Road Conditions Better As Skies Become Clearer

No new snow fell on any of the highways in this vicinity, Monday night, the chamber of commerce travel bureau reported Tuesday, and all major roads are in generally good condition for this time of year.

The Klamath Falls-Bend highway is still slippery from the foot of Sun mountain on north and chains are advisable over this section only.

The Klamath Falls-Weed highway is rough and washboarded between Klamath Falls and Midland, but the remainder of this highway is generally good. It is apt to be slippery over Deer mountain in the early mornings and in the evenings. Chains are not necessary but it is advisable to have them along.

The Greensprings highway is slippery in places, although the highway department keeps the curves well sandbed. At the summit of Hayden and Parker mountains the highway is getting quite narrow, where the snow has been plowed off the road and piled up along the sides.

The Lakeview highway is all right, except for chuck holes. Chains are not necessary but it is well to have them along.

On the Klamath Falls-Malin and Alturas highway, the 11 1/2 miles of dirt road south of the state line is very rough and muddy. The remainder of this highway is good, although breaking up in places. Chains are not necessary but advisable.

The road to Crater lake, through Fort Klamath, and the south entrance, is open to Government Camp. The road from there to the rim is not yet open. The road through the west, or Medford entrance, is closed between the park boundary and the Diamond lake junction. Tuesday it was quite warm at the park and the snow settled some, so that there are now 14 inches of snow at Government Camp.

DRUNKEN DRIVING ARRESTS INCREASE

Arrests for drunken driving in the city took a leap during the year 1935, according to police bureau reports, with a total of 75 arrests against 52 on the same count in 1934.

Convictions were obtained in virtually all of the 75 cases. Police Judge Richmond stated. The regular penalty for this offense includes a fine of \$100, a jail sentence of 30 days and suspension of automobile operator's license for the period of a year. The jail sentence is usually suspended upon payment of the fine. If the fine is unpaid, however, the offender serves out his jail sentence plus an additional sentence at a rate of \$2.00 per day until the fine is also served out.

There were 129 arrests on charges of reckless driving in 1935, against 52 in 1934. Many of these charges also involved liquor, but usually the reckless driver was not intoxicated to an extreme degree, as revealed upon examination of a physician.

The greatest number of arrests, 929, chalked up on the police blotter for 1935, were for drunkenness. There were 165 for drunk and disorderly conduct; 194 for disorderly conduct; 102 for vagrancy, and 62 for sale of liquor to Indians.

ONE CLOSET
suitable for skeletons

IT'S THE ONE where you need to keep your family skeletons. Not the kind referred to as "Uncle Will's unfortunate weakness." The kind that haunted you with reminders of unfortunate purchases. . .

Appliances bought on snap judgment. Gadgets that didn't run. Dresses you snatched at the last moment—and never wore after the first. All things that cost too much and gave too little. Merchandise from questionable sources—hastily, inconsiderately secured.

You have fewer of these sad mistakes to put away than you used to. You are spending your money more carefully nowadays. Hard times—experience—have contributed their lessons. But above all others, one factor has stood your constant guard.

The advertising in this newspaper protects you against wasteful, unsatisfactory expenditures. Advertised products live up to their specifications—and yours.

By reading the advertising—not sometimes but ALWAYS—carefully and critically—you provide yourself with a knowledge of values, prices and names that's yours when you need it. Dispense with that upstairs closet. Buy by name in 1936. You'll collect no buying blunders THAT way!
