The force of wind increases with the square of the velocity. A 30-mile wind compares with a 10-mile wind as 900 compares with 100. For this reason, a small increase in velocity accounts for a great increase in wind damage.

Little Stories About Klamath Boys and Girls

Dorothy Leavelle recently made a vacation trip to Portland. At the depot in Portland she met up with her chum, Rose Gallagher, also a member of the Popeye club, and the girls returned home together. Both had a very lovely trip.

Peggy Plymale, eleven years old, writes:
I went on a trip to Lake o' the Woods and I took a girl with me. We had lots of fun. We hiked five miles. We went in swimming three different times and were very sorry when we had to come home, but we were very tired when we got into Klamath Falls.

Billie King, 2325 Garden avenue, has just returned from a grand week of outdoor fun in Sergeant Cook's camp. Billie drops the Popeye news column a note and here it is:
"I spent all last week at Sergeant Cook's camp on Spencer creek. There were thirty-two of us boys from Mills school. We had lots of fun swimming, fishing and hiking."

Church Announces Special Features

Sunday two special musical features are to be presented at the First Presbyterian church, North Sixth and Pine streets.

In the morning Patrick Sage, engineer engaged in the construction of the bridge for the Midland cut-off, is to sing a special solo, "Abide With Me," by Liddle. Thomas has received a lifelong training as a singer in England and America. On coming to the United States he sang in the famous St. Thomas cathedral in New York City. The congregation was delighted with his singing on last Sunday. This Sunday will be the last opportunity to hear him.

Rev. John W. Warrell, pastor of the First Methodist Episcopal church, will bring the message for the union service, speaking on "Cooperation."

New York's \$64,000,000 Triborough bridge was financed by a federal grant and loan. It's a hint for other states, then—that "Triborough"?

There have been few campaign speeches so far, so Mother Nature must accept full blame for all that hot air.

DARLING! THIS IS REAL FRESH BREAD

UH-HUH-AND IT'S A WOMAN'S RECIPE

-TASTES LIKE HOMEMADE

To know how good bread can taste, just try Julia Lee Wright's fresh bread

By JULIA LEE WRIGHT
Head of one of the world's largest Home Economics Bureaus

You see, women—not men—created Julia Lee Wright's. We bake it from a woman's recipe—which hundreds of Western housewives worked months to help us develop.

Finer, more costly ingredients—your own kitchen-grade kind—are used in its baking. Each loaf costs us more money, I believe, than most bakers care to spend.

And this unusual "woman's recipe" bread, we decided, deserved to reach you at its peak of flavor.

So we make a special effort to have each loaf come into your hands ideally fresh—fresh as Grade A milk.

Does my fresh bread taste better? Buy a loaf of Julia Lee Wright's today and see.

Please notice, too, this extra economy. A bread so fresh when you get it naturally keeps fresh longer in your breadbox.

GUARANTEE
If you do not agree the new Julia Lee Wright's Bread tastes better—all your money will be refunded
