activities to state owned and national forest lands. Every animal in the park is protected by law, the violation of which at the least will mean a jail sentence.

The park boundaries will be patrolled during the length of the season by rangers who are to make arrests of hunters who have wandered over the boundary or the arrests of persons who may claim they are open season hunters, but who are nevertheless carrying unsealed guns.

The boundary is well marked and there will be little excuse for nimrods to hunt in the park. Violators will be brought before William G. Steel, United States commissioner, who promises a jail sentence, not less than 30 days and a minimum fine of \$100. The maximum is \$500 and six months in jail.

If deer carcasses are properly tagged and conclusive proof is available that the animals were killed outside, it will be permissible to transport them through the park. However, careful investigation will be made of each carcass checked by rangers.

BILL BROUGHT IN TO SUSPEND GOLD STANDARD

(Continued from Page One)

Indemnity for the bank of England's action regarding gold authorized by the government yesterday, it empowered the treasury to take such action as it considered expedient for meeting any difficulties arising in connection with the gold standard suspension.

Mr. Snowden said the bill would not affect the free gold market in London. There would be no restrictions on the importation or exportation of gold, he declared, and no impediment would be placed upon the free flow of gold put into the safe custody of the bank of England by foreign governments or foreign banks.

The chancellor of the exchequer explained that the bank of England also stated that heavy demands for exchange on New York and Paris continued while the bank had been subjected to a drain of gold by Holland.

Thanks to France There is no evidence of any substantial export of capital to foreign countries by British Nationals, Mr. Snowden declared. Mr. Snowden expressed thanks to the governments of the United States and France for the readiness with which they had helped Great Britain.

The British government, he explained, had received from the bank of England a letter saying that Franco-American credits arranged by it were exhausted and that French credits arranged by the British government were practically exhausted.

New Transcontinental Rail Service Starts East

The entire town of McCloud, Cal., joined in the celebration of the first being the beginning of the new transcontinental rail service east. Sixty carloads of lumber comprised the first load over the new Great Northern extension south from Klamath Falls to its completed terminus at Bieber, Calif., passed through Klamath Falls, Bend, Wislram and Spokane bound for St. Paul and Minneapolis, Minn.

STOCK MART IN RALLY; MORGAN IS OPTIMISTIC

(Continued from Page One)

work of the national government, the first being the balancing of the budget," Mr. Morgan said.

"The completion of the government's work will be the restoration of trade in this country," Mr. Morgan said.

"This being the case," Mr. Morgan continued, "it seems to me a hopeful and not a discouraging event and one which brings the great work of the government much nearer to accomplishment."

Mr. Morgan's speech was the first since he returned from his recent tour of the West. He discussed the word of confidence for the character and ability of the English people.

Others Agree Several other financiers expressed similar opinions. Without exception, they held the view that the government's latest step is in the right direction and that Britain will weather her crisis.

There was no disposition to try to evade the fact that the situation is very serious. Indeed, one of the most hopeful signs these financial experts find is that England does not recognize the situation is serious and is attacking her problem from that standpoint.

Other financial commentators requested that their names be withheld but here are some of the points made by several American bankers, all of whom are widely known.

Suspension of the gold standard by Great Britain not only was not unexpected, but it was a logical and foregone conclusion.

From the standpoint of the financial expert it was the correct move.

The only criticism offered is that it should have been done before.

Far from being disconcerting this move has cleared the atmosphere.

Editorials on News

(Continued from Page One)

disgusted world looking on that nothing could bring the Chinese to their senses, but Japan's intrusion might have just that effect.

Stranger things have happened. A DISPATCH from Lima, in Peru, says that Indians in the vicinity of Cuzco have risen in rebellion, the trouble being ascribed to COMMUNIST PROPAGANDA.

In Russia, a few communists at the top have succeeded in practically enervating all the masses of the population that are AT THE BOTTOM. These masses are driven to work under the spur of authority, just as the slaves in our own South in the old days were driven to work under the whip of the overseer.

And all over the world these same communists are preaching rebellion in the name of FREEDOM, and here and there, as in this instance in Peru, they are getting away with it.

In some ways, this is a curious world. THE next time you drive at night around a curve that has been marked with a white line in the center of the highway, note how easily and surely this white line locates the center of the road for you and makes it possible to stay on your own side, even in the face of blinding headlights.

Then ask yourself if you wouldn't like to have this white line extended down the center of ALL state highways, on straightaways as well as curves.

THE toll of death on the highway is frightful, and we are striving in every way we know to reduce this toll. Most fatal accidents occur because, for one reason or another, cars get on the wrong side of the road.

The white line in the center helps drivers to keep on their own side of the road, especially at night when meeting headlights. It is inexpensive.

In this writer's judgment, it ought to be adopted as standard practice on all of Oregon's paved highways.

3 TAKEN FROM PLANE WRECK BY MOTORSHIP (Continued from Page One)

Da Costa Viegas, Portuguese sportsman, hopped off from Junca Do Sol, about 30 miles from Lisbon, Portugal, at 4:30 a. m. (E. S. T.), September 12, bound for New York. Their Junkers all-metal plane was heavily laden with 625 gallons of gasoline and 165 gallons of oil.

Seen by Pennland They were reported to have passed over the Island of Fayal, in the Azores, at 12:47 p. m. (E. S. T.), on the day of their takeoff.

They last were sighted on September 14, at 1:40 p. m. (E. S. T.), by the steamship Pennland about 80 miles southwest from Cape Race, Newfoundland, and 295 miles east of Halifax.

M'Rea Gets Five Years in Prison (Continued from Page One)

Rea, has not yet announced whether or not he will appeal this case. If the case is not appealed, the third forgery indictment against MacRea will be dismissed, according to Deputy District Attorney Hardin Blackmer. Should the present case be appealed, however, MacRea will be tried on the third forgery charge.

The jury panel has been ordered to appear in court Tuesday morning, at which time it scheduled the trial of R. D. Whittlesey, charged with reckless driving.

Following the Whittlesey trial is scheduled the second trial of Ralph Johnson, also indicted on reckless driving charges.

Sentencing of John Swartz, who waived indictment by the grand jury and pled to charges of forging the name of C. C. Low to more than \$200 worth of checks, is scheduled for later in the week.

HOOVER WARNS VETS AGAINST MORE DEMANDS

(Continued from Page One)

national stability. We can carry no more without grave risks." Mr. Hoover accepted the "thanks of this nation," the Legion's offer to cooperate in relief this winter, but said there was need of an even greater service.

"That is the determined opposition by you to additional demands upon the nation until we have won this war against world depression," he asserted.

He emphasized he was not speaking alone of veterans' legislation, but equally of demands for every other federal proposal requiring increased federal appropriations.

The first stone in the foundations of stability and recovery, both at home and in the world," he said, "is the stability of the government of the United States. It is my purpose to maintain that stability, and I invite you to enlist in that fight."

Flow From Europe Mr. Hoover said the depression flowered largely from Europe through fundamental dislocations of economic and political forces caused by the world war, and America's economic strength was such that it would have recovered long ago "but for those forces from abroad."

"Recovery of the world," he said, "now rests and awaits in no small degree upon our country, the United States of America. Some individuals may have lost their nerve and faith, but the real American people are directing themselves out with industry and courage."

"We have the self-containment, the resources, the manhood and the intelligence, and by united action we will lead the world in recovery."

The president's speech, written hurriedly because of his last minute decision to address the Legionnaires was not completed until a short time before he reached Detroit.

The colorful audience frequently interrupted the president with loud applause, first as he declared united action would permit America to lead the world to economic recovery, and again as he accepted the offer of the legion to cooperate in nation wide recovery.

QUAKES SHAKE MIDDLE WEST, JAPAN AREAS (Continued from Page One)

were most severe. Deep rumbling accompanied the tremors. The quake of 1811 occurred early in the morning of December 16, wrecking boats on the Ohio river and tumbling chimneys. The most striking result was the formation of the celebrated reelfoot lake, 18 miles long, in western Kentucky and Tennessee.

JAPAN SHAKEN TOKYO, Sept. 21. (AP)—Japan's most severe earthquake since 1224 shook Tokyo and adjacent regions today. Incomplete reports showed twelve deaths, 40 seriously injured and considerable property damage.

The quakes occurred at 11:30 a. m. (9:20 p. m., Sunday, E. S. T.). Yokohama, Kobe, Fuku-shima, Nagoya and various other cities on Hondo Island felt the shocks.

Thousands of persons ran from their homes in Tokyo and Yokohama, where the great earthquake of 1923 did enormous damage and installed in the populace an acute fear of earth shocks.

Department stores and other business places, which were thronged with morning shoppers, witnessed scenes bordering upon panic.

Flashes appeared in the pavement of many Tokyo streets. Because of crippled communication lines reports from the affected areas were slow in reaching here.

Shake after-shocks were felt in Tokyo this afternoon, again frightening the populace.

Rally Day Held in Churches of City Rally day was observed in the Sunday schools of various Klamath Falls churches Sunday, with hundreds of pupils participating in the programs.

In each of the schools the program outlined by the board of education was carried out.

Makes You Look So Fresh, Young MELLO-GLO, the new face powder will keep your skin from exposure and preserves its youth. The new French process by which it is made makes it stay on longer, spread smoother, and will not clog the pores. Its special tint is youthful. No flakiness or irritation with MELLO-GLO. Try this new wonderful face powder.—Underwood's Pharmacy.

GRAIN BREAKS ON BRITISH REPORTS

CHICAGO, Sept. 21. (AP)—Wheat breaks in grain prices resumed today from England's financial crisis. Enlarged wheat buying subscribed in part to mills and exporters acted later as a complete offset.

Offerings of North American wheat to Great Britain overnight were promptly accepted.

Late upturn in grains were facilitated by action of securities. Notable relative strength shown by the Winnipeg wheat market also was a steady factor, although the course of Canadian quotations was adversely based on assumed likelihood that British Empire preference for Indian wheat hereafter was virtually assured.

Wheat closed nervous 3/4-1/2 cents down, corn 1/4-1/2 off, oats unchanged to 1/2 higher, and provisions varying from 25 cents setback to a rise of 2 cents.

MARKET QUOTATIONS

PORTLAND LIVESTOCK PORTLAND, Sept. 21. (AP)—Cattle, 2650; calves, 235; Steers 600-900 lbs. good 4.50-7.00, medium 3.26-6.50, common 2.75-5.25; 900-1100 lbs. good 6.50-7.00, medium 3.00-5.50, common 2.50-5.00; 1100-1300 lbs. good 6.25-6.75, medium 4.25-6.25, Heifers 550-850 lbs. good 5.50-6.00, medium 3.50-4.50, common 2.25-4.50.
