

Strikers Clash in Philadelphia; Walkouts Feared

(Continued from Page One)

400 workers were reported on duty. A crowd estimated at 1,500 milled outside.

Wage Boosts Announced

At least two developments gave a brighter hue today to the situation.

Ten per cent wage increases were announced last night for all workers on boats operated by the Lake Carriers association. If all 400 boats operated by members are in service this year about 13,000 persons will receive the increase.

Employees of the Nash Motor company's Kenosha, Wis., plant voted to accept new wage concessions from the company and end a six weeks' strike.

Elsewhere unrest grew and in some places was marked by violence.

A strike of tool and die makers in 45 of Detroit's 62 job plants became effective at midnight. Approximately 3,800 men are affected. The other 17 plants, employing 1,200 men, negotiated separate agreements.

Thousands Drop Work

Two thousand workers at the Electric Autolite plant in Toledo, Ohio, dropped negotiations for a 5 per cent wage increase May 1, and walked out.

Two pickets at the Cleveland Worsted Mills company plant were injured, one suffering serious wounds. They told police an unidentified man fired at them with a shotgun. A strike has been on at the plant for several weeks.

Authority to call a strike at the St. Louis Chevrolet and Fisher body plants was voted the executive committee of the Federated Automobile Workers of America at a meeting late last night. The trouble is over the alleged refusal of the two companies to rehire about 250 men,

Homeless Thousands Flee Hakodate Disaster

Thousands of Japanese fled before flames which virtually destroyed Hakodate with loss of life estimated over 1000 and damage at \$3,000,000. Upper: Scene on a main thoroughfare during height of the blaze with sagging wires and buildings in the background. Below: Refugees gather personal belongings after smoldering ruins cooled.

most of whom have been active in union affairs.

Striking aircraft workers in Buffalo expressed concern over threats of the Curtiss company to move operations to a Baltimore plant. Almost 2,100 workers are involved at two factories, which have contracts for about \$5,000,000.

DETROIT, April 2, (U.P.)—Modified to affect only those plants refusing to meet wage increase demands, 3500 automotive tool and die workers, members of the Mechanics Education-

al Society of America, voted to strike tonight, effective this midnight.

The revised strike order relieves somewhat the seriousness of the workers' action in that 20 jobbers, 17 of whom are members of the Automotive Tool and Die Manufacturers Association, who met the terms of the society's demands, and scores of plants outside the association, will continue to operate.

Demands Stated

Labor officials estimated that 100 job shops, most of them small, would be affected by the strike which was unanimous.

The workers are demanding a 20 percent increase in wages and a 3 1/2-hour, five day work week.

The original strike order was to call the society's entire membership, estimated at 18,000, away from work in all the plants in the Detroit area, a move that would have tied up production of fine tools and dies used in the manufacture of motor cars.

Forty five out of 62 member job plants of the Manufacturers' association will be affected by the strike order. Approximately 1400 men are employed in the 17 association plants that will continue to operate.

Extent Undetermined

In addition, the M. E. S. A. claims it has 6000 workers in job plants not members of the Manufacturers' Association and a similar number in larger manufacturing plants which are not affected by tonight's strike vote.

Developments of the next few days will determine the exact status of the situation. Matthew J. Smith, general secretary of the M. E. S. A., in announcing the strike decision, made the significant remark tonight:

"The strike will be very much on a 12 o'clock. It must be remembered, however, that any firm which meets our terms will not become involved in the strike."

Insull Ready to Board Ship

coffee aboard the steamer Adana, en route from Istanbul.

The fact that he was beginning a journey against which he fought a year and a half before finally being jailed by Turkish authorities at Washington's request, did not disturb Insull's sleep.

Locates Loot

Hamilton Snowball, British mining engineer, has brought to San Francisco a story of having located 14 tons of Spanish gold—loot of the Pacific's last pirates—in a tropical island's shark-infested lagoon. Snowball, now outfitting for a return voyage to recover the treasure, claims the loot will total \$37,000,000.

Accident Fatal to Klamath Man

(Continued from Page One)

the water and William Hackler, of the Wood ranch was called to assist.

Hackler probed the ditch with a rake in an effort to recover more of the scattered contents from the automobile. His rake brought up Leuzia's body.

Leuzia came to Fort Klamath Wednesday, accompanied by two hitch-hikers. He lunched here and stayed over night at the Hallow camp grounds. Thursday morning he left on a fishing trip.

He was returning to Fort Klamath when the accident occurred. Investigators believed he had failed to make an "S" curve and lost control of the car.

Papers discovered on Leuzia's body indicated he lived on the Ashland Route. An Eagles lodge membership card was among his belongings. The dead man was believed to be a mechanic at Weyerhaeuser.

Leuzia, a native of Russia, is survived by his wife, Mrs. Elsie Leuzia, and two sons, George Thomas and Richard William, all of Klamath Falls.

The victim had two brothers, Joe and Walter, of Cleveland, Ohio, and two sisters, Mrs. Anna Vertshall and Mrs. Maggie Patapas, of Cleveland.

The remains are in care of the Earl Whitlock Funeral Home.

Stock Market Control Bill Less Stringent

WASHINGTON, April 13, (U.P.)—Stringent provisions of the stock market control bill were relaxed further today by house and senate committees.

The action came as a committee representing the durable goods industry, which claims to employ half of the labor in American manufacturing, attacked the stock market measure and demanded liberalization of the securities bill passed last year.

Both measures, the committee said, were serious obstacles to business recovery.

A house interstate commerce sub-committee voted to reduce basic margin requirements from 60 to 45 percent. It also voted

to delegate to the Federal Reserve board the power to raise or lower the margin requirements. Before the committee's action, the bill provided that the reserve board could raise the requirements at any time, but could lower them only under extraordinary circumstances.

Two Theories Followed On Mass Murders

SEATTLE, April 13, (U.P.)—Search for solution of the mass murder of six Bremerton citizens advanced on two fronts tonight.

Quest of a gun assertedly used in the Hendish killings was under way at a small lake near Seattle, following an accusation by one of the eight prisoners apprehended yesterday that one of his cohorts was implicated in the Bremerton massacre.

He said he could point out "within a car's length" where the other man had thrown the gun into the water. Detectives decided to determine extent of the man's veracity by dragging the lake.

It was also learned that federal agents have been working quietly on the case and are convinced the murders followed a robbery plot engineered by a "tipoff" man who allegedly has worked from Montana to Seattle in various restaurants and saloons.

According to federal investigation, it was found a robbery usually followed the man's getting a job in a new town. Following the robbery, he moved to another town.

families large and small

You know, Hills Bros. Coffee isn't only for those who can afford to have the very best of everything. Not at all. Many of the finest things in this life of ours are beyond the anguished purse. But not coffee. You'll find that Hills Bros. Coffee appeals to all families, from two to twenty-two, who like to count the pennies. Hills Bros. Coffee may cost a few cents more per pound. But you don't drink coffee by the pound. You drink it by the cup. And compared cup for cup, because the flavor is more abundant, Hills Bros. Coffee is actually more economical to serve than so-called "bargain counter" coffees. Try it and see!
