

CCC Reclamation Project Activities Valued At \$95,000

Value of CCC work to the Klamath reclamation project in the last fiscal year is estimated at \$95,000 in a report prepared at the reclamation office. "Tree troopers" re-conditioned the main canal, cleaned and cleared other canals, re-built water control structures, and did many other

jobs to improve the reclamation system. Similar work has been done on reclamation projects throughout the west, with 34 CCC camps located on these projects. Camps supervised by the bureau are listed as follows: Nebraska, 2; South Dakota, 1; Arizona, 1; Colorado, 2; New Mexico, 2; Texas, 1; Wyoming, 2; Idaho, 3; Montana, 4; Nevada, 4; Oregon, 5; Utah, 2; Washington, 3. In addition to work in connection with water storage, transfer

and control structures, CCC youths have done considerable work in eradication of rodents and poisonous plants on the reclamation projects.

Thomas A. Watson was the first man to hear words spoken over a telephone. To be more clearly understood, when he spoke over the phone, he took up the study of elocution, and became so interested that he became an actor at the age of 56.

★ Honey Maids are "tops" in the trading marts of summer playgrounds. For their honeyed flavor brings joy to the "sweet tooth" of youth. But most important, Mother, these wholesome graham crackers are crammed full of energy-giving nourishment and body building elements. Serve them with milk or fruit, between meals and as a delicious dessert. Your grocer has them *oven-fresh*, just as they come from our nearby western bakeries.
