HER HAIR WAS FALLING OUT

Quite bad and turning gray. Began Using Lea's Hair Tonic and Delighted with It. Hair Back Again to Former Color. FEW WEEKS USE DID WONDERS, SHE SAYS. "It is amazing and wonderful the way Lea's Hair Tonic will stop falling hair and give it back its exact former shade before turning gray," writes Minnie Hersch, who like hundreds of women here, praise it to the sky. "Nothing I ever heard of equals Lea's and I used a great many different preparations because my hair was falling out bad and turning gray too. After massaging a few drops into my scalp each night for several weeks I looked years younger and my hair was all as even colored and nice as when I was a girl. I certainly recommend it," continues the girl whose photo is shown above and who lives at 1516 Ninth Avenue, Scottsbluff, Neb. Hundreds of thousands of men and women of all ages and color of hair are today beautifying and improving their appearance and looking years younger and better.

SUDDEN HOIST IS GIVEN WHEAT MART

CHICAGO, Dec. 1. (AP)—Assertions that Russia was buying wheat for internal needs helped give a sudden hoist today to the wheat market here. The upturn also was stimulated by notably bullish reports concerning the United States winter crop outlook, some experts construing the reports as indicative of a complete change in domestic and world supply conditions next spring. Figures on five leading states suggested a crop only 10,000,000 bushels more than was harvested this year by Kansas alone.

High prices of the day were reached by wheat in the late dealings. Wheat closed unsettled 7 3/4 cents above yesterday's market, corn unchanged to 1/4 lower, oats 1/4 off to 3/4 up, and provisions unchanged to 12 cents down.

NEW YORK, Dec. 1. (AP)—A moderate flurry of selling in the closing minutes of trading today swept aside most of the earlier sharp gains in railroad stocks and much of the rally which industrialists had developed after a decline this forenoon.

LOW SCORE MAKERS GET GOOD PRICES

PORTLAND, Dec. 1. (AP)—Cut of 1c in the price of cubes, butter of standard grade on the produce exchange during the late season was by no means a surprise to the trade. In fact, it was obvious that either low scores should decline or top butter advance, if the market here was reflected within sight of actual supply and demand conditions.

Recent concerted attempt on the part of produce exchange interests to punish the larger retail operators who buy mostly the lower scores, appears to have over-reached itself and failed to punish the small country creamery, who was alleged to be doing the bulk of this business.

The world now realizes that human greed is the greatest of all causes of war.—Mrs. Nellie Ross Taylor.
