

CHURCH TO OBSERVE 50TH ANNIVERSARY

This February the First Presbyterian church is planning to celebrate the 50th anniversary of its organization. This took place in February, 1884. The children of the founders, in many cases, are leaders in the church today.

The program will include not only special services on February the 18th Sunday, when opportunity will be given for other religious bodies to fellowship with the Presbyterians, messages from former pastors will be read, and representatives from the Presbytery of southwest Oregon will speak, but will also center in week-day celebrations. Among these none is more important than the Pioneer-Anniversary Dinner which is to be held on Friday evening, February, 16. The various circles of the women's auxiliary are to share in this event.

Giant Whale and Steamer Crash at Sea

SAN FRANCISCO, Feb. 2, (UP)—A huge whale and the liner President Taft collided in mid-ocean and the whale got the worst of it, a radio message received here today said.

The liner, commanded by Captain John Griffith, was steaming along some 1000 miles northwest of Honolulu on the Pacific side of the canal. The whale was submerged, almost completely submerged, in the busy sea lane.

The ship struck with such force that it was halted, and had to back away, the message said. The whale was badly "dentured" and without doubt fatally injured. A number of passengers saw the collision.

Bids Called For Local Road Work

SALEM, Ore., Feb. 2, (UP)—Bids on 19 highway projects located in 13 counties and costing approximately \$450,000, were called for February 15 at Portland by the state highway commission today.

State and federal funds will be expended in the work.

Included among the projects were:

Klamath county: North unit Midland-California state line section Klamath Falls-Weed highway, 1.9 miles grading. Midland-California state line section Klamath Falls-Weed highway, 9.12 miles surfacing with bituminous macadam.

Nearly Two Million Taken In Licenses

SALEM, Ore., Feb. 2, (UP)—Motor vehicle registration receipts for the second half of 1933 totaled \$1,842,751, according to figures released by the secretary of state's office today.

This total was far below the \$2,290,176 collected during the same period in 1932, due to reduction of private passenger car fees to \$5 yearly. Private cars formed the largest proportion of the sum received.

Amusements

Vox—Now playing, Edmund Lowe in "Bombay Mail."
Pelican—Now playing, "Wild Boys of the Road" and new program.
Pine Tree—Now playing, Tim McCoy in "Hold the Press."
Rainbow—Now playing, Yvonne Grey's "Heritage of the Desert."

AT THE VOX

Marion Davies and Bing Crosby in a scene from "Going Hollywood"

Marion Davies plays one of the most entertaining roles of her film career in the novel musical production, "Going Hollywood," her new Metro-Goldwyn-Mayer starring vehicle, which is to be shown Sunday for one week at the Vox theatre.

The picture, an original story from the witty pen of Donald Ogden Stewart, actor, humorist and playwright, is a key-hole

AT THE PELICAN

Purveyor of amusement to the world, Hollywood not so long ago started the world with "I Am a Fugitive From a Chain Gang," a Warner Bros. picture.

Encouraged by this success, in substituting real, living drama of the times for the synthetic drama of fiction, the same studio has made "Wild Boys of the Road," the story of the 500,000 young Americans who are wandering over the country's roads today. The picture, which is being released by First National, now playing at the Pelican theatre.

AT THE PINE TREE

Colonel Tim McCoy, who laid aside his boots and chaps in favor of more modern garb when he abandoned western pictures, nevertheless retains his six-gun in the action-drama, "Hold the Press," at the Pine Tree today.

He carries the gun as a reporter on the trail of a story that concerns racketeering, political corruption and murder.

AT THE RAINBOW

Randolph Scott, Sally Blane and J. Farrell Macdonald head

Human Race to Become Extinct Says Evolutionist

LONDON, Feb. 2, (UP)—Man 500,000,000 years from now will be 10 feet tall and have x-ray eyes, in the opinion of Dr. Desiderius Papp, German authority on evolution.

In a book published today, Dr. Papp predicts that the human being will be a sad looking specimen. His head will be massive and hairless. There will be no teeth and the lips will be thin and pale.

Dr. Papp thinks the brain by then will be able to transmit and receive electro-magnetic waves like a radio, and the eyes will be able to see through things like an x-ray.

He foresees that the human race eventually will become extinct, losing in a battle with giant insects which he fears in that distant day "will inherit the earth."

Hole Loans to Be Closed In District Soon

Three orders for loans will be closed within the next few days by the Home Owners Loan corporation, according to Edward B. Ashurst, district manager, who stated that all was complete for these loans "except a small amount of data on title reports, which is now being assembled by local abstract companies. These will be the first loans closed in Klamath Falls since December 9. Arrangements are now being made Ashurst stated, whereby attorneys will be appointed in each county to complete the loans in order to expedite matters, and save travel expenses of district officers.

In this district the attorneys who will handle the loans have been announced as follows: W. T. Miller, Grants Pass; E. E. Kelley, Medford; O. C. Gibbs, Lakeview; Charles Foley, Burns; and Ross Farnum, of Bend.

Forty-eight reports for title insurance are at present in preparation and will be completed within the next few days, according to Ashurst.

Orders of appraisal are arriving at the district office at the rate of about 40 a day, and title report orders at the rate of 8 to 10 daily.

Ashurst predicts speedy action in the closing of district loans in the near future.

Young Wife and Doctor Suicide

AUSTIN, TEX., Feb. 2, (UP)—Rhea Burgess Perrin, a young wife who was the "vanity fair" co-ed of the University of Texas in 1920, and Dr. Claude Mattinson, young married physician, were found dead in a hotel room here today, apparent victims of a suicide pact.

Their bodies were found 12 hours after death and justice of the peace, T. E. Johnson said both died of overdoses of morphine, a drug which contorted their faces beyond recognition.

The tragedy shocked the usually placid university campus where Mrs. Perrin, before becoming the wife of Dr. F. A. C. Perrin, chairman of the psychology department, was a popular student as a Dallas debutante.

Here are **8** GOOD REASONS why you should use **WHITE KING**

1. DISSOLVES THOROUGHLY—even pure, fine granule dissolves with absolute completeness in even the hardest water!
2. SAVES TIME IN SOAKING—instantly it penetrates deep within the mesh of fabrics and loosens all imbedded dirt!
3. REQUIRES LESS RUBBING—aided by gentle agitation, its thick, active suds absorb and whisk the loosened dirt away!
4. RINSES OUT COMPLETELY—leaving fabrics amazingly free of the usual "soapy film" that makes them dull and dingy!
5. WON'T SHRINK OR FADE works perfectly in lukewarm water, which is safest!
6. MAKES IRONING EASIER with no "gummy" residue left on fabrics—your iron glides ever so smoothly, without scorching!
7. ADDS LIFE TO FABRICS by preserving the strength and suppleness of fibres and keeping beautiful colors bright!
8. COSTS LESS TO USE—being a pure soap, condensed, a little does a lot! A cupful does an entire family washing!

WHITE KING caused a sensation when it was first introduced years ago. Today this Original Granulated Soap is still the most outstanding soap value money can buy!

WHITE KING contains a balanced blend of purest and vegetable oils. Save with safety—use White King Granulated Soap for every household need! Get a package from your grocer, today.
