Labor Board Attempts to Avert Strike

WASHINGTON, Jan. 13. (UP)—The national labor board moved tonight to avert an impending anthracite strike by asking an investigation by the anthracite board of conciliation and declaring a strike would violate existing wage agreements and be an unwarranted obstruction to the "purposes of NRA."

The board had before it recommendations of a fact finding committee which investigated the recent strike called by the anthracite miners of Pennsylvania, a union group which broke off from the United Mine workers. In view of the deep seated problems of reduction demand for anthracite coal and threatened unemployment in the industry, the board of conciliation asking an immediate investigation of all charges and efforts to effect a proper adjustment.

For this purpose the anthracite board is named an agency of the national labor board and authorized to employ needed investigators.

LOWER GRADE BUTTER ASKED AT PORTLAND

PORTLAND, Jan. 13. (AP)—Demand for butter continued chiefly in the under grades even though there was a differential of but 1c between top and bottom scores on the produce exchange.

Some of the big cash stores continued to make a specialty of first butter because their customers have been using this low grade all along and appear willing to accept it.

Demand for extras and standards was sufficient to keep the trade fairly well cleaned in view of the decreased totals available in the fresh trade and considerable storage stock was coming out, but so far as can be learned none of it is being sold as such. Butterfat values were at least steady.

Good trading volume was continued in the market for eggs. Local fresh lay was gaining rapidly but increased consumption was taking care of the bulk of offerings. Storage market was nominal.

Stock Market Quotations

NEW YORK, Jan. 13. (AP)—Wall Street watched Washington today for further indications that something was about to happen in the gold and monetary situation. The result was that speculation in stocks was of a highly discreet character and price movements indecisive. The market closed irregular with transfers approximating 700,000 shares.

Steel equities were in fair demand at moderately improved quotations, and a number of other issues nudged about in a fractional range. Tobacco and metals eased. Grains were quiet, but cotton exhibited strength. The dollar held to a slim groove in foreign exchange transactions. Bonds, including U. S. government securities, were slightly mixed.

Shares of U. S. Steel, Youngstown Sheet & Tube and Bethlehem were up a point or more each.

High Education Board Report Not Expected

PORTLAND, Ore., Jan. 13. (UP)—No report will be submitted by the sub-committee appointed by the higher board of education to probe conduct of Dean Wayne L. Morse of the University of Oregon law school when the board meets here Monday, it was learned here today.

George McLeod, chairman of the committee, has been out of the state for the past several weeks, making any report on the campus situation impossible.

The board appointed a sub-committee to investigate Morse in connection with his homecoming day address in which he strongly criticized the board in administration of its affairs.

Morse's blast was so strong it caused resignation of Roscoe Nelson from presidency of the board. Chancellor W. J. Kerr was asked to resign by Morse, but has not done so.

Capture of Sea Serpent Planned

VICTORIA, B. C., Jan. 13. (UP)—Plans were reported under way here today to capture a sea serpent, Victoria's two 30-foot long sea serpents.

A California oil man and a Florida sportsman were said to be advancing ideas on how to catch the monsters which have been seen by 50 reputable Victoria citizens.

One plan calls for floating barrels baited with hooks, which would capture Amy and Pender without destruction. Proposal to shoot the sea monsters is unpopular, however.

Airplane searchers are organizing in an effort to obtain photographs of the glistening, brown-black denizens of the deep.
