

AUXILIARY READY FOR POPPY DAY

The Legion auxiliary's preparations for the annual Poppy Day, Saturday, May 23, are going forward rapidly under the leadership of Mrs. George Britt, chairman, and virtually the entire membership of Klamath Falls unit has volunteered for Poppy Day work. Junior members, as well as adults, will take part in the day's activities, and all will serve without pay, as every penny of the money contributed by these taking flowers will go into the welfare and rehabilitation funds of the Legion and auxiliary. The only persons receiving pay for their work in the auxiliary's poppy program are the disabled veterans who make the poppies. This is the only means now of the disabled veterans have of earning any money.

Poppy-making work is restricted to disabled veterans receiving little or no government compensation, with preference being given to those having families in need of their support. Materials are supplied by the auxiliary, and the number each veteran is allowed to make per day is restricted, so that the work may be spread among as many needed men as possible and to prevent over-taxing the worker's strength. The work gives the disabled men an interesting, profitable occupation, relieves them of the long hours of idleness, and is a positive aid to recovery.

Dimes, quarters and half dollars dropped into the coin boxes of the poppy workers supply the means for local, state and national benefits to disabled veterans and families left in need through the death or disability of the veteran. The Poppy Day contributions make aid available during the other 364 days of the year to those who still are paying in steady installments the war's bitter debt of suffering and privation.

Australia sometimes is called the "shades land." The leaves of some of the trees are arranged so as always to present their edges to the sky.

A dove has no gall, which the ancients believed to be the seat of bitterness and bad temper. This belief led to selection of the dove as the emblem of peace.

Stock Market Quotations

NEW YORK, May 13. (AP)—The stock market turned in advances of fractions to two or more points today in another of the duller sessions in about a year.

Gains were fairly well distributed, although alcohol and scattered specialties were the leaders. The close was firm, despite a little late profit taking. Transfers were around 600,000 shares.

Conspicuous on the upside were Distillers Corp., Hiram Walker, Schenley, U. S. Industrial Alcohol, National Distillers, Dupont, J. I. Case, Douglas Aircraft, Liggett & Myers "B", International Nickel, American Smelting, Deere, U. S. Steel, Chrysler, Sears Roebuck and Westinghouse.

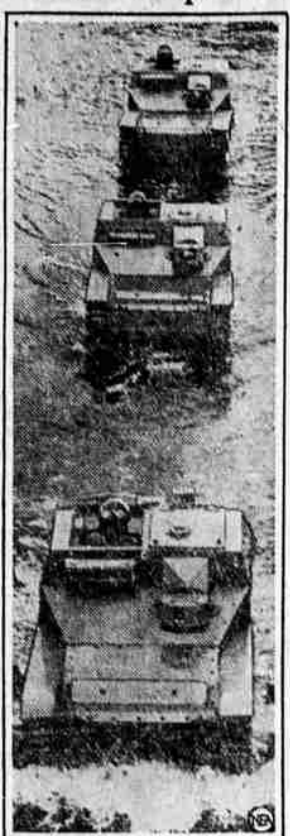

Canadian distilling stocks were the day's lively performers upon announcement that dominion companies had reached an agreement with the treasury on claims for duties on liquor smuggled into the United States during prohibition.

Others in the Alcohol group reflected reports of an imminent settlement of tax differences with the Pennsylvania authorities as well as the belief that some of the concerns may climb into the dividend class in the near future.

Austria's 'Baby Tanks' Baptized

Significant of growing Austrian tension, created by displays of German military strength on the border and the shadow of a Nazi "putsch" are maneuvers such as this, in which three of Austria's new baby tanks ford the Leitha river near Vienna. A unit of these tiny tanks is touring the country as part of troop movements.
