

# PLANS READY FOR KLAMATH FARM MEETING

Committee which are preparing data to be presented at the Agricultural Economic Outlook conference to be held February 23 and 24, have met for the last time, according to Assistant County Agent C. W. Henkle, and have completed their reports to be presented at the meeting.

Sessions of the conference will be held at the Elk hotel, commencing both mornings at 10:00 o'clock. It is planned to hold the meetings at 4:00 o'clock in the afternoon.

The entire conference group will meet in the hotel banquet room on the morning of Tuesday, February 23, when talks will be presented by extension specialists from Oregon State college, and purposes of the conference outlined to those attending.

At 1:30 o'clock in the afternoon the meeting will be divided into groups, and each committee will hold a round table discussion. Those attending the conference will be at liberty to attend any of the committee meetings and participate in the discussions.

The entire conference will reconvene Wednesday morning to consider tentative reports drawn up by the secretary and committee chairmen on the previous afternoon. After this discussion, an outside speaker will present an address to the group.

At 1:15 o'clock reports of committees will be heard, approved and adopted.

Much valuable information on agricultural topics may be obtained by attending sessions of the conference, the value of which will be determined by the degree in which substantial and reliable farmers of the Klamath basin participate.

One of the major objects in holding this important meeting is to outline a future marketing program for Klamath basin produce, and to determine the outlook for agriculture in the Klamath country.

## P-T. A. to Stage Valentine's Dance

KENO.—Plans are being completed for the P-T. A. Valentine dance in the Keno gym, Friday, February 14.

A high spot of interest in the evening's entertainment will be the giving away of a large box of candy to the one drawing the lucky number. There will be other prizes during the evening. The room will be decorated in honor of St. Valentine. Kiger's orchestra will furnish the music for the evening and there will be refreshments in the cafeteria.

## "Dodge Costs Less to Run—

Than Small Car"—Says Noted Explorer  
ROY CHAPMAN ANDREWS  
American Museum of Natural History

It's hard to excel Dodge for dependability, comfort and economy... I know...

Dodge helped me blaze the way through trackless wastelands in the Far East... many times we staked our lives on the dependability of Dodge cars...

And what an economical car... I know my Dodge has cost less to run than a small car... After my experience with Dodge I recommend that everyone see and drive the big, new, 1936 Money-Saving Dodge "Beauty Winner."

## DODGE NEW LOW FIRST COST

\$640... Now only \$640... And under the new Official Chrysler Motors Commercial Credit Company 5% Time Payment Plan, Dodge is now so easy to pay for!

## Jerry Makes Biggest Gain

Current leader in the Klamath county baby beef contest is Donald West of the Henley club, whose entry has made an average daily gain of 2.75 pounds since it was put on feed. Picture shows West and Jerry, his young Hereford, who with their daily gain record, have claimed first leg on the purebred Hereford calf which will be awarded next fall to the boy making the best all-around showing with his animal. (Herald-News Photo-Engraving.)

## Henley Youth Leads in Baby Beef Contest

Donald West of the Henley baby beef club, with his calf, Jerry, has reported the largest daily gain of any calf on feed in the Klamath county baby beef club.

Jerry was purchased from Buck Williams at 7 cents a pound, as were some 17 other Hereford calves being fed out by Klamath county Four-H club members.

In addition to the Herefords, there are 10 Black Angus steers purchased from D. E. Alexander and nine Shorthorns, most of which came from W. E. Hammond at Merrill.

Purebred Calf at Stake  
Most of the boys have been battling with lice which have infested their calves and are attempting to control the lice with a solution of sheep-dip mixing at the rate of half a cup in three gallons of warm water.

All of the boys owning Herefords are doing their best to win the purebred Hereford calf which will be awarded by Buck Williams and Ernie Paddock of the Yamsay Land and Cattle company next fall at the fair. The award will be made to the boy making the best all-around record with his calf, including daily gain, total gain, cost per pound of gain, attendance at club meetings, accuracy of record book, etc.

Averages 2.75 Pounds  
Jerry, young West's calf, has made an average daily gain of 2.75 pounds since put on feed. The average daily gain for the county group is 1.4 pounds.

The daily gain of the various steers on feed the last 30 days is as follows, owners' names being given:

Angus steers: Bobby Blickenstaff, 2 pounds; Tom Haley, 1.6 pounds; John Ratcliff, 1.4 pounds; Ivan Kandra, .7 of a pound; Richard Shook, 1.8 pounds; Rollo Cheyne, .6 of a pound; Dale Cheyne, 1 pound; Stanley Sparlin, 1.3; Tommy Hess, 1.3; Harry Oren, 1.5.

Thirteen Still Unweighed  
Shorthorns: Bobby North, 1.7; Charles Rudolph, 2; Bruce Hess, .9; Erwin Pool, .5; Billie Drew, 1.4; Arthur Monroe, 2.5; Alvin Cheyne, 1.8.

Herefords: Richard Tackas, 1.6; Ivan Kandra, .7; Bobbie Blickenstaff, .9; Donald West, 2.75; Donald West (2nd calf), 2.4; Junior Grohs, .2; Nell Grohs, .8; Victor Flackus, 2; Walter Ritter, 2.3; Harry Oren, .8.

In addition there are 13 other

## PAMPHLETS READY FOR DISTRIBUTION

Results of commercial fertilizer trials carried on in potato acreage over the valley last fall are now ready for distribution, according to an announcement from the county agent's office, and growers may obtain the pamphlets by calling there.

The object of these trials was to obtain accurate information regarding the use of commercial fertilizers for potato production under various conditions existing in the Klamath basin, and the following information resulted for each individual trial:

- a.—Crop history for 1932, 1933 and 1934.
- b.—Soil type and drainage conditions.
- c.—Kind and base of fertilizer.
- d.—Rate of fertilizer per acre.
- e.—Method and date of application.
- f.—Date of harvest.
- g.—Number of hills per 1/100 acre.

This information was made possible by co-operating potato growers who applied fertilizer and kept accurate check of fertilized and unfertilized rows in their fields. The matter of soil condition, drainage and crop history was given particular attention on all farms. This has provided an accurate cross check representing various conditions found throughout the Klamath basin.

All weighing and measuring was accurately done by the county agent's office. In all cases fertilized and unfertilized rows were adjacent or nearly so. On each trial, 1/100 of an acre was measured for both fertilized and unfertilized rows. During the harvest season these measured distances were graded in the field and weighed according to grade. The fertilized rows were checked against the unfertilized rows and percentage of increase or decrease of the various grades was noted. Some observation was made as to size and type of potato.

A study of the tables appearing in the pamphlet indicates that results were not always uniform in every case, as various soil and water conditions could not always be determined in order to account for some varying results.

To make the best use of the information obtained from the tests, growers should study individual results on various farms, and make comparisons with conditions on their own ranches. Results are sufficiently spread throughout the district to cover most conditions found here.

While the results are not always conclusive, they will, nevertheless, assist growers in deciding on what kind of fertilizer to use, and how and when it should be applied.

February 17, when important matters will be discussed. All members are urged to be on hand for this meeting.

Harold Mallory and Jack Briscoe of Klamath Falls were business visitors in Fort Klamath Tuesday.

## Republicans Hold Spirited Meeting To Hear Address

Lincoln's birthday was made the occasion for one of the most successful republican meetings held in the county in years.

Representative citizens from all parts of the county gathered at the Town club for the meeting, which was called by U. S. Balentine, president of the republican club. Bonanza, Hildebrand, Merrill, Keno and other districts were represented.

Pop Session Held  
After buffet dinner and the Hoover broadcast from Portland,

a pop session was held, with a dozen or more making short talks.

Balentine made the keynote address, lambasting new deal policies and calling upon republicans of the county to put enthusiasm into party work the coming year.

Old Guardian Introduced  
Harold Merryman made a short talk about Lincoln and the republican party. Others who spoke included A. Kalina, Henry Anderson, Robert Emmett, J. Wight, W. G. Keller, Hiram Murdoch, Leland Caser, Charles Williams and T. J. Prather. Balentine introduced his father, a visitor here from Arkansas, who has been a life-long republican.

New deal attitudes toward the constitution and the supreme court and the administration's spending policy bore the brunt of the evening's critical remarks. A good deal of time, however, was devoted to a discussion of party plans and the necessity of prosecuting a vigorous campaign during the coming months.

Following the meeting, Balentine appointed Sam P. Miller as chairman of the county republican organization committee and Joseph C. O'Neill as chairman of the publicity committee. Other chairmen will be appointed from time to time as need arises, Balentine said.

## Two Convicts Walk Away From Prison

WALLA WALLA, Wash., Feb. 13. (AP)—State penitentiary officials Wednesday were without a lead on the two prisoners who slipped away from a coal-loading crew outside the walls today.

Norman Adams, 19, convicted of auto theft in Snohomish county, and Ralph Eddy, serving five years for attempted robbery in King county, were in a gang working under a single guard when they dropped out of sight into a heavy snowstorm. Eddy was eligible for parole application this May and Adams was to be paroled in March.

## FT. KLAMATH

FORT KLAMATH, Ore.—Carol and Harold Wahl of Merrill visited Mr. and Mrs. Ray Taylor at the Fort Klamath hotel Sunday.

Mr. and Mrs. E. M. Brattain were shopping in Klamath Falls Monday. During Mrs. Brattain's absence, her position as local postmistress was filled by Oscar Bunch.

Mr. and Mrs. Lewellyn Smith took their baby son, Lloyd, to Chilquien for medical care Monday. Lloyd, who is one of a set of twins, is reported to be recovering from his illness satisfactorily.

The Crater Lake Ski club held another special meeting Monday evening in the Fort Klamath hotel, with President Delbert Denton in the chair. Reports were given by the entertainment committee on the dance and supper Saturday night, and financial and membership reports by the secretary treasurer, Mrs. Opal Page, showed a balance of \$65.00 in the treasury, and 75 members to date, with prospects of more members to be gained in the near future.

The board of directors, including Alfred Castel, Alfred Orin and Harold Wimer, together with any members able to attend, will meet with members of the Klamath Snow Club at their meeting in Klamath Falls on the evening of February 13, it was announced. At this time, plans will be completed for the winter sports tournament to be sponsored jointly by the Klamath Falls organization and the Crater Lake Ski club on February 23 at the winter playground at Anna Creek, the site of the big ski jump.

Another special meeting is scheduled for next Monday night.

Some men know — others are discovering why only Four Roses could sign this advertisement

THIS IS an advertisement for America's finest whiskey.

Of the three kinds you must choose between—straight whiskey that's unblended, whiskey that's blended with neutral spirits, or a blend of straight whiskeys which contains nothing but straight whiskeys—we believe the third type is undoubtedly superior. And when it's a perfect blend of top-grade all straight, all American whiskeys—then it's the finest.

And that's just the kind of whiskey Four Roses is!

That's why we say... only the name of Four Roses could be signed to such an advertisement as this.

Because Four Roses is blended by Frankfort in the way that 70 years of fine whiskey-making have taught. We take several straight whiskeys, each of especially noble flavor or smoothness or body or bouquet, and combine them into one magnificent

liquor gifted with all those qualities the seasoned drinker seeks—a liquor immeasurably greater than any one of those worthy straight whiskeys alone.

Lots of drinkers know all this—lots more are learning and appreciating it more and more every day.

We only ask you to taste Four Roses to prove that the finest whiskey you can buy is a blend of all straight, all American whiskeys... and the name of that whiskey is Four Roses!

Four Roses — IT'S A PERFECT BLEND — OF ALL STRAIGHT — ALL AMERICAN WHISKIES

Frankfort Distilleries, Louisville & Baltimore, makers of Four Roses, Paul Jones, Old Oscar Pepper, Mattingly & Moore—all blends of straight whiskeys
