Signatures Asked for Ballot Measure

James A. Whitney and a staff of helpers are here circulating petitions to obtain signatures of registered voters to force on the ballot a constitutional amendment relating to truthful advertising.

Dr. S. T. Donahue, Eugene, originated the bill. He says the amendment merely provides that no state governing body shall ever limit or inhibit honest, truthful advertising. "There has been a constant effort on the part of special interests endeavoring to forbid advertising," said Donahue. "The people have a right to be informed through educational, honest, truthful advertising, and no bureau or board should be allowed to abrogate this right."

Cold Epidemic's Havoc Persists Through County

Virulent colds, influenza and pneumonia, constituting a virtual epidemic, continue to sweep the county, according to reports from physicians and hospital officials.

In many cases the attack is quite mild, and if the patient remains quiet a few days the worst of the siege is over. In other cases the illness is more virulent, and when it goes into pneumonia becomes very critical.

High percentages of absences from schools continue, with some county and city schools reporting more students absent at present than at any time this winter, while other report nearly normal attendance.

The health unit reports num-

erous office conferences and dispensing of medicines to those afflicted with the prevailing ailment.

The type of cold, la grippe or influenza which prevails at present is air-borne, according to Dr.

G. S. Newsom, county physician, and the germs cannot easily be avoided.

In Brazil, 400 different species of plants were found in an area of three square miles.

4 out of every 5 miles you drive are "Stop-and-Go"

Costly—unless you use a "STOP-and-Go" gasoline

You often make 5 stops just driving to the movies! 4 stops going to the grocer's! 3 stops dashing to the drugstore! No wonder you average over 30 stops a day . . . shift gears over 60 times a day!
For economy in stop-and-go driving, your gasoline needs 3 kinds of power . . . just as your car needs 3 shifts of gears. You need one kind of power for QUICK STARTS . . . one for FAST PICKUP and hill climbing . . . one for STEADY RUNNING. Super-Shell is the first gasoline with these 3 kinds of power in perfect balance. On sale at over 30,000 neighborly Shell stations from coast to coast.
