

LUMBER TRADE STRIVING TO REACH BALANCE

WASHINGTON, May 18, (AP)—Despite increased consumption of lumber during the first six months of operation of the lumber code, a report of the timber conservation board of the department of commerce today said there was "no net national production toward balancing production and consumption."

"Consumption has increased, particularly as compared with the low points of early 1933 but production has moved at a still faster pace," the report said, "partly in anticipation of a building recovery which has been disappointingly slow in materializing."

Production during the first quarter of 1934 was approximately 8 per cent above shipments, while orders booked were about 3 per cent in excess of output, the board said.

Since December a decline from the lumber price index of 88, based upon the 1926 average price of 100, to 86.4 in March was shown, but lumber maintained a higher standard of price than the index for all other building materials.

In the construction field, public works was credited with being the major factor in lumber consumption although no month during the present year has reached the peak of last December's contract total of \$207,210,000. A decrease from \$178,354,800 in March to \$131,411,800 in April was shown. In April \$69,907,100 of the total was for public works projects while the March PWA amount was \$92,940,000.

The survey board said that lumber stocks continued in aggregate surplus by almost 3,000,000,000 feet, but that a home building and modernization program, as outlined by the President, would "materially" reduce the excess.

The industry was cautioned not to depend largely upon that prospect, however, for "such big movements usually are slow in gaining headway" and lumber-

Special Service

Planned Sunday

On Sunday morning at the 11 o'clock hour of service the ordination and installation service of T. G. Newman, as ruling elder of the congregation, will take place. The pastor, Rev. Theodore Smith, will be in charge and deliver the sermon. Other ruling elders already members of the session, the governing body of the church, will participate in the service. The charge to the new elder will be given by Judge George D. Grizzle, and the charge to the congregation by Dr. George I. Wright.

This is an unusual and interesting service, similar to that of the ordination and installation of a minister as pastor of a congregation. The general public is invited.

There will be no evening service in this church on account of the union baccalaureate service at Klamath Union high school.

A man in London started laughing 18 months ago and can't stop. We knew it took an Englishman a long time to get a joke, but we never realized it took him so long to get over one.

Kava, a liquor of the South Sea Islands, causes intoxication only from the hips down.

men would be "courting collapse if expected demand does not materialize."

Raising cobras once was a paying industry in India, where snakes cause about 20,000 deaths annually.

The survey board said that lumber stocks continued in aggregate surplus by almost 3,000,000,000 feet, but that a home building and modernization program, as outlined by the President, would "materially" reduce the excess.

The industry was cautioned not to depend largely upon that prospect, however, for "such big movements usually are slow in gaining headway" and lumber-

PRODUCTION LOANS GAIN APPROVAL

Lee S. McMullen, secretary-treasurer of the production credit association, has received word from S. M. Garwood, production credit commissioner of the farm credit administration in Washington, D. C., that about \$25,000,000 in production loans and approvals has already been granted through associations and that the volume of loans is expected to increase as the season advances.

"A part of this money has been paid out in Klamath and Lake counties," McMullen said. "From its office in Klamath Falls, the association is now making an increasing number of loans to farmers in Klamath and Lake and part of Modoc and Siskiyou counties, for the purpose of growing crops and for purchasing work stock and farming supplies for the season's operations. The loans are made on crop and chattel security.

"A number of the loans are being made on the installment basis," McMullen added. "An applicant's loan may be approved in the full amount, but paid out in installments as needed during the season, the object being to enable the borrower to save on interest costs and be sure of having the money when he needs it throughout the season to finish crops or livestock operations. The interest rate on loans, recently reduced to 5 1/2 per cent per annum, is charged only for the time the money is being used and payable when the loan is due. Some farmers are saving from 1/4 to 1/2 on interest costs by getting loans on an installment basis.

"Another new feature of the production loans allows a farmer or stockman to apply for a loan and establish a line of credit which is used to make cash purchases of livestock or work stock, the association taking a chattel mortgage on the stock purchased as part of the security for the loan.

"The association was organized under the farm credit administration to be a permanent source of agricultural and livestock credit for this section," McMullen said, "and it now has facilities capable of fulfilling that purpose."

Lennox

The Stewart-Lennox Sunday school enjoyed a picnic on Mother's Day.

New officers of the Christian Endeavor were elected recently. Mrs. Louise Duke was named president, Mrs. Bert Maynard, vice president, Mrs. Theodore Fry, secretary, and Bill Crawford, treasurer.

The C. E. sponsored a gypsy party at the church Friday evening.

Mrs. D. Hoefler and baby son returned from Hildebrand last week.

Mr. and Mrs. William Gilbert and family are moving to Alkoma. Mrs. Ray Condit and children returned to their home last week from Roseburg, where they had been visiting.

Lloyd Steers is seriously ill. Several residents of the community attended the farewell services of Rev. Sigle at the First Baptist church in Klamath Falls.

Business has improved so that many firms have been able to repay their RFC loans, and now are free to criticize the government for holding up prosperity.

AMUSEMENTS

Vox—Now playing, "Eskimo," with entire native cast.

Pelican—Now playing, "The Purple Sage Riders," and on the screen, "Long Lost Father," with John Barrymore.

Pine Tree—Now playing, "Murder in Trinidad," with Heather Angel and Victor Jory.

Rainbow—Now playing, "Flaming Gold," with Bill Boyd, Pat O'Brien and Mae Clarke.

AT THE VOX.

ROBERT MONTGOMERY

"The most mysterious of all mysteries is the one which tells the least," said Edgar Selwyn, director of the new Metro-Goldwyn-Mayer thriller, "Mystery of Mr. X," which opens Sunday at the Vox theatre.

Robert Montgomery heads the cast of "Mystery of Mr. X," as the suave gentleman crook who becomes entangled in the web of the murderer. Elizabeth Allan has the feminine lead and the cast also features Lewis Stone, Ralph Forbes, Henry Stephenson, Forester Harvey, Ivan Simpson, Leonard Mudie, Alec B. Francis and Charles Irwin.

AT THE PELICAN

From Hollywood and from such famous radio groups as The Beverly Hill Billies, The Arizona Wranglers, The Hollywood Hill Billies, and the Happy-Go-Lucky Hour, come your favorite stars to make up a unit stage show that promises Klamath Falls more than ordinary entertainment on the stage of the Pelican theatre today and Saturday. This aggregation of artists, which includes and features also The Lonesome Cowboy from Sunshine Station XER, the station between the nations, and Johnny Judd, world's champion trick roper, is billed as The Purple Sage Riders, and has been spontaneously acclaimed the greatest and most en-
