

DEADLY SPIDER REPORTED IN KIAMATH AREA

From scattered reports received in the county agent's office and specimens brought in, apparently there is some infestation in Kiamath county of a serious spider, known as the Black Widow or Hourglass spider.

The Black Widow spider is normally found in southern climates and does not inhabit to any extent the more northern districts.

The Black Widow spider is normally found in southern climates and does not inhabit to any extent the more northern districts. More than likely the open winter experienced in Clatsop county has led to the rapid multiplication of this pest and people should examine their premises closely in order to eradicate this spider as soon as possible.

EVANGELISTS OPEN ALTAMONT MEETING

"The Musical Messengers," Mr. and Mrs. F. C. Huddleston, brother-in-law and sister of Walter Duff and Miss Evangeline Duff, who recently held untold services in the First Methodist and First Presbyterian churches opened evangelistic meetings in the Altamont school building Monday night.

The purpose of the meetings is to continue each evening for the next two weeks. An audience twice the size of that expected on the opening night greeted the evangelists.

These meetings are to continue each evening for the next two weeks. An audience twice the size of that expected on the opening night greeted the evangelists.

LAKEVIEW

LAKEVIEW, Ore.—Geo Kim Camp, who has operated the Ell Cafe here for many years, died suddenly here last week. Sam Gee, as he was widely known throughout south central Oregon, was born in San Francisco.

The third annual convention of the Order of the Antelope, will be held at Hart Mountain on June 17 and 18. This annual outing, which is sponsored by the Lake county chamber of commerce and the Lakeview Twenty-third club will draw twenty-three delegates from throughout California, Oregon and Washington.

of the most remarkable spots in the west. Hart mountain is the home of the prong horn antelope, sage hen, horned toad, five species of rabbits, several thousand mule deer and a large variety of birds.

Benediction—Rev. H. L. Weir.
The members of the class were: Marie Van Meter, Beverly Eldridge, Virginia Smith, Marjorie Roberts, Mildred Suty, Doris McCord, Nellie Fuston, Frances Jones, Charlotte Worlow, Mildred Potocak, Jessie Drasil, Lewis Kandra, Muel Long, Arthur Woodson, Walter Stastney, Ben Layman, John Krizo and George Fabianek.

After seven years of court battles, a look of half belonging to Napoleon I has been awarded to the National Museum of Boulogne.

Entitled Christian Science: The Gospel of a Supreme Affection for Good by James G. Rowell, C. S. of Kansas City, Missouri

Member of the Board of Lecturers of the Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts

Mr. Rowell delivered the lecture here Friday night at the Fremont auditorium. He was introduced by Charles Parmelee.

Friends: The kingdom of heaven is at hand! Christ Jesus told us plainly that the kingdom of God is a mental state, not a material place of habitation.

The kingdom of heaven, or the kingdom of God, that divinely mental state of which Jesus spoke, includes all that is real and true, all that is good and harmonious, all that is spiritual, all that is truly mental, all that is really substantial and enduring.

The way leading to the kingdom of heaven is available to all; for the way is found through study and obedience of the laws of eternal Life, as applied to human affairs.

The laws of God, unconsciously ignored or neglected through many centuries since their revelation through Christ Jesus, have been brought to light again in Christian Science.

Let us turn, for instance, to page 346 of Science and Health. Remember, we are looking for rules to be used in practice.

Get a copy of this book; own one of your own; you will realize more and more how precious it is. Study it in connection with the Book of the Bible; practice what you learn in your study.

THE DISCOVERER

All her life, Mary Baker Eddy, the Discoverer and Founder of Christian Science, was actuated by a great desire to know God.

GOD

Ms. Eddy's discovery revealed the allness of good, God, and the paramount necessity of an undivided affection for good.

CHRISTIAN SCIENCE

Christian Science reveals that God, divine Mind, is the originator and that His creation is like Him; that is, spiritual, harmonious, and eternal.

humanity the way whereby false, distorted, mortal beliefs or concepts may be translated back into their better originals; in other words, Christian Science shows the way by which the human mind may be freed from its false, false, and suffering concepts for the kingdom of heaven, the reign and rule of unchanging, divine intelligence.

Christian Science brings to light the fact that there is a spiritual supply present for every human need, a solution through spiritual understanding for every conceivable problem; in other words, a divine law present and available for all who strive to understand it.

Many years later, after she had tested and verified them, Mrs. Eddy gave these laws to the world in her book, "Science and Health with Key to the Scriptures," the textbook of Christian Science.

Let us open this book. Gratitude compels us to do it reverently, for through the truths contained within its covers man may become a better man, a purer man, a healthier man, a happier man.

DIVINE LAW

The way to the kingdom of heaven, we have said, is through deification, the law of unchanging, ever-present, ever-operative, ever-available law.

GOD

Ms. Eddy's discovery revealed the allness of good, God, and the paramount necessity of an undivided affection for good.

CHRISTIAN SCIENCE

Christian Science reveals that God, divine Mind, is the originator and that His creation is like Him; that is, spiritual, harmonious, and eternal.

A Lecture On Christian Science

It finally seemed controlled by a desire to take her life. Upon several occasions she had become fearful, had left home, and had remained away two or three days, giving him the impression that she was ill.

Mr. Watches, awake by the side of Mrs. Eddy, learned that the world of sense impressions is but a dream-world, a world of illusion.

which will be made in the solution of his problem will be made first in his own consciousness. He will learn that two and two make four, and one by one he will add to this truth each fact as need for it arises, carefully sifting up his scientific truths until the correct answer appears.

No different course is possible to one who is trying to solve the problems of everyday life. He must re-learn, re-think, which is the literal meaning of the word. He must drop one by one his false opinions and viewpoints and make his own the scientific facts of being.

The prayer that reforms the sinner and heals the sick (Science and Health, p. 1) scientifically is the prayer of affirmation—affirmation of the truths concerning God and man. God's reality is the prayer that reduces sin and disease to their native nothingness and affirms understanding the allness of God, good, and His ideas.

Gratitude is an integral part of true prayer. It is a key which unlocks many blessings and honesty. It is a key which unlocks many blessings and honesty.

One's affection for good, God, moral and practical human expression. Prayer, watching and working are three very practical ways of manifesting and increasing one's love for God. Through prayer, watching, and working the individual's thought is guided into realization of the ever-presence of harmony, the kingdom of heaven.

When the world does grasp the tremendous import of the fact that God, ungod, is the divine Principle of the universe, and not to be judged or potentiated subject to passion and change, there will be a great spiritual impetus, a decided change in the world's thought of what constitutes prayer to God, and the progress of mankind heavenward will be marked.

Ms. Eddy tells us that "all Science and Health" (Science and Health, p. 551). The practice of the science of mathematics opens many avenues which are helpful in the understanding of true prayer.

HEALING

The immediate result of grateful working, watching and praying is healing—moral, mental, and physical.

Healing is important—more, it is imperative. It is the sign-post which gladdens our hearts and leads us on the right path, the path which leads heavenward. We must heal and be healed.

Moses, you remember, was commanded by wisdom to put his hand into his bosom. He drew it forth "leprous as snow." Again he put it into his bosom and this time drew it forth normal as the other. This sudden appearance of disease and its instantaneous healing showed to him that things are not what they seem. He saw that matter is changeable and that what appears to be material conditions are merely thoughts or beliefs objectified. It teaches that what we think of as the material universe is, after all, but a mental world, where things are thought, and which is changeable and fleeting.
