## EVENTS OF WEEK IN KLAMATH FALLS SOCIETY CIRCLES, CLUB GROUPS AND FRATERNAL ORGANIZATIONS

# **Boat Regatta to Lure** Society Toward Upper Lake Sunday Afternoon Lake and the water regata Afternoon The marriage of Florence Et-licit, beautiful daughter of Mr. and Mrs. Orville Ellicit of Klan-ath Ageney, to Charles G. Hovey, son of Mr. and Mrs. Richard H.

SOCIETY has gone nautical this week-end, and the water regatta

Socilety has gone nautical this week-end, and the water regatta on Upper lake will cheat summer colonies on mountain lakes and streams of their usual quota of vacationists on Sanday. Parties are being assembled to watch the water sports, and the most enthusiastic support is promised to the sail boat races. These graceful craft are comparatively new to Klamath waters, and many are planning to build and launch new boats during the summer. Most important on the past week's social calendar was the mar-ringe of Miss Florence Elliott, charming daughter of Mr. and Mrs. Orville Elliott, to Mr. Charles G. Hovey, son of Mr. and Mrs. The wedding ceremony was set for 4:00 o'clock Saturdy after-moon at the home of Mr. and Mrs. Hovey on Portland avenue and Pacific Terrace. Mong out of town guests for the ceremony were Mr. and Mrs.

the ceremony were Mr. and Mrs. Stuart Fairweather, of San Francisco, brother-in-law and sister of the groom's father. Mr. and Mrs. Fairweather arrived in Klamath Fails on Friday morning.

Among the important events of the week were numerous parties given in honor of Mrs. W. F. Eimbeck of St. Louis, who is vis-iting her sister, Mrs. Myrtle Helm in Klamath Falls.

Summer recreations are becom-ing increasingly popular with the advent of warmer weather, and the boat regata ushers in a sea-son of out door sports and son of amusements.

#### NEW L. C. SMITH SUPERIORITY

Secretaries look for two things in a typewriter-Ease of operation and Convenience of operation.

The new L. C. Smith is the easiest of all typewriters fo operate. Its light touch and easy action is due to the ball bearing construction of all major operating parts including the type bars.

The famous Smith-Shift eliminates the clatter of the rebounding carriage when shifting for capitals, eye strain has been reduced with the adoption of the dark green key tops-the flat key rings prevent broken finger nails.

Everything possible has been introduced to prevent fatigue. As a result, laboratory tests show that the average typewriter requires 24,7% more energy to operate than the L. C. Smith.
