How Irate Rioters Gave Vent to Their Anger

Maddened by the revelations of the Stavisky banking scandal, thousands of Parisians gave vent to their anger by barricading boulevards, tearing up trees, breaking lamp posts and burning newspaper stands. In this picture, just received in this country, you see a flaming newspaper kiosk, wrecked in the disturbances that led to the bloody uprising in the historic Place de la Concorde.

GIRL SCOUTS PLAN ACTIVE SEASON HERE

Six active troops of Girl Scouts in the city have planned a busy winter and spring season, with activities of all types given a place upon the schedule.

Captains and lieutenants from all over the community have organized to put the girls' work over and lay plans for a summer camping season. These officers met Monday evening at the chamber of commerce to formulate additional plans.

Swim Party Held. Last week the Brownies' troop, made up of girls from seven to 10 years of age, enjoyed a pot-luck supper at Fairview school. Leaders of the Brownies are Mrs. Frieda Ellis and Miss Alice Harvey.

The Ewauna troop of which Miss Hazel Bruner and Mrs. Ellis are leaders, held a swimming party at the Natatorium during the week, and the Pine Cone troop is planning to hold a Valentine party and cooky sale this week at Mills school. The girls' mothers will be guests at the Valentine party.

The Swastika troop, led by Mrs. T. Davis Preston, assisted by Mrs. Mitchell, will also enjoy a Valentine party this week, and the members are working upon their first badges.

The Pine Tree group, led by Miss Hollis Swingle and Miss Betty Morse, are engaged in the study of first aid work, as is Pelican troop under the leadership of Miss Leah Parker and Miss Ella Redkey.

Miss Alice Campbell, city school nurse, is conducting the courses in first aid work for the Girl Scouts.

Play Day Planned. An all day Play Day is being planned by the girls as an important event for the near future, and their annual birthday party will be held in March.

The birthday of the organization is of particular interest in Klamath Falls as the Reverend T. Davis Preston, pastor of the Community Congregational church, helped to found the organization in the United States, after carrying on an active part in the work in Canada.

Additional Work on City Hall Approved. Approval of a supplementary CWA project in connection with city hall renovation has been received by Manager W. W. Baldwin of the CWA.

The county civil works payroll Saturday was \$9,075.82 for the week ending last Thursday.

Sterilization Probe Hits Pair

Charges that they used coercion for sterilization of boy and girl inmates of the Wayne county, Mich., training school, will be faced in their trial by Mrs. Mildred Ainsworth, above, school social worker, and Dr. Robert H. Haskell, below. Doctors and nurses were charged with forcible sterilization in several affidavits.

GROESBECK SPEAKS AT LINCOLN EVENT

Self reliance and individual effort are the mainstays of any republic, R. C. Groesbeck, Klamath Falls attorney, declared in the main address at the Lincoln day banquet at Medford Monday night.

Republicans from over southern Oregon gathered to pay tribute to the Civil War president, and incidentally to rally the spirit of republicanism from the slough into which they have been pushed by the new deal.

Groesbeck discussed the historical features of the Lincoln era and the life of the Great Emancipator.

A resolution was passed hoping and urging that Senator Charles L. McNary of Oregon carry the republican standard in the 1936 presidential campaign.

Ralph Cowgill is the new president of the Medford Lincoln club, sponsor of the banquet.

Present from Klamath Falls were T. R. Gillenwaters, William Kuykendall, Arthur Fraux, W. C. Van Emon, Charles R. Williams, Arthur Leavitt and T. W. Delzell.

Revised Plans for Armory Accepted. Revised plans for the Klamath armory were accepted at a meeting of the armory committee Monday afternoon.

The plans, prepared by Howard Perrin, are virtually the same as previously announced, except that they have been reduced in size because of the increase in the price of materials.

Drill floor space will be 66 by 100 feet in dimensions. There will be office space for two batteries, and a club room as originally planned.

The committee is awaiting further instructions from Washington, where the PWA made a grant and loan of \$71,000 for the armory.

FEDERAL MONEY TO AID STUDENTS

EUGENE, Ore. Feb. 13.—Federal relief funds are expected to be made available to employ needy students at higher educational institutions in Oregon, it was announced here by W. J. Kerr, chancellor of higher education, who has received wires from both Senator Charles L. McNary and Senator Frederick Steiwer stating that there is reasonable assurance that the plan would be put into effect.

Although official details of the proposal have not been received, it is understood that from \$5,000,000 to \$7,000,000 of federal relief funds will be made available and will be apportioned to the various states. Part of the fund, it is understood, will be used to employ needy students already at the institutions, and part to give employment to those not now enrolled.

The plan is said to call for a maximum of 30 hours of employment a week at about 50 cents an hour. Just what Oregon's allotment will be is not known.

First information of the plan as proposed by the federal bureau of education was received in a wire from William A. Schoenfeld, dean of agriculture at Oregon State college, who was in Washington on an experiment station and other agricultural business for Oregon. While there he also worked on the relief project for needy students.

Republican Hits Roosevelt Policy Of Administration

BOSTON, Feb. 13. (UP)—Branding President Roosevelt an apostle of Karl Marx and his administration the "march to Moscow," former Senator George H. Moses of New Hampshire tonight called upon the republican party to lead the United States "back to sanity."

In pithy and at times bald language, Moses delivered to the republican Middlesex club's Lincoln night dinner a 6000 word speech constituting a more vigorous arraignment of the party in power than that delivered recently by Ogden Mills, former secretary of the treasury, at Topeka, Kan.

It was Moses' first important public address since he was defeated for reelection in the democratic landslide of 1932.

Up to the last week of September of this year, there were 208 fatal motor vehicle accidents as compared to 14 fatalities from other kinds of accidents.

FORMER KLAMATH MAN AUTO VICTIM

Gilbert McLennan, former Klamath Falls lumberman and timber cruiser, was killed in an automobile accident near Mill City, Oregon, late Sunday.

McLennan, who was CCC camp superintendent for the Mary's creek camp, was riding with his camp assistant, L. R. Jones, who was also killed in the wreck, according to state police reports.

Jones' son, Robert and another youth by the name of Miller, also were injured when the automobile in which the quartet was riding left the highway above Niagara and went down an embankment.

McLennan made his home in Klamath Falls and Klamath county for several years, and has many friends in the community.

"—MY KIND OF TRAVELING TAKES HEALTHY NERVES, TOO"

Earle W. Schoonmaker of Nutley, N. J.
travels thousands of miles every year as a commuter. He says:

"I think I know something of nerve strain, too. Breakfast, the 8:04, the same trip again at the end of a hard day. I'm a constant smoker. My brand? Camels, of course. I can enjoy Camels steadily and I never have to worry about jangled nerves. Camels are the mildest cigarette. They've got what I call real flavor!"

Thomas Olsen, who sailed a 26-foot boat across 9,000 miles of ocean, says:

"There's one cigarette that I can smoke steadily without getting nervous or 'fed up' with smoking. I mean Camels. They taste mild—never flat—and there is a delicate flavor to Camel's costlier tobaccos that certainly does set Camels apart from other cigarettes."

How Are YOUR Nerves?

Most all of us know jangled nerves by these telltale signs—jumping when doors slam, scolding, worrying, nail-biting, frowning, foot-tapping. No wonder "nerves" are being put forward as one of the great questions of the day affecting men and women in every station of life. If you are the nervous type, check up on your eating, your sleeping, your recreation. And be on the safe side about smoking—take up Camels now.

Camels are made from finer, MORE EXPENSIVE TOBACCOS than any other popular brand.

Thousands daily are turning to Camels. And finding a new zest for smoking... an enjoyment that each Camel refreshes and renews.

Enjoy Camels as often as you wish. Your taste will always respond to their finer flavor. And they never get on your nerves.

Politicians Eye May Nomination For Governorship

SALEM, Feb. 13. (UP)—Political dogs of war throughout the state tugged at their leashes tonight—eager to get at this problem of gubernatorial nomination.

Since General Charles Martin's recent avowal of candidacy shocked the camps into activity, questions have arisen on both sides.

"Can Martin win?" and "what will Governor Meier do?" are merely two scores of perturbing questions being asked and answered by those people claiming to be "in the know."

The republicans tonight and Tuesday attempted to unite the grand old party in a series of glowing Lincoln day banquets and luncheons. Leaders were expected, if they already had not, to choose a personage among them to hoist the G. O. P. banner against Martin.

Besides, Meier, Frank Lonergan, Sam Brown and possibly, Rufus C. Holman or Charles M. Thomas consist of gubernatorial timber. However, it is believed most of those named and to be named, have no desire to take the political field at present.
