Quotations on Green Mountains stock were slightly higher, although western buying markets were slightly lower in spots. Reports from consuming centers were irregular with no significant price changes.

MARKET QUOTATIONS

EGG PRICES CUT

PORTLAND, Jan. 29, (AP)—Further sharp cutting of prices on eggs in the California trade indicates not only the depressing influence in the market generally, but the near approach of the season for cold storage input. Both San Francisco and Los Angeles show further downward price revisions. In the north it is difficult to tell what the market is as each faction there names its own quotation and has a following.

CABBAGE CALL KEEN

PORTLAND, Jan. 29, (AP)—Cabbage market was very keen today on the East Side Farmer's Wholesale Market. Sales were generally \$1 crate but real quality sold \$1.25 crate. Demand for

root vegetables was better but little change was reflected in the price list.

WEATHER SENDS WHEAT PRICES UP

CHICAGO, Jan. 29 (AP)—Sharp returns in wheat prices late today accompanied forecasts of much colder weather over the entire domestic grain belt.

The trade was apprehensive as to likelihood of crop damage. Increased anxiety also was shown regarding military developments at Shanghai.

Wheat closed strong at the day's topmost level, 20 to 2 1/2 c above yesterday's finish. Corn 1/2 c to 1 1/2 c up, oats 1/2 c to 1/2 c advance, and provisions unchanged to be down.

CHICAGO GRAIN
CHICAGO, Jan. 29, (AP)—Wheat, No. 3 yellow hard, 87c. Oats, No. 2 white, 25 1/2 c to 26 1/2 c; No. 3 white, 24 1/2 c to 26c. Rye, no sales. Barley, 42c to 58c. Timothy seed, \$2.50 to \$2.75. Clover seed, \$8 to \$14.75.

SEPTEMBER LOSER

PORTLAND, Jan. 29, (AP)—Determination on the part of the Pacific Northwest trade to force values here eventually to a lower basis than Chicago, thereby placing the market on an export basis, caused the September option to lose 1/2 c per bushel today, while May was up 1/2 c and July 1/2 c per bushel. Sales included 1,000 bushels each of May and July.

On the Merchants' Exchange cash wheat was unchanged. Se-

attle options continue to show a lower mark than Portland.

FAIR BUSINESS IN WOOL CONTINUING

BOSTON, Jan. 29, (AP)—The Commercial Bulletin will say of the wool market tomorrow:

"There is a fair business continuing, mainly in the fine and half-blood wools for which prices are fairly steady, especially on half-bloods. Medium wools are in moderate request at firm rates. Nolls and wastes are higher. Foreign markets continue to show a tendency against the buyer. There are good clearances reported in all current auctions."

"While the mills operating on

men's wear fabrics are not finding a heavy demand, the mills on women's wear fabrics, including knitted fabrics, are doing reasonably well.

"Reduction in the 1932 wool clip of this country is being generally predicted of possibly as much as 25,000,000 pounds."

"Mohair continues dull except for kid hair, which moves moderately well at steady rates."

The Bulletin will publish the following quotations:

Reoured basis: Oregon, Pine and F. M. staple, 84c to 86c; to 33c; Fine and F. M. combing, 50c to 52c; Pine and F. M. clothing, 45c to 47c; valley No. 1, 48c to 50c. Mohair: Oregon, 20c to 21c. Domestic graded fine combing, 22c to 25c; good grading, 26c to 28c.

HILLS BROS' PATENTED PROCESS PUTS THE FINISHING TOUCHES ON THE JOB THAT NATURE BEGINS

As the accuracy of the hour-glass depends upon an even, continuous flow . . . a little at a time . . . so the uniform flavor of Hills Bros. Coffee is produced by Controlled Roasting—the patented process that roasts evenly, continuously . . . a little at a time.

No can of Hills Bros. Coffee will ever "go stale." The vacuum can keeps it FRESH ALWAYS!

Controlled Roasting brings out the perfect flavor of Hills Bros' famous blend . . . Small quantities of coffee, automatically controlled, assure an ideal roast for each berry

real flavor of coffee — its true, refreshing smoothness — is in every pound of Hills Bros. Coffee. No variation!

When ripe coffee is picked, Nature's work is done. Man must finish the job, and develop the flavor by roasting. But if he roasts the coffee too long, or not enough, its true goodness is lost. And it is easy to lose the flavor by ordinary, bulk-roasting methods.

Under-roasting and over-roasting can't happen with Hills Bros.' patented process! Hills Bros. roast a little at a time . . . evenly, continuously, by Controlled Roasting.

Small quantities, automatically controlled, assure an ideal roast for each berry! The

Hills Bros. Coffee is packed in vacuum cans, and can't go stale. The vacuum process of packing coffee is the only method that fully preserves coffee freshness — the air is removed from the can and kept out. It was originated by Hills Bros. over thirty years ago. There is no magic about a vacuum can — it will not make poor coffee good, but it will keep good coffee fresh.

Order Hills Bros. Coffee today. Ask for it by name, and look for the Arab trade-mark on the can.
