

YOUR CHARM May Lie SLEEPING

Does your mirror reveal the hours spent in cooking and other household duties? Have you never wondered why you haven't as much leisure time as other women—who somehow seem to accomplish as much or more around the home. Come to school with us. Let Ethel M. Hall, known to thousands who have had their housework burdens lifted as Mildred Kitchen, show you the way to happy, healthful homelife. Ethel Hall knows your problems and how to solve them. She is an outstanding authority among Home Economists on the Pacific Coast. Her topics range from the kitchen to the boudoir, from preparing food tastily to keeping that youthful appearance, from reducing weight to planning diets. Come and see what clever things can be done with ordinary everyday foods. Bring your household problems and let her help you. Every woman in Klamath County can learn many new, useful and interesting ideas at each of the three afternoon and the evening session. It's free, of course.

Herald and News School of Home Economics
