

# BIG VALLEY'S MILLS PREPARE TO OPEN WORK

BIEBER, Calif., April 20.—Lumbering operations to start soon for a six or eight month run are expected to employ about 300 men in Big Valley mills and

on the timbered mountain slopes edging the west side of the valley. Half a hundred are busy already, getting the mills ready, building a camp for the logging crews and doing other preliminary work. Production allotments given out for the first five months of 1934 by the lumber code authorities have so far accumulated unused, but are so much below the mills' capacities that there is no doubt about catching up after they get to running. If allotments for the rest of the season are maintained on approximately the same basis, an output of 25 to 30 million feet before the end of the year is probable. First logs were to splash into

# Cathedral Spires Fall to Man

The tall, forbidding peaks of Cathedral Spires, Yosemite Valley, California, for years the goal of mountain climbers, were conquered by man when Richard M. Leonard, Bestor Robinson and Lucien Eichorn, Sierra Club climbers, ascended the 2154 foot peaks. They are shown above at left making their way down after planting a large American flag (indicated by arrow) on the highest of the spires.

# YOUNG PEOPLE TO CONDUCT FORUM

The high school young people of the Community Church will conduct an open forum on Sunday evening at 7:30 o'clock, the regular hour of the evening service. The subject is based upon an open letter written by a high school student to a popular American magazine a few months ago on the subject of honesty. This young student outlined in his letter his disillusionment concerning the ethics of the present generation in business and the affairs of everyday life, and indicated how impossible it seemed to be absolutely honest in all one's dealings with their fellows. The forum will be conducted by Mr. Don Fisher of the high school faculty and will be participated in by the following students: Dean French and Warren Poole will define honesty; Julia Tomlinson and Violet Pearson will indicate the extent of dishonesty among youth; Miss Peggy White will tell what can be done to correct the situation. There will be discussion from the floor. This forum promises to be of great interest and is one in a series that are being held on Sunday evenings at the church. A week from Sunday Mr. Russell Andrews will lead a forum on the subject of disarmament. All interested are invited to attend and to take part.

# Bieber Workman Gets Leg Broken

BIEBER, Calif., April 20.—Ranger Rodvold's ankle was broken Wednesday, when part of a pile of lumber fell on it while he was working in the Stockton Box company's millyard near Nubieber. Mrs. Dollie Knox has sold her farm on the west side of Big

Valley to H. A. Hoffman of Red Bluff. It is understood Mr. Hoffman will move onto the farm. Mrs. Knox and her daughter, Mrs. Gladys Craig and her son Lloyd are visiting here. The Big Valley Water Users association has applied to the state for a reduced rate on water-master service this year, on the ground that there will probably be no flow in the Pit river

June, the past winter and this spring having been exceptionally dry. Degree Staff Called—All members of the Rebekah degree staff have been called to meet at the I. O. O. F. hall Saturday evening, April 13, at 7:30 o'clock, to help initiate girls of the Theta Itho club. The members were asked to wear white.

the pond this Friday and mills of the Stockton Box company and Big Valley Lumber company are scheduled to go into action next Monday, each concern employing about 30 men and turning out 80,000 feet per day. The Big Valley company's mill will cut lumber for the Stockton Box company. Claude Caldwell and Sons' new mill beside the Great Northern railway at West Bieber, replacing their plant destroyed by fire last summer, is nearing completion and is expected to start sawing next month. George Scott from Susanville will conduct logging activities in the Red River Lumber company's timber holdings on Big Valley mountains to supply the above mills and will work 60 to 75 men. Scott has started construction of a camp at the mountain foot a mile or so west of Nubieber to house and feed his employees. It will have a bunkhouse 35 by 84 feet, a messhall 48 by 60 and other buildings. A. Zamboni will operate a mill beside the railroad west of Look-out.

# ROOSEVELT FAVORS SILVER-GOLD RATIO

WASHINGTON, April 20. (AP)—It was made known today at the White House that President Roosevelt feels the answer to the silver remonetization problem lies in the formula presented at the London economic conference whereby all nations would fix definite reserves of silver in ratio to their gold supply. This would bring for the first time in history a fixed ratio throughout the world between gold and silver. It was proposed at London that the nations establish silver reserves up to 25 per cent of their gold supply. As a result of this informal exposition of the president's attitude it was believed today Mr. Roosevelt would stand pat against any mandatory legislation at this session regarding silver.

# STATE ENDEAVOR MEETING UNDERWAY

SALEM, April 20. (AP)—Declaring that, "The Christian Endeavor can help put the country dry a second time if necessary," Rev. Milton S. Weber, Eugene pastor, spoke to the general assembly of Christian Endeavorers meeting here for the state convention last night. Weber took exception to the approaching sale of cigarettes in Oregon through vending machines and to the delivery service of some of the state liquor stores. Approximately 1,000 of the young people were in Salem last night to attend the first sessions of the convention with 250 more expected today who had previously registered. All sessions will be held in the Willamette University gymnasium. Other highlights of the evening program included addresses by Dr. Carl Gregg Doney of Willamette, Mayor Douglas McKay of Salem and Miss Helen McClay, state president of Christian Endeavor.
