

FOREST OFFICE RE-OPENED IN FEDERAL BLDG.

The Rogue River national forest office in the Federal building is being re-opened immediately, with Norman J. Panick in charge. Panick has been professional forester with the U. S. forest service, north Pacific region.

Panick said the office will be open all winter. It is located in suite 217, Federal building.

The amount of \$12,173 was expended on the Rogue River National forest during the past fiscal year, as shown by the yearly cost statement just completed by the forest supervisor. In addition to this amount, a total value of \$153,375 is placed upon the work performed by the CCC, which is estimated at \$1.50 for each day's labor.

Of the amount spent during the year, \$40,764 was spent for fire protection; \$30,368 for the maintenance of improvements; \$157,503 for the construction of roads and trails; and \$129,314 for the construction of buildings and similar improvements, while \$32,562 was spent for new equipment. Under operating expenses, \$1,116 was spent for the administration of timber sales; \$2,870 for the supervision of livestock grazing; \$552 for fish and game administration; and \$3,085 for supervision of the recreational use of the forest. Investments on the forest to date, excluding the amounts spent on operating costs, show a total cost of \$1,938,748 and a present value of \$1,537,291. Depreciation on these investments is charged off each year so that this present value is believed to be the actual worth of the investments.

The listed classes of these investments are indicative of the wide variety of work undertaken on the local forest. They include to date totals of 911 miles of roads, 1,388 miles of trails, 732 miles of telephone lines, 34 look-out houses, an airplane landing field, 39 dwellings, 16 barns, 3 office buildings, 57 garages and other small miscellaneous buildings, 44 water systems, 122 camp buildings and 80 water developments on ranges for livestock. Non-structural investments include reforestation projects, hazard reduction work, insect control projects, surveys, plans and maps of various kinds. Equipment with a present value of \$103,729 is also included in the investments.

DORRIS ITEMS

The second Butte Valley High Class Night was to be presented Friday and Saturday night at Dorris and Macdoel, under the direction of Miss Klewer.

Each class will present a full one-act comedy, all of them full of amusing situations. The program will be a varied and amusing one and comprises a total cast of twenty-four students.

The freshmen will present a rollicking comedy, "The Latest in Football," which all football lovers will enjoy greatly.

The seniors will present "Extra," an amusing and interesting mystery, which is full of thrills and comedy. The scene is laid in a newspaper office and there is plenty of action.

The sophomores will present an amusing comedy called "The Psychological Moment" which will be enacted by an all girl cast. This hilarious comedy of a young bride's attempt to find a suitable maid, is brought to a surprising climax.

The juniors will present "Gawky, Twelve, and Freckled," which is full of amusing situations. Jerry Wayne, a young playboy, finds himself forced to star his country cousin in his play. He finds, however, that time changes even a gawky 12-year-old.

An assembly was given on Wednesday, November 14, in observance of American Education Week, which is dedicated to the schools of our country.

An introductory speech was given by Ray Henry followed by a short skit, "Why Do To School," in which a high school girl justified her high school training to her parents by listing the subjects who was taking and each subject was illustrated by a short selection from that department.

The program included: "Hooks and Crooks," a play by the typing class; "Stumbling Around," a lumbing skit; "A Domestic Catastrophe" by the domestic science class, and selections by the orchestra.

It was a fine program and an fitting observance for American Education Week.

The program for the entire week was as follows: Monday, Armistice Day; Tuesday, Express in classes; Wednesday, assembly; Thursday, "Outdoor Sports" film and matinee performance; Friday, Class night.

A practice game has been arranged for December 20, with the New Pine Creek high school. This team is the champion of Modoc county and promise a real fight for the Butte Valley eagles.

Dr. Pascal, the university examiner, and District Superintendent Hurley, visited the high school on Thursday, November 7. They were well pleased with the general situation and Dr. Pascal was well satisfied with the classes which he visited.

Thirty thousand letters are mailed from London to Africa via airmail each week. India receives 50,000 from that source during the same period.

More vitamin D is contained in the waste oil from the salmon cannery industry than can be found in cod-liver oil. It is said.

Approximately 1000 patents are issued in the United States every week.

CITY BRIEFS

Arkansas Visitor—Mr. and Mrs. Frank Andrews of Omaha, Arkansas, and their son and family, Mr. and Mrs. Troy Andrews and sons Joe and Bobby, of Harrison, Arkansas, have returned to their homes after enjoying a week's visit at the home of Mr. and Mrs. H. H. Pruitt, at 830 East Main. Mrs. Pruitt is a sister of Frank Andrews.

Altamont Club—The Altamont Townsend club No. 1, will meet at Altamont school Monday evening, November 18. Mr. Belwood, district organizer and Mr. Mortenson, convention delegate, Number 2, will be the speakers. A short program will be followed by a potluck supper.

Accident Reported—Kenneth A. May of the Evans' apartments reported an automobile accident which occurred at the Main street railroad crossing late Friday night. He stated that his car was struck by a machine traveling in the same direction. The driver failed to stop at the scene of the accident.

Special Meeting—Mrs. George Rogers, president of Mills P. T. A., has called a special executive meeting for Monday, November 18, at 3:00 o'clock, at the Mills school. Plans are under way to furnish needy children with classes whenever necessary.

Ray Killed by Illness—Mr. and Mrs. Roy Atkinson of 1302 East Main street, returned home Thursday evening from Medford, where they were called on account of the serious illness of their son, Hershall, who underwent an operation for appendicitis.

Players to Meet—The Community Players of the Congregational church are asked to meet Sunday evening at 8:15 o'clock in the community house, to consider Christmas plans, according to an announcement from Rev. J. G. Dickey.

Royal Arch Masons Meet—Klamath Chapter No. 35, R. A. M., will hold its regular meeting Tuesday, November 19, with work in Most Excellent Master Degree. All companions cordially invited.

Medford Man Here—Howard Schefel, president of the Klamath Falls football team two weeks ago, was a Klamath Falls visitor Saturday.

Jury Calling Postponed—The jury case set for circuit court Monday morning has been settled by non-suit, and the jury will not come in until November 23, it was stated Saturday.

Town Club Dance—A dance for members of the Town club has been scheduled for Saturday evening by the new management of the organization.

Hits Parked Car—Fred Robertson, driving on the Weed highway, struck a car parked on the road without lights, he reported to the sheriff Saturday.

Accident Reported—E. L. Bartow of Keno, reported to the sheriff that an automobile he was driving hit and killed a cow.

Leaves for Portland—Mrs. Louis Margulies left Saturday for Portland, where she will spend some time visiting relatives.

Here from Bonanza—R. Malcom Teare, farmer of Langley valley, was a visitor in Klamath Falls Saturday.

Return Home—Mrs. R. V. Constable has returned home from Prineville, where she attended the funeral of her father, Mr. Hodges. Mrs. Constable's mother died three months ago at Prineville.

Court House Records

(FRIDAY)

Divorce Action Filed
Francis R. Rawlin versus Hazel Rawlin. Couple married in Klamath Falls, June, 1928. Plaintiff charges cruel and inhuman treatment, asks custody of three eldest children, subject to defendant's right to visit said children at all reasonable and proper times, and that defendant be awarded custody of two youngest children, subject to plaintiff's right to visit said children at all reasonable and proper times. Plaintiff agrees to pay defendant \$30 a month for support of youngest children and to grant her certain rights of personal property. Don F. Hamilton, plaintiff's attorney.

Judgment
Klamath county versus R. C. Vochatz and C. V. Vochatz. Plaintiff given judgment against defendants for \$424.66 with interest and costs. The court further ordered that any of defendants' property attached be sold to satisfy claims. Judgment by default.

Ad Club's Christmas Plans Take Shape Rapidly

Plans for Christmas Opening, December 6, have been completed by the Klamath Ad club, which is sponsoring the Yuletide opener for Klamath merchants this year, and projects are rapidly taking form, the club reports.

Students in the various city and county schools are at work participating in the poster contest for six cash prizes. Pupils in the 6th, 7th and 8th grades form one group, and students in the 9th, 10th, 11th and 12th grades form another group.

First cash prize for each group is \$10.00, second prize is \$5.00 and third prize is \$2.50. The winners will be announced in downtown store windows the night of Christmas Opening, December 6, the Ad Club announced.

Pillars, to be erected at Intersections on Main street, are being constructed by the Swan

Lake Moulding company. The pillars will be illuminated, with "Merry Christmas" on four sides and a Christmas tree topping each one. Pennants and streamers will deck the street from end to end. A huge Christmas tree will be erected at the old high school grounds.

The Ad Club is making a special request to all downtown business houses to decorate their stores outside as well as in, to follow out the Christmas motif.

A huge parade, led by old Saint Nick himself, will be held the night of the opening. Many business houses and clubs will enter floats and provide music for the parade.

Several hundred pounds of candy have been purchased, and every kid in town is promised his fill.

Ad Club members and Klamath merchants will start a canvass for funds, beginning November 29.

Rockefeller Donations Will Go to Non-Sectarian Works

ROCKEFELLER ... 24 ... INSID NEW YORK, Nov. 16. (AP)—Non-sectarian projects hereafter will receive the bulk of religious donations which John D. Rockefeller, Jr., has given in the past to the Baptist denomination.

His change of policy, he has notified the Northern Baptist convention, central body of the church in the north, resulted from a desire to aid "in emphasizing the basic truths common to all denominations, in lowering denominational barriers and in promoting effective co-operation among Christians of whatever creed."

Rockefeller and his father, a financial pillar of the Baptist church before him, have given millions to the Northern Baptist convention and its agencies. One gift alone, a memorial to Mrs. Rockefeller, Sr., was \$2,000,000. Rockefeller notified the convention of his decision in a letter dated last March 7, but made public only last night by his publicity representatives.

"It is my present thought," the letter said, "to contribute to specific projects, chiefly inter-denominational or non-denominational in character, which interpret the Christian task in the light of present-day needs, and which are based not so much on denominational affiliations as on broad, forward-looking principles of co-operation."

Baptist projects meeting those requirements would be eligible for aid, he pointed out, although he no longer would contribute annually toward the convention's unified budget.

"I believe in denominations—insofar as they make necessary provisions for individual variation in religious experience," he said. "... What gives me pause is the tendency inherent in denominations to emphasize the form instead of the substance, the denominational peculiarity instead of the oneness of Christian purpose."

"I have long felt that this denominational emphasis is a divisive force in the progress of organized Christian work, and an obstacle to the development of the spirit and life of Christ among men."

Rockefeller was reared as a Baptist, and with his father has been pre-eminent among Baptist laymen. In any controversy between fundamentalists and modernists, the former have identified him as a leader of the liberals.

Plan into law, we will kick the Oregon political leaders into the Willamette river." On what political leaders did they serve such notice? No political leader from Oregon was in Washington at that time. In fact, few, if any political leaders were in Washington at that time. Do you suppose that Mahoney concluded the Townsends so dumb as to overlook that detail? Suspicion that the telegram was faked was strengthened when its reader refused to let it be seen.

"Tanger for the Townsend movement, so far as Oregon is concerned, is only suggested here. The cunning scheme of these two individuals and their supporters is too deep to be fully portrayed in this brief article. Ferrency it is hoped that the suggestion will be sufficient.

One of the resolutions passed by the national convention, unless vigorously guarded, will assist in the accomplishment of their selfish purposes."

"S. C. WILLIAMS,
"State Lecturer for Townsend Plan."

Although Corot painted only 600 canvases, there are 6000 alleged Corots in the United States alone. These are largely faked paintings.

"For a good reason known to the writer, Bunnell is doing everything, except the St. Vitus dance, to sell Mahoney to the Townsends. On the special train to the Chicago convention, his effort to this end was so pronounced as to become repugnant. Mahoney and Bunnell traveled by airplane from Chicago to Washington, D. C. On the special train returning from the Chicago convention, one of Mahoney's men read a telegram, purported to be from Washington and signed by Mahoney. Among other things the purported telegram said: (I quote from memory) 'I have served notice on the political leaders in Washington, that, unless they enact the Townsend

AUTO SALES MAY RISE TO NEW RECORD

DETROIT, Nov. 16. (AP)—The flood of buying orders for new automobiles descended upon the industry since its fall introduction of 1935 models less than two weeks ago envisions the greatest sales year since 1929.

Both dealer organizations and manufacturers point to three successive years of growing sales, the enthusiasm of the buying public and the greater values offered in forecasting a record year. Their predictions are backed up by the crowds attending the New York and Detroit showings and the increased sales at both places.

Sales at the Detroit show so far have amounted to 652 units, a 50 per cent increase over the 438 new cars sold for a like period at the 1935 show.

Outlook for 1935 production is more than 3,700,000 automobiles, a record since 1929 when 5,600,000 cars were built. Production figures have been climbing since the low of 1,400,000 was touched in 1932. It jumped to 2,050,000 in 1933 and to 2,850,000 in 1934.

CRATER LAKE FIRE CONTROL EFFICIENT

CRATER LAKE NATIONAL PARK, Ore., Nov. 16. (Special)—A review of the 1935 forest fire season in Crater Lake National park reveals a marked efficiency in present day fire fighting methods. Although 25 fires occurred in the Crater Lake area, only four acres were burned, including a minimum amount of timber.

Records compiled by Chief Ranger J. Carlisle Crouch show that 25 of the 28 blazes were caused by lightning, two by debris burning and one by a smoker, indicating that nature, in her electrical moods, was the main enemy of the forest lands. The fires were widely distributed over the 250 square miles of the park, and emphasized the importance of the motor-way or fire-road system threading the area, providing accessibility to all parts of the park by motor, which otherwise could have only been reached by foot.

The chief ranger's figures reveal that a total of 207 miles of motor-ways and trails were traversed to reach the different fires. Of this total 185 miles were over motor-ways at an average speed of 20 miles per hour. Thus fire fighters were enabled to reach the scenes of the different blazes in the shortest time possible, and to extinguish the fires while still in incipient stages. A few years

About 600 B. C. Draco, the famous lawgiver, made a stirring speech and was unwittingly smothered to death by a deluge of clothing. The ancient Athenians showed their appreciation of speakers and actors by throwing garments at them.

ago, before the construction of the motor-ways, the story would have been far different—fires would have covered acres before they could have been reached. The Crater Lake National park ranger staff has been especially trained in fire-fighting as a protective measure for the many thousands of acres of virgin timber in the park. The efficiency of the rangers is reflected in the results of last summer.

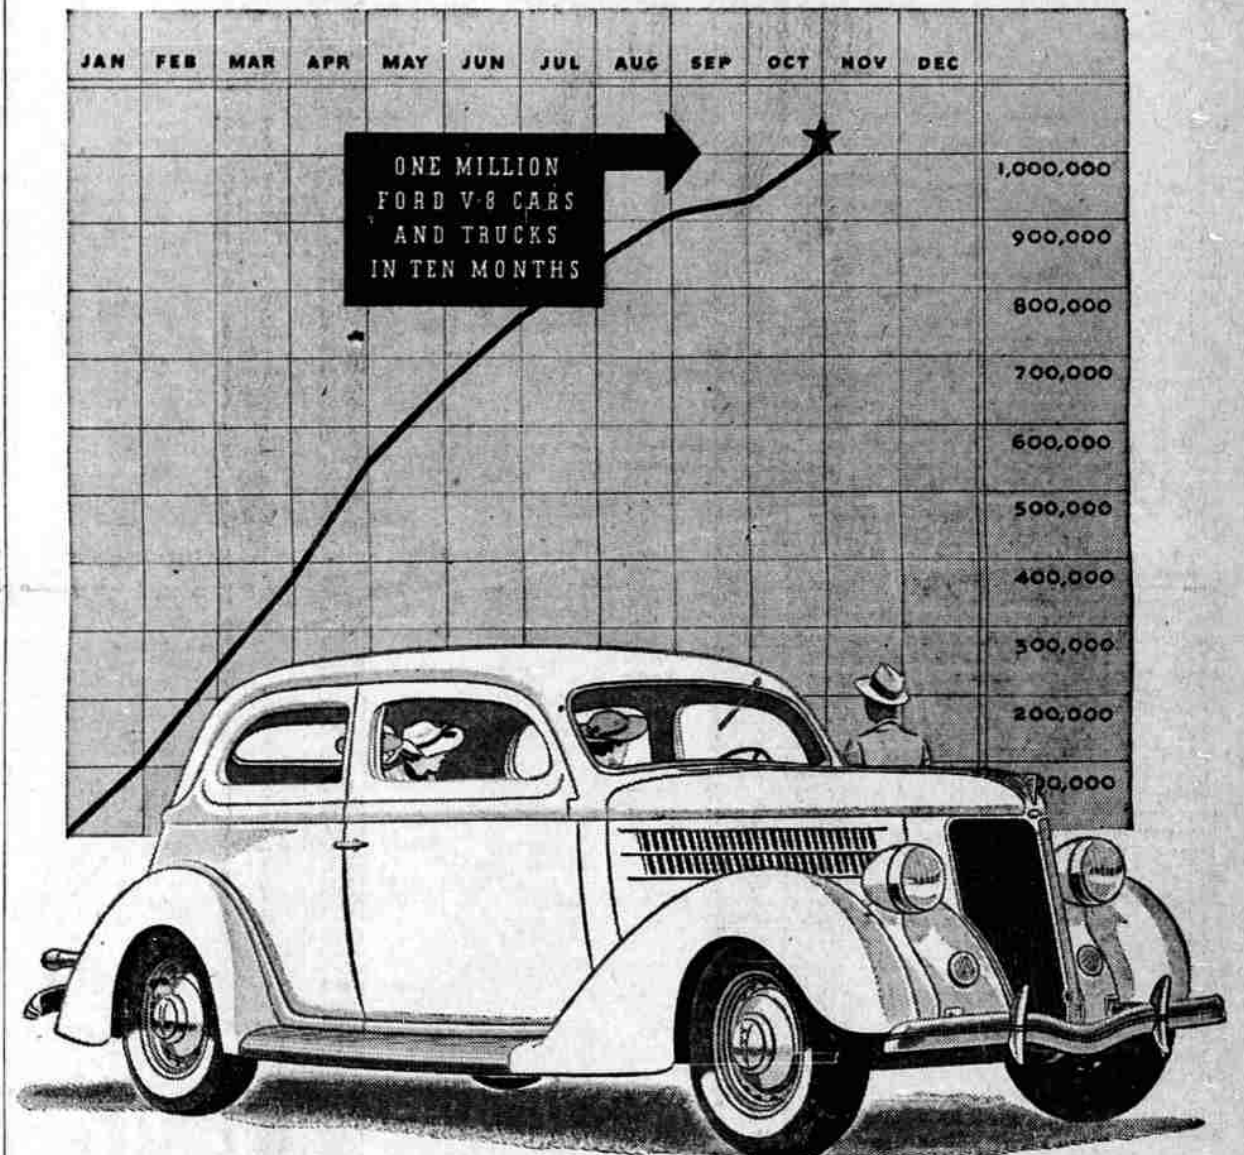

Reckard Pledged to Honor Society

UNIVERSITY OF OREGON, Eugene, Nov. 16. (Special)—Glenn Reckard, Junior in psychology at the University of Oregon from Klamath Falls, has been pledged to Phi Mu Alpha, national music honorary for men. Before entering the university, Reckard attended Sacramento Junior college. He graduated from Klamath Falls high school. He is a member of Phi Sigma Kappa fraternity.

V-8 LEADERSHIP

ON OCTOBER 31 of last year, Henry Ford announced his intention to build a million Ford V-8s in 1935. We are pleased to report that this goal was reached in exactly ten months instead of a full year.

One million cars and trucks is an impressive total. But figures by themselves mean nothing. It is what they represent that counts. Selling a V-8 at a low price has brought a new kind of automobile within reach of the

people. Producing it has provided steady work for hundreds of thousands of men in the Ford plants, in associated industries and on the farm.

These million Ford V-8 cars and trucks have helped to make things better all around. In the first ten months of 1935 the Ford Motor Company paid out, in the United States alone, \$140,119,326.00 in wages and \$523,111,389.00 for materials.
