that day, sweating and straining and groaning, driven to their labors under the lash.

If they dropped under the lash, dying from exhaustion, their bodies were kicked aside and forgotten.

There was no newspaper in those days to raise a hue and cry and demand justice. If anyone had SOUGHT to raise a hue and cry and demand justice, he, too, would have been lashed into submission.

NOTHING, in these days, for the common, ordinary person to be thankful for?

There is EVERYTHING in these days for the common, ordinary person to be thankful for. And there will be more in the future.

The best thought of the world is being directed toward making pleasanter the lot of the common man.

Believe it or not. But, wheth-

er or not you believe it, it is true. Great strides have been made already in this direction, and STILL GREATER strides will be made in the future.

HERE in this country of ours, the greatest country on earth, we spend for EDUCATION approximately 50 cents of every dollar collected in taxes. There are many who complain of this, asserting that we are running hog-wild on the subject of education. This writer doesn't complain, and hopes never to complain of such a thing. It is education, which is another word for knowledge, once the privilege of the favored few, that more than anything else has enabled the common, ordinary person to get out from under the cynical brutality of those ancient days when a king might have an ordinary varlet shot by his men-at-arms so that his courtiers might laugh at

WHY do more and more smokers say:

"I've changed to Chesterfield"

BECAUSE...

THEY'RE Milder. It's the tobacco! The best tobaccos—the smoothest and mildest that money can buy—go into Chesterfield. Ripened and sweetened in the sunshine... cured by the farmer... then aged for two years in wooden hogsheads. No wonder you say, "They're so much milder!"

THEY TASTE BETTER. These mild smooth tobaccos are put together exactly right. That's Chesterfield's secret—but millions of smokers agree that the job couldn't be improved! Rich aroma of Turkish and mellow sweetness of Domestic, blended and cross-blended to Chesterfield's own BETTER TASTE.

THEY'RE PURE. Cleanliness and purity, always! Everything that goes into Chesterfield is tested by expert chemists... tested thoroughly. The purest cigarette paper made, burning without taste or odor. Sanitary manufacture... no hands touch your Chesterfields. They're as pure as the water you drink!

THEY SATISFY. You break open a clean, tight-sealed package. You light up a well-filled cigarette. Yes, sir... you're going to like this cigarette—you know that with your very first puff. And right there's where many a smoker changes to Chesterfield. They Satisfy!
