

REGIONAL RED CROSS CONFERENCE IS SEPT. 28TH

Klamath chapter has been invited to send delegates to a regional conference of Red Cross chapters to be held in the Presbyterian church, Medford, on September 28, it was announced Monday by Geo. J. Walton, active secretary. Eight other communities in Oregon and Northern California will be represented. J. C. Thompson, chairman of the Jackson County chapter of the Red Cross, will preside.

The first year marks the 59th anniversary of the founding of the American Red Cross by Clara Barton. The conference at Medford will take special cognizance of this milestone in Red Cross history, and the keynote address will be "The Outlook After Paris," by I. Schaffer, manager of the Pacific area, Walton said.

"Medical Activities of the Red Cross in Drought Relief" will be the topic of a luncheon address by William DeKleine, M. D., medical assistant to the vice chairman of the national organization. Dr. DeKleine has directed Red Cross health operations in all the major disasters of recent years, and the result has been that better health conditions have prevailed in those areas after the disaster than before. This is Dr. DeKleine's first visit to the Northwest. He will be introduced by the Hon. E. M. Wilson, mayor of Medford, who will give the address of welcome.

Significant developments of the Red Cross in the disaster area will be traced by Miss Aida Bigelow, field representative for Oregon. Miss Mary Annin, executive secretary of the Lane County Red Cross chapter at Eugene, will speak on "How the Red Cross Program is Adapted to Our Community Needs."

The continuing responsibility of Red Cross chapters in providing comforts and recreations for disabled men in government hospitals will be discussed by Miss Elizabeth McKinley, director of Red Cross service at the Naval hospital at Bremerton, Washington.

Due to heavily increased demands upon the Red Cross relief, especially to veterans and victims of disaster, a concerted effort will be made throughout the country to obtain a substantially greater number of members and contributions at the coming roll call from Armistice Day to Thanksgiving. J. C. Thompson, chairman of the Jackson County chapter, will speak on "How We Get Our Members."

"Accidents—offing America," by Ralph Carlson, will be another feature of the program. Mr. Carlson will accompany his remarks by a dramatic demonstration of first aid and life saving methods as taught by the Red Cross to all sessions of the conference are open to the public, to whom those in charge extend a cordial invitation to attend. Particularly welcome will be those who served local chapters during the World War or during earlier periods of its history, such as the Spanish-American war, or in historic disasters. Those signifying intention of going from here are Mrs. R. E. Wattenburg, Mrs. E. G. Dreher, Mr. and Mrs. Geo. J. Walton, Mrs. William A. Jones and Rev. Joseph E. Smith.

Similar conferences are being held in thirteen other cities on the Pacific slope during September and October.

TRAFFIC TIPS

The driver of a vehicle shall not drive to the left side of the center line of a highway on overtaking and passing another vehicle proceeding in same direction unless such left side is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completely made without impeding the safe operation of any vehicle approaching from the opposite direction or any vehicle overtaken, nor shall the driver of a vehicle in any event drive to the left side of the center line of a highway when approaching the crest of a grade upon a curve in the highway where the driver's view along the highway is obstructed within a distance of five hundred feet.

OFFICERS ARRIVE WITH PRISONERS

H. E. Hess, sheriff of Coos county, and Joe Kinsey, Klamath deputy sheriff left Klamath Falls Sunday with two prisoners who were taken to Coquille to answer to charges of forgery and cattle rustling.

Albert R. Nelson was arrested in Salt Lake City, on forger charges and is being returned to the coast city where he resided about three weeks before leaving for Utah.

According to officers, Nelson drew drafts on the Bank of Italy of Sacramento, Calif., one for \$14,000 and one for \$2600, and on the strength of these receipts started writing checks which were cashed by Coquille merchants. The sheriff stated that Nelson has already served an 18-month term in the penitentiary at Utah for forgery.

The other prisoner being returned by the officer is Mervin Mahaffey, charged with cattle stealing, and Sheriff Hess said that his arrest starts to untangle a series of sheep and cattle stealing episodes in Coos county.

Mahaffey is accused of hitchhiking cattle which was sold to butchers who purchased it without tags, and authorities have evidence of about a dozen cases where this occurred. Mahaffey left Coquille during the investigation by officers and was apprehended by Sheriff W. C. McElvain at Kemmerer, Wyoming.

Special Musical Feature Coming To Pelican Soon

A special added attraction with "Women of All Nations" is a presentation of two prominent musicians in violin and piano, Tuesday at the Pelican. Idamea Stauffer is well known in radio circles. Her accompanist is Tom O'Brien. They are both presented under the auspices of the Eichens club studios of Portland, having been pupils of Frank Eichens. Klamath Falls is to be congratulated in having the opportunity to hear Miss Stauffer in concert. Music critics commend her work highly. Her technique is excellent and her tone full, broad and authoritative. Her firmness and assurance of performance are outstanding. Her program Tuesday will include Kreutzer's "Slavonic Dance" and other well-known numbers.

"Women of All Nations" is heralded as another "Cock-Eyed World" and features Victor McLagen, Edmund Lowe, Greta Nissen and the popular Swede, El Brendel. There will be no added charge for the added attraction.

Bible School Body to Meet Sept. 28

The meeting of the board of the week day Bible school has been postponed from tonight until the evening of Monday, September 28, according to an announcement from Rev. T. Davis Preston.

Miss Dorothy Smith, who has been appointed teacher for the Bible school classes, has recently returned from Portland, where she secured some valuable material for the year's work.

Plans for H. S. Reception Made

Plans are being formulated at the Klamath Union high school for the annual freshman reception at the high school Friday evening, September 25, according to Principal Paul T. Jackson. The event will honor new students.

Miss Katherine Ulrich and her social committee are outlining the program. All parents of high school pupils are cordially invited to attend.

Design Cars For Greater Speed

SALEM, Ore., (UP)—Oregon motorists who like to "step on the gas," just listen to this. State house engineers looking ahead five to 10 years, are giving attention to changes in design and construction of automobiles which will make possible normal speed of 65 to 75 miles an hour.

The first automobile was equipped with pneumatic tires in 1892 by Panhard and Levasor, French manufacturers.

THOUSANDS SEE 20,000,000TH FORD IN CITY

A crowd of several thousand people attended the ceremony at the Baisiger Motor company, Saturday evening, in observance of the visit of the 20,000,000th car, manufactured by Henry Ford, which arrived with an escort in the afternoon.

Previous to open house in the showrooms of the garage, E. H. Baisiger was host at a dinner at the Elk hotel to Ford company officials, Mayor P. H. Coffey, Guy Merrill, chief of police, and businessmen of the city.

Visitors who went to the garage to view the Ford were entertained by the Klamath Wranglers, and dancing was enjoyed until midnight.

On the car is an Oregon license, number 20,000,000, and while the Ford was in Kentucky it was presented with a gold-plated license of the same number.

The party of Ford officials from Portland and Detroit will remain in Klamath over the week-end, motoring to Crater Lake today where motion pictures will be taken. Members of the party stated last evening that they were amazed at the turnout of citizens here, and surprised at the beauty and completeness of the Baisiger plant.

Officials who are accompanying the Ford are Colonel Wilhelm, F. E. Lundstrom, branch manager of the Ford company at Portland; J. Bullwinkel, branch manager of the San Francisco plant; Mill Burgoine, assistant manager at Portland; C. J. Powell, head of the commercial department; Vic Ballinger, name manager; A. J. Rada, head paymaster; O. E. Latham, Goodspeed, Amoleve, and Thompson. The caravan is escorted by Glen Webster and E. Hale, state police.

80,000 Head Nevada Cattle To Be Moved From State To Feed

Governor Fred B. Balzar of Nevada has appointed an agricultural relief committee, according to a recent announcement. Cecil W. Creel, director, Nevada Extension Service, is secretary of the committee.

Last week, according to Creel, the committee met with representatives of the Southern Pacific and Western Pacific railroads and requested a 50 per cent reduction in existing rates for cattle and sheep as well as concentrated feeds (including cottonseed cake) into the state in order to cope with the drought situation.

The survey of the committee indicates that between 30,000 and 90,000 head of cattle will have to be moved from eastern Nevada, while the hay surplus in western Nevada will not exceed 40,000 tons over and above the local demands.

This indicates that 40,000 to 50,000 head of cattle will have to be moved out of the state, plus the importation of considerable cottonseed cake if the stockmen are going to get through the winter without heavy losses, concluded Creel.—Western Cattle Markets and News.

Statisticians report that the country has been eating less candy the last few months. We don't know whether to blame that on prohibition or those Em-press Eugenie hats.

EXAMS FOR U. S. JOBS ANNOUNCED

The United States civil service commission has announced open competitive examinations as follows:

Senior foreman (poultry feeding, fattening, dressing and storing), \$2,000 to \$2,600 a year, bureau of animal industry, department of agriculture. Closing date, October 1, 1931.

Assistant veterinarian (bacteriology), \$2,600 to \$3,200 a year, junior veterinarian (bacteriology), \$2,000 to \$2,600 a year, bureau of animal industry, department of agriculture. Closing date, October 3, 1931.

Agronomist (sugar cane), \$3,600 to \$4,600 a year, assistant agronomist (sugar cane), \$2,600 to \$3,200 a year, bureau of plant industry, department of agriculture. Closing date, October 6, 1931.

Assistant statistician (public health), \$4,600 a year, public health service. Closing date, October 6, 1931.

Principal examiner, \$5,600 a year, senior examiner, \$4,600 a year, agricultural, biological or physical science, personal classification level. Closing date, October 19, 1931.

Associate chemist (industrial hygiene investigations), \$3,200 to \$3,500 a year, assistant chemist (any specialized branch), \$2,200 to \$2,600 a year, assistant chemist (any specialized branch), \$2,600 to \$3,200 a year; various services. Closing date, December 30, 1931, except that the commission reserves the right to issue subsequent notice closing the receipt of applications before that date.

All states except Delaware.

Who's Coming?

SALEM, Ore., (UP)—It's getting to be old fashioned for a baby to be born "at home."

"And a good thing for the baby, too," adds the state board of health.

A goodly portion of Oregon infants are born in maternity homes and hospitals each year, state health records reveal.

At the same time, statistics show that the child born where the mother is under the direct care of specialists has a greater chance of living than the infant born in the private home.

"Adequate care for both mother and child plays an important part in prevention of both infant and maternal mortality," the board pointed out.

Here's a friendly tip to youth, by George Washington White: "If you don't take along your brains when you go to college, you can't expect to bring home much of an ed-u-cation."

Sinnott Memorial Glasses Tell Story of Crater Lake Geology

CRATER LAKE NATIONAL PARK, Ore.—With a portion of the equipment and exhibits recently installed, the Sinnott memorial museum and observation station, is rapidly developing into one of the big feature attractions of Crater Lake. Through the use of high-powered glasses, the lake is enabled to tell its own geologic story.

The glasses are placed on the parapet of the memorial, located on Victor Rock, nearly 1000 feet above the surface of the lake, and have a self-explanatory card with each. A series of glass cases contain specimens of rock, photographs and bits of interesting formation.

The first of the glasses is directed toward Timber Crater, east of the rim. It is one of the four volcanic cones visible from the observation station. The second glass is pointed toward the Devil's Backbone, volcanic dike, in the inner rim of the lake. Alternate layers of ash and lava provide the next view, followed by a view of Dutton Cliff.

Glasses of 12 power are directed toward Lion Rock, lava plug in a glacial valley formed ages ago. The crater of Wizard Island supplies the next view, through 6-power glasses. Punice Point and Phantom Ship are other interesting views to be seen from the station. The Cascade range from Mt. Rainier to Mt. Lassen, specimens of lava from Mt. Lassen as well as from the four volcanic cones visible from the memorial,

Alleged Attack With File Cause of Damage Suit

Suit for damages was filed in circuit court Monday by Lewis D. Payne versus E. L. Perkins. The plaintiff alleges that Perkins assaulted him without provocation, with an iron file, inflicting painful and permanent injuries.

On the first cause of action the plaintiff asks for \$50 for medical services; on the second count, \$700 for alleged personal injuries; and on the third count \$500 punitive charges.

Edward D. Ashurst, attorney, represents the plaintiff.

It's Old Fashion For Baby to Be Born in Home

SALEM, Ore., (UP)—It's getting to be old fashioned for a baby to be born "at home."

"And a good thing for the baby, too," adds the state board of health.

A goodly portion of Oregon infants are born in maternity homes and hospitals each year, state health records reveal.

At the same time, statistics show that the child born where the mother is under the direct care of specialists has a greater chance of living than the infant born in the private home.

"Adequate care for both mother and child plays an important part in prevention of both infant and maternal mortality," the board pointed out.

PORTLAND MAN DIES SUDDENLY AT LAKE

Dowey Rawland, 33 year old Portland, Ore., resident died at Crater Lake at 5:50 Sunday afternoon. His death was attributed to myocarditis, caused by the high altitude. Rawland had been employed since June by the P. L. Crooks and Co., Inc., of Portland, contractors on the Crater Lake rim road.

Rawland came to Crater Lake in the summer and had been employed as steam shovel operator on the new road work. He had complained numerous times about the high altitude and suffered from severe nosebleeds and ear aches, according to a long distance message from his wife in Portland.

Early Sunday afternoon he appeared in good health but at 4:30 became suddenly ill and died before a doctor could reach him. M. F. Glavin, vice president and superintendent of the Crooks company, was with him at the time.

Rawland was born in Kelso, Wash. and was 33 years, 7 months and 19 days old at the time of his death. He is survived by his wife, Clara, who visited here early in September, a daughter, Patricia, and son, Billy of Portland, Ore. He was affiliated with the Masopk Lodge of Portland and the steam shovel operators union of Portland.

The body is being cared for at the Earl Whitlock Funeral Home and will be shipped to Portland for burial.

TURKEY GROWERS COMPLETE GROUP

Directors of the Klamath Turkey Growers' association met Saturday at the county agent's office and completed incorporation of the association and organization.

A membership drive will start immediately with a fee of \$1 payable on joining and good as long as the person is a member. Members also sign a marketing agreement that they will sell their birds through the Klamath association, which will affiliate with the Oregon Turkey Growers which in turn is affiliated with the Northwest association.

The Northwest association has marketing connections in all the larger markets of the United States and is able to secure the highest price for turkeys it handles. E. M. Hauser, assistant county agent and secretary of the association, states.

Articles of the association and by-laws were presented, and extension economist of Oregon State college, were adopted and a marketing agreement was accepted.

Turkey growers wishing to affiliate with the Klamath Turkey Growers are requested to visit the county agent's office in the court house or to get in touch with one of the following directors: H. J. Tichnor, Mrs. Otto Webbles, Mrs. French E. Johnson, Mrs. William F. Jinnette, and Mrs. Boyd Thatcher.

Four Marriage Licenses Given

Four marriage licenses were issued at the office of the county clerk Saturday.

John William Thompson, 24, laborer, and Mildred Evelyn Devan, 16, both of Benana; and Joan H. Neimoyer, 48, engineer, and Millie Neimoyer, 36, both of Medford, were married by Justice of the Peace W. B. Barnes shortly after taking out their marriage licenses.

Murray P. Schoolman, 27, salesman, and Ruby Anna Neil, 37, bookkeeper, both of San Francisco, and William Cephas Griffith, 53, truck driver, and Sarah E. Brandon, 55, both of Merrill, were licensed to wed.

Henderson Back From Valley Fair

County Agent C. A. Henderson returned late Saturday from Medford where he judged livestock at the Jackson county grange and club fair, held there Saturday.

ELEVEN IN COURT MONDAY MORNING

Eleven law violators arrested by police officers over the past week end, paid fines in municipal court, forfeited bail or began serving sentences in the city jail Monday morning.

Fred Culiner, charged with being drunk and disorderly, forfeited \$20 bail when he failed to appear in court to answer to the charge; C. O. Bishop, charged with speeding and breaking glass on the streets, forfeited \$10 bail; V. Boeacner, charged with intoxication, forfeited \$10; James Newton forfeited \$10 on the same charge, while Jim Foy, Eugene Weeks and John Olsen, all charged with being drunk, began serving jail sentences in lieu of paying \$10 fines.

J. C. Chambers, charged with reckless driving and operating an automobile without a driver's license, paid a fine of \$15 on charges of speeding, and hearing for Francis Hess, charged with speeding, and having no operator's license, will be set at a later date.

ROASTING OF COFFEE MORE IMPORTANT THAN THE BLEND

The first poet to assume the title of poet laureate of England was Geoffrey Chaucer who, in 1359, got a royal grant of a yearly allowance of wine as one of the perquisites of the office.

Under-roasting and Over-roasting Produce an Unsatisfactory Flavor

It is a fact that two lots of coffee from the same blend can be given entirely different flavors by different degrees of roast. A delicious, uniform flavor in coffee depends upon a uniform roast.

Hills Bros. invented and patented Controlled Roasting—a process that roasts perfectly all the time. Hills Bros. Coffee always has the full charm of the flavor that Nature puts in the coffee berries.

As the accuracy of the hour-glass depends upon an even, continuous flow... a little at a time... so a perfect, uniform flavor is secured in Hills Bros. Coffee by Controlled Roasting—the patented process that roasts evenly, continuously... a little at a time. There is automatic control of heat—thereby eliminating guesswork, which is the constant problem when coffee is roasted in bulk.

Vacuum cans preserve the wonderful flavor of Hills Bros. Coffee. Air, which destroys the flavor of coffee, is removed and kept out of these cans. Ordinary "air-tight" cans won't keep coffee fresh. Order Hills Bros. Coffee today. Ask for it by name, and look for the Arab trade-mark on the can.

Hills Bros. Coffee, Inc., San Francisco, California. © 1931
