MAY WE REMIND YOU

THE OBSERVANCE of a day in honor of Mother originated in Philadelphia in 1907. Since then throughout America there has come a growing recognition and love of this day.

Mothers' Day became a National institution following the adoption of a resolution by the Congress in May of 1914, whereupon the President of the United States issued a proclamation that the Second Sunday of May of each year should be observed as a day of public expression of our love and reverence for the Mothers of our Country.

The symbol of the day is the carnation. The inspiration of the day is the love each of us holds for our own mother.

Tomorrow, Sunday, May Thirteenth, is Mother's Day. Let us pause, let us consider, let us reflect. What has Mother done for me? It will require the entire day's thoughts—then you will have overlooked ten thousand deeds of valor, ten thousand acts of kindness, plus ten thousand heart-aches—all for you.

Were it only possible for everyone who has a Mother living to embrace her tomorrow and whisper in her ear these magic words: "Mother, I love and appreciate you."

WHY do you suppose Chevrolet keeps repeating, in all of its advertising, "Drive it only 5 miles"? Very frankly, here's the reason: Chevrolet engineers have tried out all the various makes of cars in today's low-price field. They have compared performance—on rough roads, in traffic, over hills, through sand and mud and water! And they have proved, to their complete satisfaction, the same things that hundreds of thousands of Chevrolet owners are proving in their daily driving: How much more smoothly a car travels with genuine, fully-enclosed Knee-Action. How much more comfortably it handles, with shock-proof steering. How much more

restfully you ride, in a Fisher Body car. How much more safely you drive, with cable-controlled brakes.

And how much finer performance and better economy are secured from an overhead-valve Six! In other words, Chevrolet engineers know for sure that the Chevrolet ride simply can't be matched by any other in the low-price field. They know it—hundreds of thousands of owners know it—and now we want you to know it too, before you make your final choice of a low-priced car. That's why we urge you to "Drive it only 5 miles"—and that's why we promise, "you'll never be satisfied with any other low-priced car."
