Editors To Ban Word 'Depression' From Newspapers

LOS ANGELES, Nov. 12, (AP)—America's pessimists, in the eyes of the nation's newspaper publishers, awoke today to find their favorite word "depression" had been routed by the stiff arm of suppression.

As far as some of the 150 editors attending the American Newspaper Publishers' association convention are concerned, the word doesn't exist any more, especially in reference to business.

They decided it was a high-hat word invented to substitute the words "hard times" and even "panic," now considered too harsh for ordinary use.

Piles Go Quick

Thousands of sufferers from itching, bleeding or protruding piles have learned that quick and lasting relief can only be accomplished with an internal medicine. Neither salves nor cutting remove the cause.

Bad circulation of the blood in the lower bowel causes piles. The veins are flabby, the bowel walls weak—the parts almost dead. To end Piles an internal medicine should be used to stimulate the circulation, heal and restore the affected parts.

Dr. J. S. Leonhardt was the first to discover a real internal Pile remedy. He called his prescription HEM-ROID, and prescribed it for 1000 patients with the marvelous record of success in 980 cases, and then decided every Pile sufferer should be able to get HEM-ROID tablets from their own druggist with a rigid money back guarantee.

Dr. Leonhardt's prescription has a wonderful record of success right in this city and Underwood's Pharmacy invites every Pile sufferer to try a bottle of HEM-ROID and guarantee to refund the purchase price if they do not end Piles in any form.—Adv.
