He was taken to the Klamath Valley hospital for first aid but was immediately released. According to the report at the sheriff's office L. F. Carter of Olene was driving south on the Lakewick-Klamath highway and was unable to avoid hitting a car coming from the opposite direction, driven by A. H. Black of Klamath Falls and in which Johnson was riding.

TROUT REACHES OLD AGE AT 19 YEARS, SAYS EXPERT

An answer to the question of how long a trout will live can be found in California, says a recent fighting bulletin of the Isak Walton League, as it calls attention to the fact that a dolly varden trout at the Mt. Shasta, California, hatchery attained the ripe old age of 19 years. This venerable "dolly" was raised by W. H. Shebber, noted culturist in charge of the bureau of fish culture of the division. The trout weighed around 13 pounds when it died.

INSTITUTE PLAN IS SHAPED AT MEETING

At a meeting of Campfire sponsors and guardians held in the chamber of commerce rooms Thursday night plans were perfected for the two day institute to be conducted here by Miss Edith Kempthorne, national field secretary, on January 15 and 16. Archdeacon J. Henry Thomas conducted the meeting.

The institute will be held at the Willard Hotel, opening with a 6:30 o'clock dinner Friday evening to which all guardians, parents of Campfire girls, and ranking members, are invited. Two hundred are expected to attend. Following the dinner a talk will be given by Miss Kempthorne.

Saturday will be devoted to instruction classes for guardians and in the evening a council fire will be given at the Willard. Girls have been chosen from each group to take part in this ritual. They are Margaret Tompler, Sue Mersereau, Bernice Rincker, Marguerite Uerling, Jolene Wardruff, Jean Hauger, Mary Mersereau, Bernice Baker, Vesta Hamm, Virginia Duke, Catherine

Cloehorn, Joan Kranenburg, Betty Cloehorn, Ardelle Yadon and Rivereta Dillapio. The complete program for the institute will be announced later this week by Miss Etta Farr. W. A. Womsey will conduct a book-binding class for Campfire girls at 1 o'clock Saturday afternoon at the Smith-Bates Printing company. It was reported at the meeting.

Reports were given by Paul Behour on funds and by Bill Meade on transportation work during the past year.

W. U. Adopts 5-Day Week In Offices

A five-day week in the executive headquarters, the divisional headquarters offices, and all district superintendents' offices, effective Saturday, January 9, was announced today by the Western Union Telegraph company through the local office.

This action, taken with the approval of the employees, will be equivalent to an 8 1/2 per cent reduction in present salaries. The five-day week and the reduction will not apply to employees who handle messages, and who constitute the majority of Western Union employees.

WOLVES TAKEN NEAR CHICAGO'S CENTER

CHICAGO—There have been a lot of stories told about the proverbial "wolf at the door," but a zoosie hunter recently furnished the best information about a real wolf at Chicago's front door, says the Isak Walton League of America in a bulletin on the variety of wild life that can be found within a few miles of Chicago's famous loop.

This goose hunter, who is able to tell the thrilling wolf story, actually found his hunting operations interfered with by several coyotes or prairie wolves just one hour and forty-five minutes from Chicago's loop. The animals visited a pen of live decoys, and tried

to get at these plump wild geese, which were in a field close to the Illinois river.

After he discovered that a small band of decoys were after the geese, the hunter hid in his blind and shot one by moonlight. Then he set traps near the geese pen and caught two more. The fact that prairie wolves still can be taken less than 60 miles from the heart of Chicago is a good example of how crafty and smart wild animals become close to civilization, says the league's conservation department. In spite of the intensive hunting and trapping, these animals manage to live. Another interesting wild animal recently taken just forty miles from downtown Chicago was a hadger, a species which still practices its hole-digging stunts west of the city limits.

Scientifically Purer..

Something every smoker wants to know!

• Absolutely pure... that's what you expect in the things you eat and drink... and in the cigarettes you smoke.
"Chesterfields are as pure as the water you drink," a noted scientist writes. There's no way to make a purer cigarette. Starting with tobaccos... the ripest, finest, purest leaf that grows is selected for Chesterfields. Mild to start with... Cross-Bleending makes it milder still. Then it's wrapped in paper that is so pure it burns without any taste or odor.
The phrase "Scientifically Purer" is entirely justified. By our use of a highly scientific process which was worked out by Dr. Paul Gross, the Head Chemist of our Research Department, Chesterfield reaches a state of purity unmatched, to our knowledge, by any other cigarette.
In addition, scientists check every ingredient, every method. Even the factory air is washed, and changed every 4 1/2 minutes. More purity!
Notice, too, the clean, white, attractive package... moisture-proof. Chesterfields come to you as good and as pure as they're made. Good... they've got to be good! Change to Chesterfields and see.
