Spring Fever

in the news

No doubt of it now—the open season for Spring Fever is upon us. The first robin has been duly acknowledged, crickets are tuning up, and the advertising columns of this paper are full of news about gayer things to wear and do and eat and enjoy.

Even a shut-in can follow the rhythm of the seasons by reading the advertisements. The first ad for white shoes is as sure a sign of Spring as the first tulip. Soon you'll be seeing in these pages what you dare leave off on the beach this Summer, and hearing what new sunburn lotion will guard the exposed areas.

You'll be buying Springy things off and on for several weeks. Chart your shopping course carefully, wisely, by following the advertisements from day to day. Compare values, select styles, make up your mind before you start the leg work from store to store. You'll save money—and have more time to enjoy the nice weather.
