U. S. WARSHIPS SENT TO SPAIN

Temperature Hits 100 Degrees

Claude Bowers, American Envoy, In Battle Zone

Editorials On the Day's News

By FRANK JENKINS SOMETHING important is happening in Spain, but just what it is remains clouded in mystery because of censorship. A fair guess is that the more conservative elements have risen in revolt against the "leftist" (radical) government.

The government announces that it has completely crushed the revolution, but cautious observers will note that a rigid censorship is still maintained.

When rigid censorship exists, it's pretty hard to believe anything you read.

IN THE political news from Europe, the words "rightist" and "leftist" occur quite frequently.

A "rightist" is a conservative, in the language of European politics, and a "leftist" is a radical. In the European legislative bodies, the conservatives sit on the right of the room and the radicals sit on the left. The middle-of-the-roads sit in between and are referred to as "centrists."

Hence these words that sprinkle the political news from overseas. NOTE, please, that whatever is going on in Spain (largely shrouded from our eyes by the veil of censorship) is undoubtedly an effort to change the government by FORCE.

We've done a lot of things in this country that must cause the founders of our republic to turn uneasily in their graves, but whatever we do let's not go to the length (as has been done extensively in Europe) of changing our government by force of arms instead of by votes.

This is one foreign importation we can do without.

PARAMOUNT STUDIOS, in Hollywood, is suing Samuel Goldwyn for FIVE MILLION DOLLARS because Goldwyn is alleged to have lured Gary Cooper out of the Paramount camp and into the Goldwyn camp.

Just how would you feel if you quit one job and took another and your old boss sued your new boss for five million dollars damages for luring you away. You'd feel pretty cheery, wouldn't you?

HOW does Gary Cooper get that way?

Here is the answer: He MAKES MONEY for his boss. So, you see, his old boss doesn't want to lose him and a lot of new bosses want to GET him.

If you want to get yourself into the same pleasant position, devote your energies to making money for your boss. That's the way to make other bosses want you.

DISASTROUS STORM OCCURS IN TEXAS

DALLAS, Tex., July 21. (AP)—A violent wind and thunder storm ripping through central-northeast Texas last night left in its wake property damage estimated to be of million-dollar proportions.

There were no deaths reported but in Dallas, where full force of the fast-breaking disturbance hit just before midnight, nearly 40 persons suffered minor injuries, some from flying glass. The Dallas Times-Herald, after a survey of thousands of broken trees, street erosion, wreckage on the Centennial exposition grounds and other losses, estimated the Dallas property toll at \$1,000,000.

VANCOUVER STRIKE VANCOUVER, Wash., July 21. (AP)—A strike called by the workers' alliance here in a protest against wage results today in a walkout of 116 men from two WPA projects employing 148 red workers.

HEAT RECORD FOR SEASON MADE TODAY

City Has Hottest Day Since August 15, 1933.

LIGHTNING STORM IN EAST COUNTY

Partly Overcast Skies Bring Little Relief By Mid-afternoon.

Mercury in the government thermometer edged up to the 100 mark early this afternoon. That set an official record for the season to date, and it was the highest temperature recorded here since August 15, 1933, when the mercury touched 102.

The sultry heat cooked up a thunder storm in the east end of the county, and a look-out of the Klamath Forest Protective association reported considerable lightning play over Coleman rim.

At mid-afternoon the sky was partially overcast here, but that brought little relief from the record heat of the day. Coats were peeled off and general lethargy prevailed as heat gnawed at the vitality of the population.

A mass of hot air has hung over this region for several days. Sunday the temperature equaled the season's record, Monday it bettered the previous record by two points, and Tuesday it was up at least another three points.

The local weather man held out little hope for a change to the cool side, but weather reports for northern California and interior Oregon indicated there might be some relief.

Klamath Forest Protective association officials were on alert for fire reports from the electrical storm area in the eastern part of the county.

Two man-made fires were fought in the heat of Monday afternoon, one by the Indian service forestry department, the other by the protective association.

Fire started on the reservation at Barley Springs. It apparently was set on the highway by a carelessly thrown cigarette stub. It ran up the hill back (Continued on Page Three)

LEWIS CHALLENGES LEGALITY OF ACT

WASHINGTON, July 21. (AP)—The John L. Lewis committee for industrial organization today challenged the legality of the American federation of labor executive council's summons to stand trial on "insurrection" charges.

Washington, July 21. (AP)—Headed by John L. Lewis, representatives of unions including one third of the American Federation of Labor's membership assembled today to decide what to do about an "invitation" to stand trial on charges of "insurrection."

Make Plans for Big Ram Sale

Excellent prospects for a successful southern Oregon ram sale here September 1 were discussed by the ram sale committee in a meeting here Monday afternoon. Members of the committee are shown above. Left to right: John Withers, Paisley; G. A. Henderson, county agent; Lee McMullen, secretary, Klamath Production Credit; E. M. Hammond, prominent Merrill farmer; W. P. Wing, manager, California Wool Growers association; E. C. Reynolds, secretary of the chamber of commerce and farmer of the Henley district. (Herald-News Photo-Engraving)

Chieftains of Major Parties Undisturbed By Lemke's Presidential Drive

WASHINGTON, July 21. (AP)—Major party leaders, in the midst of campaign preparations, today professed to see no weakening of their party lines as a result of Representative William Lemke's union party presidential drive.

Landon Completes Speech While President Roosevelt continued his sabbatical vacation and his republican opponent, Gov. Alf M. Landon of Kansas, completed his acceptance address and relaxed pending its delivery Thursday, their campaign leaders talked about prospects in the fall election.

Democratic Chairman James A. Farley described as "too foolish to be worthy of comment," a statement by Rev. Charles E. Coughlin that the union party would elect a majority in the house.

Representative Joseph W. Martin, Jr., republican campaign manager in the east, declared Landon would lose few votes to Lemke. Any union party effect in the east, he said, would be to "make the states doubly sure for us."

Completion of Landon's 3,500-word acceptance speech centered attention for the time being upon the Republican and the opening of the Republican standard bearer's drive. While there was no definite word regarding the subject matter of the address, observers looked for emphasis on such problems as agriculture, relief, employment, finance, tariff, monopoly and the constitution.

The address will be delivered at 8 p. m. (CST) Thursday, over a national hookup.

Smith's Aid Sought While Landon mass ready for the address, Chairman John D. M. Hamilton remained in the east, and the Baltimore Sun said he conferred yesterday in New York with former Governor Alfred E. Smith, foe of the new deal.

"Mr. Hamilton begged the New Yorker to join actively in the fight to defeat the reelection of President Roosevelt," said the Sun's copyright story. "The republican leader wants Mr. Smith to take the stump for Governor Landon, as former Governor Joseph B. Ely of Massachusetts, has agreed to do."

The Sun story expressed the writer's belief, however, that Smith would make no speeches under the auspices of the republican national committee, but might speak against Mr. Roosevelt.

In the capital last night the president was described as "a great humanitarian" by Senator Radcliffe (D-Md.).

REPORT SAYS CROPS DOWN TO NEW LOW

All-Time Crisis in Agriculture Revealed By Survey.

DROUGHT REPEATS 1934'S DISASTER

Soaring Temperatures Return to Hard-Pressed Territory.

WASHINGTON, July 21. (AP)—The crop reporting board of the bureau of agricultural economics said today that by mid-July the drought was "about as severe as that of 1934 at the same date and much more serious than any previous droughts since the country was settled."

The board announced it had made a special survey of the effect of the drought on pastures. It said this provided one of the best possible measures of the effect of the heat and drought on plant growth generally.

On the basis of this survey, the board said the condition of pastures on July 15 averaged 44.7 per cent of normal. This compared with 48.9 per cent reported on July 1, 1934, and 39.6 per cent reported on August 1 of that year.

"In no other year has the condition of either date been reported below 56 (of normal), the board said, "and only in the drought years of 1933, 1931, 1930, 1911, 1894, and 1883 was the condition on either date reported below 69. During the past 25 years the condition reported has averaged 81.5 per cent of normal on July 1 and 75.6 per cent on August 1."

The board said no definite figures were available on changes since July 15, but that some of the hottest weather came after the middle of the month.

MERCURY UP AGAIN CHICAGO, July 21. (AP)—Temperature rose over 20 degrees today with cessation of showers which broke the heat wave and, to an extent, loosened the grip of the drought.

Forecasters J. R. Lloyd predicted no rain of consequence (Continued on Page Three)

PRESIDENT HEADS FOR BAY OF FUNDY

ABOARD SCHOONER LIBERTY OFF CAPE NEGRO ISLAND, N. S., July 21. (AP)—President Roosevelt put a week of vacation cruising under canvas behind him today and headed back to the Bay of Fundy with Yarmouth on the southwest coast of Nova Scotia a tentative first stop.

The 35-mile run depended largely on the weather. A soupy fog delayed the Sewanna yesterday, causing the president to put back into Shelburne Harbor, 15 miles north of here, after a morning attempt to slip into the Atlantic for some deep sea fishing.

The president was anxious to try his hand at the larger fish when the Bay of Fundy is reached. The Sewanna is due at Campobello Island, N. S., terminal of the two week's cruise, July 28.

Steamer on Rocks Off Philippines MANILA, P. I., July 21. (AP)—The interisland steamer Isidoro Pons, carrying a crew of 43, ran on the rocks today off Palau Point on the coast of Luzon island in the China sea.

Her wireless failed in the middle of an SOS, Marine men said she was caught in a typhoon raging over the China sea.

DRIVER OF DEATH CAR HELD IN JAIL

Manslaughter charges have been filed against Merle Nickerson in connection with the double accident near Silver Lake in which Mrs. Myrtle O'Keefe and Frank G. McBroome were killed, according to state police reports here. The case will be prosecuted in Lake county.

Officers working out of Silver Lake against Merle Nickerson in connection with the double accident near Silver Lake in which Mrs. Myrtle O'Keefe and Frank G. McBroome were killed, according to state police reports here. The case will be prosecuted in Lake county.

DISEASE FOLLOWS CHILEAN QUAKES

SANTIAGO, Chile, July 21. (AP)—Epidemics of influenza and intestinal disorders spread along the northern coast of Chile today as gales raged over areas previously wrecked by earthquakes.

Bodies, thrown out of their graves in cemeteries, lay exposed because of lack of funds and labor.

Drinking water was becoming scarce, and sanitary facilities were destroyed.

ANOTHER TERROR MURDER REVEALED

DETROIT, July 21. (AP)—Prosecutor Duncan C. McCrean announced today that Dayton Dean, confessed Black Legion "trig" man in the slaying "May 13" of Charles A. Poole, had told of a new member of the terrorist organization shot a negro to death "just for the hell of it" May 25, 1935, near Pinckney, Mich.

The victim, Dean said, was Silas Coleman, 43, a World War veteran. He was lured to a desolate spot on the pretext he was to collect wages due him. Dean told McCrean, and shot down for the entertainment of a Black Legion drinking party.

MINE DESTROYED JACKSON, Calif., July 21. (AP)—Fire of unknown origin today destroyed all surface buildings of the Pioneer Lucky Strike mine 17 miles east of here. Mining men have estimated the damage at from \$50,000 to \$75,000.

RAS KASSA MOVES AGAINST CAPITAL

LONDON, July 21. (AP)—An exchange telegraph report from Cairo tonight said the Egyptian foreign ministry had been advised by its consul in Addis Ababa that Ras Kassa, the former Ethiopian minister of war, was advancing upon the capital with large forces.

Heavy fighting was said to have already occurred.

Ras Seyoum, another Ethiopian chief, was reported advancing on Addis Ababa from another direction, attempting to make contact with Kassa.

U. S. JOINS HUNT FOR LOST VESSEL

TAMPA, Fla., July 21. (AP)—The United States coast guard contracted a large fleet in the Yucatan channel and Caribbean sea today under orders to learn the fate of 22 persons aboard the missing British motorship Nunoca.

The vessel's stores probably were exhausted many days ago, it was believed.

Three ships of the Cuban navy joined nine coast guard boats in the search. The 110-foot Nunoca left Georgetown, chief port of that island, for Tampa July 4 and was due here four or five days later.

Heavy fighting was said to have already occurred.

Ras Seyoum, another Ethiopian chief, was reported advancing on Addis Ababa from another direction, attempting to make contact with Kassa.
