Deafness And Head Noises From Catarrh

If you have catarrh, catarrhal deafness or head noises caused by catarrh, if your nostrils are clogged or if phlegm drips in your throat causing catarrh of the stomach or bowels, secure proper treatment at once. Catarrh may cause you to lose your hearing, become a violent catarrhal wreck with your smell, taste and hearing completely gone.

Sprays, salves and inhalers may bring you temporary relief, but permanent escape from this dangerous, health-sapping, disgusting disease can only come from a constitutional treatment that will expel the catarrhal poisons from your system. Go to the Star Drug Co. or your druggist today for an ounce of Parvint, take this home and add to it a little sugar and a pint of hot water. A tablespoonful taken four times a day will set upon the blood and mucous membrane and bring relief.

Think what it will mean to breathe freely again, to hear plainly, to eat, to taste, to enjoy life as you are afflicted with catarrh. No for your own sake give Parvint a trial—start treatment today.
