

UNEMPLOYMENT FUND TO GO OUT OVER ALL STATE

SALEM, Nov. 12, (AP)—The distribution of the state unemployment fund to be raised by contributions of one day's pay a month for five months by all employees of the state will be state-wide, it was decided at the meeting here today of the governor's sub-committee on unemployment relief.

The general plan of collection and distribution was worked out and will be submitted to all department heads and institutional heads for further suggestions.

The committee also decided that "when effects are made for local contributions, the remittance should be accompanied by the bona fide receipt of the local charitable organizations referred to."

The action was taken following reports that many of the employees in different parts of the state had contributed to local campaigns to a considerable amount, and that credit for all local contributions be given. This will likewise permit local groups to continue with campaigns based on pledges of state employees for certain amounts.

General Thomas Riley, chairman of the sub-committee, in outlining the plan to state department heads said "the committee feels that it can safely assure all concerned in this movement that the distribution of the fund will be state-wide in scope."

Just how this fund is yet to be distributed will await suggestions by department heads and further consideration by the committee, Riley said.

The committee today discussed various means of distribution. It was suggested that the fund be distributed in each locality where raised; that department heads distribute their own funds; that the entire fund be turned over to the state Red Cross; or that the committee disperse it according to population by counties. No plan was adopted, although the general trend was for the money to be expended largely where raised, with certain portions to be given counties where no state employees are located.

Operated Seven Times In Day

Performing seven operations in one day would test the nerve of the steadiest of men surgeons. Yet that was the recent achievement of Dr. Elizabeth Bruni, above, noted Italian practitioner. A leader among the comparatively few women in her profession, she recently was appointed honorary surgeon to Princess Marie Jose of Belgium.

FIRE EQUIPMENT STANDARDS SET

SALEM, Ore., Nov. 12, (UP)—Tentative standards for rural fire fighting equipment have been adopted by the committee appointed by the Oregon Association of Fire Chiefs. State Fire Marshal A. H. Averill announced.

The committee consisting of representatives from the school of engineering at Oregon State college, the insurance rating bureau and the state fire marshal's office has recommended plans for three kinds of situations met by firemen.

Plans were approved for equipment (1) to fight building fires, (2) brush and grass fires and building equipment, and (3), grain, grass and brush fires exclusively.

Equipment to satisfy specifications outlined are met in eight rural fire districts in Oregon, Averill said. Six more are expected to qualify soon, he said.

Prices of the minimum standard equipment as adopted by the committee will be determined from fire fighting apparatus builders and submitted to the rural districts.

"If the costs are too steep," Averill said, "possibilities are that plans will be drawn up in cooperation with the state college whereby equipment may be built up at a reasonable cost."

"In any case, whatever type of modern and adequate equipment is adopted, benefits will be reaped."

OBITUARY
WILLIAM LEE DAVENPORT—William Lee, infant son of Mr. and Mrs. Floyd Davenport, passed away Friday morning, the child was born in this city Oct. 30, 1931, and died 14 days at the time of death.

Graveside services were held Friday afternoon in Linkville cemetery under the direction of the Earl Whitlock Funeral Home.

custom of wearing skirts was incidental, suggestive and SHOCKINGLY IMMORAL.

It all depends, you see, on the point of view.

IN CHICAGO, criminal gangs dominate the city, making a mockery of the law. Out here in the wild and woolly West, we are shocked by such a condition, but Chicago, evidently, thinks such things are quite all right. Otherwise it would put a stop to them.

Again, it all depends on the point of view.

THERE is unemployment in California, as in other states, and the Immigration Study Commission of California pointed out, rather interestingly, a while back, that the number of unemployed in the Golden State was almost exactly equal to the number of Mexicans illegally entering California in the past decade.

That is to say, if no Mexicans had been admitted to California there might be no unemployment there.

THE peons of Mexico, of course, want to get out because there isn't room for them there. In other words, there are too many of them at home.

There are too many, the California Immigration commission tells us, because the families of Mexican Indians are large. Those migrating north average nine children to the family.

One Mexican woman, cited specifically, had THIRTY-SIX children.

IN Italy, families are also large. Because Italian families are large, an outlet for Italy's surplus population must be found.

Seeking this outlet brings Italy into conflict with other nations, notably France in Northern

Africa, and war is a possibility.

JAPANESE families, likewise, are large. Japan is small. Seeking an outlet for Japan's surplus population causes Japan to look toward Manchuria.

Because Japan looks toward Manchuria, as an outlet for her surplus population, there is a disturbing prospect of war in the Orient, with all that war may mean as an interruption to the slowly returning prosperity of the world.

BIRTH control shocks a lot of good people. But if birth control were practiced in Mexico, in Italy, and in Japan, the troubles of the world might be greatly lessened.

Again, you see, it all depends on the point of view.

Italy's increase in population is about 450,000 a year.

Gandhi Says He Sins When He Consumes Milk of Goat

LONDON, Nov. 12, (AP)—Mahatma Gandhi, India's saint, says he commits sin three times a day, 365 days in the year, and he cannot help it.

The Mahatma's "sin" consists of drinking goat's milk, which, he says, contains "life" which belongs to the mother goat's young and ought not to be consumed by humans. He said he would have long ago if he could have found a suitable substitute.

His doctor urged him to eat eggs in order to increase his weight, which is only 93 pounds, but he said he could not, "because they contain life, and we humans have no right to take life, even the life of a chicken."

Others have tried to persuade him to eat meat, he said, but he had yielded only two or three times during his life, and then "only when he was in had company."

Helen Hayden To Have Role in Play

OREGON STATE COLLEGE, Corvallis, Nov. 12.—Helen Hayden of Klamath Falls, a senior at Oregon State college, will play the role of Miss Agatha in the cast of the Pulitzer prize play, "Allison's House," by Susan Glaspell, which is to be given as the fall production of the National Collegiate Players, November 19, 20 and 21 in the college workshop theatre.

The O. S. C. chapter of National Collegiate Players, national honorary organization in dramatics, presents two productions in the campus theatre every year.

Rubber pneumatic tires are replacing the steel wheels on railroad motor cars now in service on a French line.

Wildcats To Meet Bonanza Saturday

The Wildcats' team of Klamath Union high school will meet the Bonanza string at Bonanza Saturday afternoon at 2 o'clock.

There is much interest in this game, as the Wildcats, Bonanza and Malin are involved in a three way tie. Winners of Saturday's game will be matched against the Malin aggregation for the championship.

Wiley Leaves — Wilson S. Wiley, Klamath attorney, left Friday for Corvallis where his son, Wilson, Jr., is a rook at Oregon State college. They will witness the Fresh-Rook football game tonight and the Oregon-Oregon State game in Eugene Saturday.

Jacobs To Game—Lee Jacobs, manager of the Mason-Khrman office here, left Friday by motor for Eugene to witness the Oregon-Oregon State game Saturday.
