

BRIDGE PLAY TO RESUME TONIGHT

By TOM O'NEIL
NEW YORK, Jan. 7, (AP)—A last minute drive for material for argument will begin tonight in the great contract bridge match.

Recognizing that Ely Culbertson's lead of 14,175 points cannot be overcome without extraordinary and unprecedented luck and cards, Sidney Lens, his chief rival in a month's test of contract bridge bidding systems, will try at least to maintain the plus for those rubbers in which his partner has been Winfield Liggett, Jr.

Every one of four Culbertson partners to date has had a share in the Culbertson lead except Michael Gottlieb. When he played with Culbertson at the last session Tuesday night, Lens and Liggett gained 2,580 points through much better cards on which it seemed a greater point total might have been made.

Admirer Mrs. Culbertson. Mrs. Culbertson will return to the table for the concluding session tomorrow night. For the 23 rubbers in which she has been her husband's partner the Culbertson plus is only 153 points. She desires to increase it to 75 rubbers, half of the match, which the contract stipulated she should play, the lead of her side was 3,455. Her bidding and play in the face of poor cards and bad breaks have at times aroused the open admiration of opponents.

Abolition of City Offices Advocated

where funds are overdrawn. It was also the intention of the framers to prohibit the exchange of funds between funds. Fouch says. The general, light and water, street, etc. funds show such rapid increases that it is impossible to keep them balanced with the income from those funds.

The police judge proposes a charter amendment to article six, chapter 114, section 115, providing for one fund for all operating expenses and secondly a departmental budget. In advocating the abolition of the offices of treasurer and police judge, Fouch says that police judge work and accounting work in his office require two different types of ability. The accounting department now keeps a separate set of books than those kept by the treasurer. He advocates that a city auditor, appointed by a majority of the council and removable for cause only, be appointed to do all accounting work for the city. The work of the city attorney would be done by the police judge who would be elected by the people and must be a licensed attorney with at least two year's continuous practice in this city.

He states that at least \$130 a year would be saved on salaries and that organization of the accounting department would further save money. The city judge would be paid \$2100, and auditor not to exceed \$2400, under Fouch's plan. The city attorney now receives \$1500, treasurer \$1020, and police judge \$2100. He stated that consolidation of separate funds in the current expense fund would save the city's credit, and interest on unpaid warrants. A special election now would cost \$600, he estimates. He stated that the city attorney says that an election can be held without mailing out pamphlets and that if that is done the election cost will be reduced one-third.

30,000 Acres Under Water As Crevasse In Levee Breaks

GLENDORA, Miss., Jan. 7 (AP)—With a roar that the heard for miles, a crevasse broke early today in the Twilight levee of the Tallahatchie river near Sharkey and sent a wall of water over 30,000 acres. At noon the crevasse had widened to a hundred feet and the whole rescue force of the Glendora sector manned boats and started out to save those imperiled. Some of the boats were upset in the rush, but it was believed no lives were lost although two negroes were reported drowned before the levee broke.

Mellon Favors Aid For Losers In Failed Banks

WASHINGTON, Jan. 7, (AP)—Secretary Mellon in a letter read in the senate today endorsed federal help for depositors of closed banks but urged that the problem be kept separate from the pending two billion dollar government corporation measure to assist going concerns.

HOOVER HEARS ORDERLY PLEA OF MARCHERS

The feeding started at 7:30, and continued for three hours, but the supply of rolls and doughnuts furnished by District of Columbia relief organizations ran out before everyone was served.

More than 100 extra policemen were drawn up in front of the Capitol, but such jobless men as came were admitted freely. Extra details of police were stationed in the halls, but there was no sign of disorder.

LINDSAY SENTENCED FOR WIFE SLAYING

SEATTLE, Jan. 7, (AP)—Everett Frank Lindsay, convicted of second degree murder in December for the slaying of his wife, Mrs. Audrey Elizabeth Lindsay, here in February, 1929, today was sentenced to from 60 to 75 years in the Washington state penitentiary at Walla Walla by Superior Court Judge Howard M. Findley.

After a trial lasting a week, a jury convicted him of second degree murder, rejecting the state's plea for a first degree murder conviction and hanging. Defense attorneys, after a conference with Lindsay, decided early this week not to appeal the conviction.

DRASTIC MOVE ANNOUNCED IN SINO-JAP ROW

(Continued from Page One) soon that important action was imminent. The administration's concern over difficulties between China and Japan has become increasingly evident of late.

The original parties to the nine power pact were the United States, Belgium, the British Empire, China, France, Italy, Japan, the Netherlands and Portugal.

The contracting powers agree that whenever a situation arises which in the opinion of any one of them involves the application of the stipulations of the present treaty, and renders desirable discussion of such application, there shall be full and frank communication between the contracting powers concerned. The stipulations of the treaty referred to set out in article one are as follows:

"1.—To respect the sovereignty, the territorial and administrative integrity of China; "2.—To provide the most unembarrassed opportunity to China to develop and maintain for herself an effective and stable government.

"3.—To use their influence for the purpose of effectually establishing and maintaining the principle of equal opportunity for the commerce and industry of all nations throughout the territory of China; "4.—To refrain from taking advantage of concessions in China in order to seek special rights or privileges which would abridge the rights of subjects or citizens of friendly states, and from countenancing action inimical to the security of such states."

TIENTSIN, China, Jan. 7 (AP)—Japanese troops captured the city of Shaohaiwan today, reports from there said. The city of Shaohaiwan, real gateway from China to Manchuria, stands on the formal boundary line between China proper and Manchuria, about half way between Peking and Mukden.

Council Meddling Charge Is Denied

(Continued from Page One) the city has had and that he should be allowed to form the police department almost as he sees fit. If the city had a poor chief in the opinion of the majority, Vannice believes that civil service would be a fine thing. He is a member of the police committee.

Councilman J. E. Van Camp, another member of the police committee, stated in answer to a question if he had ever interfered in the department. "No, never." Regarding civil service he said that it might be all right, but that he believes it should be left up to the chief a good deal. Even if a man passes his examination he might not make as good a policeman as another, more experienced, he said. The charter and rules of civil service provide that experience shall count and raise the grade in an examination. Van Camp said that a man capable of holding his position should retain it regardless of political change or personal rows.

Bagley Emphatic Councilman J. D. Bagley said "absolutely not" in answer to whether he has ever interfered with the police department. He stated that civil service was voted by the people who wanted it enforced. If the city enforces it he believes it should remain in the charter, if not it should be dropped, he believes. The only problem he saw was that it might provide shorter hours than officers are now working and the city has no additional funds to pay out. If the police and firemen agreed to work the same hours, Bagley favors enforcement. Councilman James H. Driscoll stated that he had not interfered in the appointment, firing or laying off of any policemen. He took the same stand that Vannice did in regard to enforcement of civil service, and under a poor chief it is needed but under the present chief he does not see so great a necessity.

DOUGLAS WOMAN IS VICTIM OF FLAMES

ROSEBURG, Ore., Jan. 7, (AP)—Mrs. Louie Denn, 29, died today from burns she received yesterday at her Camas Valley home when distillate exploded as her small brother attempted to use it to start a kitchen fire. The boy, Arthur White, 13, was seriously burned but is expected to recover.

Mrs. Denn, her clothing aflame, sent the boy to an open spring where he extinguished his own flaming garments, he said today, and then directed him to carry her 19-month old baby from its bed to a safe place, before she left the house to try to save herself. She then fled, rolled on the ground to extinguish her flaming clothes, and returned to the house to assist in putting out the fire. She collapsed within a few minutes.

Mrs. Denn is survived by her widower, the infant son, and her parents, Mr. and Mrs. Arthur White of Placerville, Calif., two brothers, Billy White of Reno, Nev., Arthur of Camas Valley, and a sister, Mrs. George McMullen of Sacramento.

Former Gridman Says Hired To Play

(Continued from Page One) reimbursing the fraternity. E. L. Crawford of Salem is McKenzie's attorney.

The suit against McKenzie was filed here March 16, 1931, asking for \$143.75, in addition to interest at 6 per cent from October 21, 1928. The complaint was signed by Lawrence Deacon, manager of Sigma Tau fraternity, who stated an accounting had been made with McKenzie, but that he refused to pay the bill, although requested to do so several times. An attachment was filed against McKenzie's personal property to cover the debt. When he was found near Oak Ridge an attachment was filed against his automobile.

WILLAMETTE UNIVERSITY, Salem, Ore., Jan. 7, (AP)—Harold

McKenzie, who charged in Eugene today that Willamette university had made a contract to pay him for playing on its football team in 1927, was never employed by the institution, Leslie Sparks, graduate manager, said here. McKenzie made the charge in answer to a suit filed against him by a Willamette fraternity for board and room reimbursement.

Sparks said that Willamette university does not hire students to play, although officials frequently assist students in locating work to enable them to attend school. "As far as I know," sparks said, "McKenzie was never hired to play."

TRAVELOGUE HEARD BY H. S. STUDENTS

Mr. and Mrs. Charles Doll, instructors at Klamath Union high school, were speakers at a general school assembly held at 1:00 o'clock in the school auditorium Thursday afternoon.

Mr. and Mrs. Doll presented an interesting account of their recent European trip. The Wildcats, second string football team, were awarded the letters which they won during the last season, and the first string basketball team was given a rousing send off for Bend where they will play two stiff games Friday night and Saturday.

The team will leave at 9:00 o'clock Friday morning, and return to Klamath Falls Sunday morning.

Reconstruction Bill Is Delayed

WASHINGTON, Jan. 7, (AP)—Prospects for congressional action this week on the reconstruction corporation vanished today with news it would not be reported to the house by committee until Monday. The senate has the measure now before it, and leaders hope to have it approved today or tomorrow.

LOW PRICES ON TURKEYS LOOM

PORTLAND, Jan. 7, (AP)—The Journal said today that the lowest turkey prices in the history of the trade now appear more than probable.

With receipts of dressed turkeys very liberal on local markets and with considerable more in sight and to arrive during the next week or ten days, the trade here appeared more or less bewildered.

Demand from retailers has been scant, and even at a general top selling price of 25c per pound for hens and toms, the output is comparatively nominal. The circumstance that turkeys are practically as cheap as heavy hens has not changed the situation visibly. Unusually heavy supplies in storage along the coast is said to have left the trade in a quandary.

Wheat Prices Up On Chicago Mart

CHICAGO, Jan. 7, (AP)—Best prices on wheat since a week before Christmas were reached today in connection with strength of Wall Street securities and with further export purchases.

Cables said European continental countries were buying wheat on liberal scale. A leading Australian exporter was asserted to have sold \$2,500,000 bushels of wheat to China.

BUTTER EASY
PORTLAND, Jan. 7, (AP)—Cut in the price of lower score cube butter on the Portland produce exchange for the late session reflected further general softness in the trade. The very slight differential that has recently existed in the cube butter trade, not only at Portland, but elsewhere, has created a greater call for the top scores, while the lower grades have been inclined to reflect more or less neglect. Some of the big stores which have been buying the lower scores simply as a price leader, have been turning to the better stuff because of the very scant increase in the price.

RAILS LEAD UPTURN IN STOCK MARKET

NEW YORK, Jan. 7, (AP)—Rails led the securities markets in a further recovery today, although the advance was hampered by occasional flurries of profit taking. The day's turnover exceeded 2,000,000 shares. While there had been a tendency to regard yesterday's upswing in shares as primarily a technical rebound, the ability of the market to continue its advance through most of the next day was regarded as encouraging.
