Twins Are Stars of Circus

Jerry Joyce, Anita and Wanita Roddy, and Carol Joyce

Girls and girls! Clowns and clowns! Without which there would be no circus. There are more than 100 girls with the Al G. Barnes Circus. In recent years many college boys have taken up wrestling and other forms of athletics. Not to be outdone girls are now going in for athletics too in a big way. Jerry and Carol Joyce, twins, 20 and pretty, along with Anita and Wanita Roddy, also twins, 21, charming and personable, joined the circus two years ago as dancers in the huge spectacle. Life under the "big top" was appealing to them and during their spare time between the afternoon and night performances they practiced acrobatic and aerial work. So proficient did the twins become as flyers in the big aerial act last season that this year they graduated into the ranks as stars in the aerial firmament. They are of the opinion that the years

and patience they spent as dancers has helped them tremendously towards their advancement. Although their act in the big show only lasts 10 minutes, they spend hours each day in constant and diligent work.

The Al G. Barnes Circus will exhibit in Klamath Falls Saturday, May 12. The performances will be at 2 and 8 p. m., the doors to the immense double zoo, the largest in the world with a traveling organization, will open at 1 and 7 p. m. There are 1,080 people with the big show this season and among them more than 400 performers who have been recruited from 18 foreign countries.

WOOL TRADE STILL FOUND STAGNANT

BOSTON, May 11 (AP)—The Commercial Bulletin will say tomorrow:

"The wool trade has passed through another week of stagnancy. For six weeks or more, sales have averaged less than a half million pounds weekly for the entire country, or somewhere between 5 and 10 per cent of normal average turnover."

"In the west, there has been scattered buying at prices which range mostly between 70 and 75 cents, clean landed Boston, although some purchases of fine and half blood territory clips are said to have cost the buyers nearer 80 cents landed. Buyers are generally offering 35 cents for medium and 20-23 cents for fine wools in Ohio, to the farmer."

"Mohair is quiet but steady." The Bulletin will publish the following quotations: Scoured basis: Oregon: Fine and F. M. staple \$2-84; fine and F. M. Fr. combing \$0-82; fine and F. MURDERER CURSES AS DEATH COMES

WALLA WALLA, Wash., May 11. (AP)—Spurning religious ministrations at the end and cursing at officers, Ted Bradley, convicted Seattle murderer, died on the gallows shortly after midnight for the slaying of a grocer during a hold-up two years ago.

"I'd like to say good-bye to all my friends," witnesses quoted him as saying, "and to hell with all the . . . bulls. Let 'er go."

The springing of the trap, at 12:05 a. m., cut short his words. The prison physician pronounced him dead at 12:20 a. m.

The largest group of witnesses in years, about 60 men, witnessed the execution, which was the second in the new execution chamber of the state penitentiary.

Would you bake a new potato? A new potato and a winter potato are both potatoes—but you prepare them differently. Also, drip coffee and percolator coffee are both coffee—but you prepare them differently, using two different kinds of coffee. Here's the reason. In a Drip Coffee Maker, boiling water drips only once through a coffee specially prepared to yield its flavor quickly. While in a Percolator, the water continues to pass many times through a coffee prepared to yield its flavor slowly. The same coffee can be used for both methods, but like a "Jack-of-all-trades" it is "master of none"—neither drip nor percolator. In one or the other, little things happen. It's a little weak, or a little strong, or a little cloudy, or it has a little less flavor. It's these little things that make or mar good coffee. Be sure to use the correct coffee for each method. Your grocer has two Schilling Coffees, identical in flavor, but each is specially prepared for its purpose—each one different in blend, roast and grind.
