Fair; same temperatures. High 43; Low 25. OREGON: Unsettled; rain west.

Editorials On the Day's News

By FRANK JENKINS. ANOTHER wise crack—this one from R. H. Cook: "You want to know why the weather is so warm this winter ever in this country? Here's why: The recent earthquakes have diverted the Japan current and sent it up the Klamath river." You can take that one or leave it.

HUGH WORCESTER, you will recall, told us the other day that the geese are migrating northward a month to a month and a half earlier than usual. Vernon Moore drove down to Merrill the other day, and on the way saw a number of the little Eastern Oregon ground squirrels that normally do not come out of hibernation until late February or early in March. And up on the Columbia they are reporting spring wild flowers coming out.

BUT don't jump too soon to the conclusion that this will be the year without a winter. By the time these words are read—although as they are written the sun is shining warmly and the people are going around in summer clothes—the snow may be blowing and the mercury tobogganing.

THE Knox liquor control law is upheld by the lower court. It will now go to the supreme court. It will then go before the court of public opinion for its FINAL TRIAL.

THE Knox liquor control bill puts the state of Oregon into the hard liquor business. The reason the state of Oregon is going into the hard liquor business is that it needs the money. In order to make as much money as it needs to make, it will have to sell as much liquor as it can.

A PORTLAND dispatch, which conveys important news, says: "The authority of the NRA code authorities to impose production and working hour allotments was UPHOLD by Federal Judge John H. McNary here today."

It means that under NRA the lumber industry as a whole has the right to impose upon individuals engaged in the industry, production quotas which will insure keeping supply within the limits of the demand.

WILL ROGERS says:

BEVERLY HILLS, Jan. 25.—Editor The Evening Herald: Good deal of Japanese news last day or so. One day our eyes are turned to Europe (to see if the boys have any token payment). The next day it's Japan that draws our attention. We are going to have a crooked neck from trying to look both ways at once.

That old hostile baby over in Japan that was secretary of war, why he has resigned. And their foreign minister, Koki Hirota, why he seems to be about half peaceful. He seems to kinder favor licking Russia first, then take care of us later. But this boy that resigned, he was for a double header the same day.

Yours, Will Rogers

ANTI-KNOX FORCES GATHER SHERIFF RENEWS SEARCH FOR MISSING WOMEN

LOW, DAVIS CHECK ROADS OFF HIGHWAY

Accident Theory Offers Possibility to Mystery Here.

POLICE SEARCH FOR SECOND AUTO

Disappearance of Audrea Mardelle and Doris Sparks Unsolved.

State Police Sergeant Marion Barnes Thursday discovered in the records of the Dorris quarantine station, figures that may take the case of the disappearance of Audrea Mardelle and Doris Sparks out of Klamath county.

A re-check along the highway north of Klamath Falls was being made Thursday by Sheriff Lloyd Low and Deputy R. D. Davis, in the search for clues to the whereabouts of Audrea Mardelle and Doris Sparks.

The officers went to Crescent Thursday morning. They expected to make short trips into the area, on the theory that possibly the missing women drove their automobile onto such a road and became asphyxiated from carbon monoxide gas fumes.

An attempt also is being made to trace the movements of a large automobile in which a woman representative of the Hollywood cosmetic company for which the girls worked, is reported to have driven south to California the day after the disappearance, November 13.

No additional word came Thursday from Maryville and Yuba City, where Mrs. Raymond Murray reported to authorities she had picked up two hitchhikers answering the description of the missing girls.

Accepted Theory Checked. District Attorney T. R. Gillenwaters Thursday said that the accident theory seems to hold out the greatest possibilities at this time.

DYNAMITE MAILED TO RELIEF OFFICE

SALEM, Jan. 25. (AP)—Arrival of two packages through the mail yesterday addressed to re-employment officials here and containing dynamite is the cause of no little worry by those officials.

Mystery!

Audrea Mardelle, above, and Doris Sparks below, who have been reported missing in Oregon for over two months.

LUMBER APPEAL HELD UNLIKELY

Right of Code Authority Will Not Be Questioned by Firm.

PORTLAND, Jan. 25. (AP)—The right of NRA code authorities to impose lumber production quotas and regulate working hours has been given federal court substantiation here and appeal of the decision to the United States supreme court appeared remote today.

MANY LOSE JOBS. DALLAS, Ore., Jan. 25. (AP)—Immediate removal of 250 men from the payroll of the Willamette Valley Lumber company will be necessary, it was said here today, when the company conforms to NRA code regulations under yesterday's ruling in federal court in Portland.

Ruling Announced From NRS Office

Peace-time ex-service men must take their chances with the ordinary civilian in getting public work through the national re-employment service, according to a ruling received by the NRS office here.

Increased Fund For Ex-Soldiers Asked in Senate

Further Liberalizations of Economy Bill Petitioned.

40 MILLIONS FOR BENEFITS SOUGHT

Legion Commander, Reed of Pennsylvania Present Case.

WASHINGTON, Jan. 25. (AP)—Liberalization of the economy sections of the independent offices bill to provide another estimated \$40,000,000 for veterans' benefits, and removal of alleged inequities in automatic promotions for the military services, was urged today before a senate appropriations subcommittee.

Points Conceded. Urging the Legion's four-point program, Reed said the president had conceded two of the points, but he believed the new regulations should be made permanent and not left to local boards of review, which he said in some instances had adopted "scandalous" rules.

WIFE OF ENGINEER WITH BYRD PASSES

Tragic news of the death of his young wife has been wireless to Richard Black, member of the Byrd South Pole expedition, according to Associated Press dispatches, and friends in Klamath Falls have also received word of Mrs. Black's death in San Francisco on January 21.

Report on CWA Heard Wednesday

Reports of progress of CWA projects in the city schools were presented Wednesday evening before the board of directors of the district by Superintendent J. P. Wells.

WEATHER

The Cyclo-Stormograph at Underwood's Pharmacy shows the barometric pressure slightly higher and continued pleasant weather is indicated.
