

BATTERY BACK FROM COAST THIS EVENING

Many persons plan to turn out in force this evening to greet Klamath Falls' own Battery "D", 24th Coast Artillery returning from annual encampment at Fort Stevens.

The national guardsmen are due to arrive on Southern Pacific train No. 19, arriving here at 8:40 p. m.

ASTORIA, Ore., July 1. (AP)—Oregon national guardsmen, with \$21,000 jingling in their pockets, broke camp Tuesday and started homeward from their two weeks' encampment.

While the "war" continues for each unit until it checks in at its home town headquarters, the payoff came Monday when checks were distributed.

Making a "retreat" at dawn, the 24th coast artillery evacuated Fort Stevens at 5:30 a. m. Trains from Camp Clatsop started carrying the soldiers' protest homeward at 6 a. m., while motor convoys rolled away shortly after 8 a. m.

The last unit in camp was from Astoria.

Only a small rear guard detachment to take down tents and put away equipment remained until noon.

Wild Demonstrations Follow Mention of Roosevelt

Mention of President Roosevelt's name was sufficient to set off tremendous demonstrations in the Democratic national convention, as this scene strikingly shows. Here the delegates and spectators were staging an enthusiastic parade in Philadelphia's mammoth Municipal Auditorium, cheering and waving banners, with Alabama's huge problem conspicuous in the display.

Stock Market Quotations

NEW YORK, July 1. (AP)—Specialty and preferred stocks were given a boost of fractions to around 4 or more points in today's stock market, but the rest of the list generally shifted for itself at lower levels. Westinghouse spurted 7 at its best.

Most of the steels were still backward as the labor situation continued cloudy. Chrysler and the other motors appeared to have halted for a breathing spell. The close was irregular. Transfers were around \$50,000 shares.

Preference stocks of standard gas developed strong tendencies as bright earnings signs brought reorganization hopes nearer. American Power & Light, Electric Power & Light and American and Foreign Power preferreds were again in the popular class on expectations of dividend resumption or adjustment of accumulations.

SHARP INCREASES NOTED IN TRADE

PORTLAND, July 1. (AP)—Sharp increases in business indices within the past six months showed that Oregon has come a long way since the depth of the depression, leaders of commerce said today.

Among the most interesting comparisons was that in building permits, revealing that in the first six months of 1936 a total of 2,026 permits with a value of \$3,184,634 were issued against 1,670 with a value of \$1,663,305 in the same period of 1935.

The rising flow of trade was reflected also in clearing houses records, which showed that the total transactions for the first six months of the year exceeded those in the same period of 1935 by \$78,773,564, totaling \$663,125,191.

Receipts at the customs house increased 32 per cent in the fiscal year ended yesterday against the same period of 1934-35, totaling \$1,841,297.

Total lumber shipments for the six-month period reached \$5,200,165 board feet, or nearly 12,000,000 feet above the same period of 1935.

Decreases cropped out in flour and apple shipments. In the six-month period, flour exports totaled 12,945 barrels against 80,868 a year ago, and fresh apple shipments aggregated 24,681,703 pounds, or about 9,000,000 pounds under 1935.

Mrs. Dill Begins Reply to Solon's Divorce Charges

SPOKANE, July 1. (UP)—Rosalie Jones Dill Tuesday opened her defense to the pious and novel allegations made by Senator Clarence C. Dill in his suit for divorce.

The 51-year-old New York suffrage "general" and peace movement leader brought 11 minor witnesses to the stand in rapid order starting just before the noon recess, and was said to have several more to call. She was expected to testify in her own behalf Wednesday.

Senator Dill was dismissed from cross-examination late Tuesday morning after nearly a day and a half on the stand, during which he put into direct testimony the allegations in his original 1800-word complaint and the subsequent pages of the bill of particulars.

The late afternoon sessions were brightened by the appearance of Mrs. Katherine Bullard, plump, drawing fellow-rock-garden enthusiast of Mrs. Dill.

whose voluminous reminiscences wandered rapidly and unhindered into tales of planting strawberry plants, and far beyond the control of counsel.

Dill's accusations that Mrs. Dill hired two tramps to work at the palatial Dill residence were refuted by Dan E. Demick, union bricklayer, and A. Sylvan, union carpenter, who testified they were paid union wages for work there.

Mrs. Mabel Johnson, part-time maid, testified to Mrs. Dill's cleanliness and good housekeeping, as did Myrtle Hagerman, another servant.

Owen Miller, laundryman, testified to the condition of the family laundry bag. A previous witness for Dill had described the sheets and pillow cases as "just black."

Mrs. Edith Galland, Mrs. F. B. Grinnell and Mrs. R. B. Pateron, all socially prominent Spokane women, testified that Mrs. Dill had dressed well and entertained in good taste.

Mrs. Thomas Seward and Mrs. Harold Lauer, neighbors of Mrs. Dill, described the Dill home as clean, orderly and well-kept.
