WHAT he did was to pick out a party of kindred spirits and lead them eastward through Southern Oregon, Northern California and Northern Nevada.

THIS Old South Road swung southward from Fort Hall into northern Nevada, thence westward into northern California.

GOOSE LAKE, then as now, was dry, and its wide, flat bed afforded an easy route for the ox wagons, and this route was traveled so heavily as to leave a deep track.

JAPS PROPOSE FACT-FINDERS STUDY TROUBLE

Armistice Announcement Held Premature and Arguments Go On.

Nippon's Envoy Makes Suggestion for Investigation.

PARIS, Nov. 21, (AP)—Kenshi Yoshizawa, Japanese delegate to the council of the League of Nations, formally proposed at a public meeting of the council this afternoon that the league send a commission to determine the facts regarding the military situation in Manchuria.

This commission, the Japanese representative declared, should carry on its investigation throughout China. He criticized China for her "unilateral denunciation of treaties" and accused the Nanking government of other aggravating acts.

What the Japanese want in Manchuria, the little bespectacled delegate said, is their rights. The work of the investigating commission, the Japanese spokesman explained, "should in no way modify Japan's wish to withdraw her troops as soon as security conditions warrant."

M. Yoshizawa addressed the council after Aristide Briand, the chairman, had warned him and Dr. Alfred Soe, Chinese spokesman, to confine themselves to restrained speech in order that they might not aggravate the situation.

Announcement premature because of yesterday's premature announcement that an armistice had been agreed to, the atmosphere in which the council met was considerably confused.

Dr. Soe, who followed the Japanese delegate to the rostrum, declared Japan's occupation of Manchuria was in violation of the covenant and of the Briand-Kellogg pact.

China, he said, can accept no proposition which does not provide some arrangement for evacuation at a reasonably early date. He declared his readiness to (Continued On Page Two)

CHICAGO, Nov. 21, (AP)—Off the track and on again, the grain markets dashed into new adventures today during the late dealings. Wheat was temporarily pitched by a break of more than 3 cents a bushel owing to reports that Japan would conditionally accept an armistice with China. Resumption of active speculative buying, however, rattled the market in the final hour, with short sellers making haste to reverse their market position.

The Manchurian situation formed almost the sole pivot on which the market turned with nearly bewildering speed. Wheat closed skittish 3/4 cent above yesterday's finish, corn 1/2 off to 3/4 up, oats 1/2 higher, and provisions rising from 2 cents decline to a rise of 17 cents.
