WINTER STILL HAS MARKED TRADE EFFECT

NEW YORK, Feb. 21. (AP)—Severe weather conditions continued to have an adverse effect on the flow of business and trade last week, Dun & Bradstreet reported today in their weekly summary.

Retail operations were slowed down by snows and sub-zero temperatures in many sections. Gains were confined to urban centers and for all areas the average increase in retail volume over the comparable period last year was held down to 1 to 5 per cent.

"An undelivered orders accumulated at shipping terminals, new commitments to wholesalers were reduced in spite of urgent consumers' needs," the summary said.

"Lack of inland waterway facilities and further congestion at warehouses hampered some industrial divisions, but operations generally were unchanged for the week.

"In spite of the moderate increases in retail sales in some districts, the strength of the demand that developed for fuel oils, coal, heavy clothing, hardware and other urgent winter necessities was not sufficient to offset the interest postponed in most items until more comfortable shopping weather will have arrived.

"With the downturn of retail distribution continued for the second week, orders to wholesalers in nearly all branches were curtailed. While there was slight lessening of merchandise needs, due to lack of stocks required for current promotions, commitments were postponed until the arrival of goods already specified.

"Little concern has been attached to this temporary slackening of orders, as spring buying has been completed only partially in the majority of lines. As a result, an enormous volume of business will be thrown on wholesalers in March, due to the early Easter which falls on April 12 in contrast to April 21 a year ago."

HIGHER AVERAGE QUOTED FOR WHEAT

CHICAGO, Feb. 21. (AP)—With a two-day holiday ahead, many wheat traders evened up accounts today, and prices averaged higher.

Estimates placed new export business in Canadian at more than 1,000,000 bushels. Bulls asserted the domestic carryover of old wheat this season is apt to be of questionable quality, and even though a good crop is raised there should be a demand for the first run of it.

Wheat closed uneven, 1/4 off to 3/4 up compared with yesterday's finish, May 95 3/4, corn 1 1/4 down, May 60 3/4-61, oats unchanged to 1/4 lower, and provisions varying from 5 cents decline to 25 cents advance.

Stock Market Quotations

NEW YORK, Feb. 21. (AP)—Alcohol shares assumed the leadership today in final minutes of trading in the stock market, but the list as a whole remained highly mixed.

Motors and utilities, together with various individual industrial, were steady at slightly advanced prices, and rails with fractional changes moved in both directions.

The late tone was irregular, and transactions approximated 2,900,000 shares.

Leading steels and aircraft were a trifle easy, and metal and communication issues tested downward.

U. S. Steel and Bethlehem steel fractions, both Wholesaling steel gained around two points.

International Telephone and Western Union declined and Standard Oil California, Standard Oil New Jersey, Stewart Warner, Studebaker Corp., Texas Corp., Trans-America, Union Carbide, Union Pacific, United Aircraft, United Corp., United Gas, U. S. Industrial Alcohol, U. S. Rubber, U. S. Steel, Westinghouse Electric, Woolworth.

OREGON ONIONS RATED HIGHLY

Even the lowly onion rates high when it comes from Oregon.

At any rate such is the feeling among out-of-state buyers in the middle west and northwest.

Recently Safeway Stores in Portland made a sale of nine 1,000 bushel cars of onion sets to their buyers in Kansas City, Topeka, Oklahoma City and Tulsa.

This sale was made from samples of Oregon Brown Onion sets previously submitted to these markets. So excellent was the quality of Oregon onion sets and so attractive the prices that these markets preferred them to Chicago sets in spite of the higher freight differential.

More recently Safeway's Oregon Stores have shipped two carloads to Seattle, Spokane, and Tacoma branches and at the present time is shipping an average of five cars of Oregon onions a week out of the state.

Prior to these shipments, market prices on onion sets were considered to be at the lowest level in history. Since then, reaction from these sales has made itself felt in a strengthening of the market, and Safeway is very pleased to have contributed in some measure toward improving this situation.

DEMAND FOR WOOL CONTINUES TO DROP

BOSTON, Feb. 21. (AP)—The Commercial Bulletin will say tomorrow:

"Demand for wool has fallen off still further this week. Stocks of old domestic wool have become almost negligible and sales are being supplemented by foreign wools to the extent of about a million pounds a week. Added to this, there has been some resale for contract wools but this has not been of great moment.

"Responsive to the slower tempo in the eastern markets, buying of new contracts in the west have been much slower. Prices paid have shown little change. The big movement was in Nevada, where 25 1/2 cents was paid for 1 1/2 million pounds of fair length fine wools early in the week.

"Foreign markets are very firm. "The manufacturing position is without material change but rather slower, on the whole.

"Mohair is in very moderate demand at firm prices.

The Bulletin will publish the following quotations: Fine and F. M. staple 90-91; fine and F. M. clothing 82-85; Mohair: Domestic, good original bag, Oregon, 52-53.

PORTLAND MARKET UNCHANGED FRIDAY

PORTLAND, Feb. 21. (AP)—Butter, butterfat and egg quotations remained unchanged.

Live poultry continued to show a firm tone, with no changes in the price list. Receipts of Leghorns continued scant.

Better weather conditions appeared somewhat of an aid to marketing of hothouse rhubarb, although prices continued below normal.

Onion market was a trifle softer locally with a desire on the part of holders to take profits.

Country killed meats continued generally firmly priced.

Apparatus was showing reduced prices with increasing movement out of San Francisco and Stockton.

Celery market was mixed with generally firm prices.

Good peas were selling around 7 1/2c per lb., with others 5c or less.

A truck load of bulk turnips from the south relieved the local famins with sales up to 50c per dozen bunches.
