

LEGION TO HOLD SLOGAN CONTEST

Klamath post of the American Legion is sponsoring a contest for a slogan for the Fourth of July celebration to be held here this summer. Participants in the contest will be pupils of the city and county schools.

The Legion's invitation for contributions follows:

"The local post of the American Legion is sponsoring a

Fourth of July celebration in Klamath Falls this year. They offer a prize of \$5.00 in cash for the best and most appropriate name or slogan for such a celebration.

"As the American Legion proposes to carry on such a celebration each year, the name or slogan adopted must be of a permanent nature.

"The name or slogan should be short, it should include something pertaining to the American Legion and it should have something that will also identify this community.

"This contest is open to all students in Klamath Falls city and county schools. The name or slogan will be selected by a

committee appointed by the American Legion.

"Submit your idea in written form, neatly, signed by yourself and include your address and school you attend. Mail this to: 'THE AMERICAN LEGION' 'Box 659' 'Klamath Falls, Oregon.' 'This contest will close April 4, 1936. Be sure to submit your idea before that date.'

During the latter part of the World War, allied airplanes wrought considerable damage to German submarines by dropping depth-bombs on or near the under-craft, which are quite visible from the air during calm weather.

CAMP FIRE GIRLS

All local Campfire girls are working for honors in the birthday project, which is in connection with the celebration of another campfire anniversary.

There will be a birthday council fire, March 17, at which time girls having earned honors will

have them awarded. Some girls are hoping to attain new ranks at this time.

Towalkia group had a very enjoyable Valentine party last week. The girls in this group are working hard to earn birthday honors. At the last meeting a chart was made with plans for following meetings.

The Sinawa group combined work and play by having a taffy pull last evening. The rest of the time was spent working for birthday honors. A swim night was planned for the near future, at which the girls hope to entertain some new members.

Girls in the Wako group had a very good time at the Valentine party. They exchanged valentines, played games and later had refreshments which were prepared by two of the girls. At the last meeting the girls learned some new songs, also singing all the old ones they knew.

Litahni group held a card party at the campfire house last week. A great many people enjoyed the cards and refreshments, netting the group a good deal for their treasury. This money is to be used to purchase ceremonial gowns for the group, in time for Council Fire, March 17. This week the girls are having a treasure hunt party.

The Campfire Guardians association had a pot-luck luncheon, February 13, at the campfire house, which was enjoyed by all the members and guests. Another luncheon was given Monday for representatives from local clubs who are interested in boys' and girls' clubs. Plans were made to send several local Campfire guardians to Portland for the Campfire Guardians' Institute which will convene at the Multnomah hotel, February 21 and 22.

CHAUFFEUR HELD IN DOUBLE KILLING

LOS ANGELES, Feb. 21. (P)—A 25-year-old chauffeur, Fred Stettler, was booked on suspicion of murder early today in connection with the double slaying of Carl S. Harbour, 66, and his wife, Dorothea, 61. Detectives who arrested Stettler had checked the Harbour rooming house register to find a person with the technical knowledge to perpetrate a "murder-by-the-clock."

The elderly couple was bludgeoned to death and their bodies placed on a bed, which the slayer set on fire early yesterday by a "time clock" mechanism connected with an electric heater.

Detective Lieutenant Lloyd Patton said Stettler formerly lived at the Harbour home and one of his charred personal cards, with his new address, was found in the couple's effects.

The detective said Stettler had been reported tinkering with electrical devices in much of his spare time.

When the chauffeur, who works part-time, was arrested at his home late last night, Patton said he was found in possession of an electric soldering iron and wire similar to that used in construction of the arson machine which fired the Harbour bedroom.

Stettler maintained under questioning that he had not been near the Harbour home Wednesday night and had last seen the

couple, with whom he had a close acquaintance, a week ago. "The case isn't solved yet, but it looks like we're making some progress," Detective Patton declared.

In a recent flight test at Harvard university, four midget balloons filled with hydrogen gas were sent aloft, carrying a small automatic radio transmitter which flashed frequent reports on air pressure and temperature until the signals stopped at an estimated altitude of 10 miles.
