Sex Examinations May Be Required Of Girl Athletes

BERLIN, Aug. 1 (UP)—Sex examinations for women athletes participating in the Olympic games were discussed today by the international Olympic committee in view of previous cases such as that of Mary Edith Weston, English girl champion who attained fame as a female competitor and later was transformed into a man by an operation.

Following the operation, she changed her name to Mark Weston and was given a certificate attesting that "Mark Weston is now a man and should continue to live as a man." In a recent interview with the United Press, Weston, who resides in England, said he often felt that he should not have competed against girls although his sex was feminine at that time.

Avery T. Brundage, president of the American Olympic committee, denied reports abroad that he brought the matter of examinations up before the international body.

"We did discuss the advisability of a thorough sex examination for female competitors," he said, "but I did not bring the matter up and did not take the lead favoring it more than anyone else."

We were wondering about the silence out of Italy lately, until we realized that since Mussolini fired the three dukes from the cabinet, they probably aren't talking.

Acclaiming Man Who Saved King

Special Constable Anthony Dick sought to evade idolization for his feat of knocking from the hand of George McMahon the pistol with which the disgruntled cripple menaced King Edward in London. But Dick's fellow employees refused to let him escape. One warmly shakes the hand of their hero (right) while others cheer lustily.

Sinclair Questions Extent of Landon Feeling for Labor

PASADENA, Calif., Aug. 1 (UP)—Upton Sinclair, former state democratic leader, demanded of Governor Alfred M. Landon Friday that he clarify his labor views to the extent of answering whether he would exercise federal authority to protect labor organizers who are forcibly ejected from their field of operations.

"I request you to answer a question of vital importance to every labor man," the 1934 democratic candidate for governor said in an open telegram, commenting on Landon's labor letter to Socialist Norman Thomas yesterday. "If evidence is brought to you that labor organizers are being mobbed and driven out, as recently in Gadsden, Ala., in Arkansas, in Allegheny county, Pa., in many agricultural counties of California, will you use federal authority to protect their rights? Without such a pledge, your statement to Norman Thomas is futile, for rights are non-existent unless they can be used."

In the same telegram, Sinclair, a former socialist, said he has "watched a dozen presidents in my lifetime" and "have seen them use federal authority to break strikes . . . but I have never seen a president move to protect labor organizers in their rights."

Stewart-Lenox — Mrs. Theodore Fry and family have returned to their home in Lenox after spending about two months at Cherry creek.

Margaret Welsh has returned to her home in Stewart from picking strawberries at Cherry creek. Mr. and Mrs. Al Moak have moved into their new home at Altamont. They have been living with Moak's brother in Stewart until the house was completed.

The Stewart-Lenox community was in quite a turmoil Sunday when a grass fire broke out in Lenox. The fire came close to several of the homes, but was soon brought under control.

If we are to go forward permanently, it must be with a united nation, not with a people torn by appeals to prejudice and divided by class feeling. The time has come to pull together.—Governor Alf M. Landon.

the rescuers to his place of entombment by signals sent over an auxiliary pipe. During the rescue attempt, Joseph Sullivan, 55, city fireman, fell on his face. He was placed in an ambulance unconscious and was taken to an emergency hospital where doctors pronounced him dead and gave heart disease as the cause. Lynch was taken to the same hospital for emergency treatment, although he escaped with a few scratches when the pipe broke and a wall of water swept through the main. A water department worker evidently saved his life by shutting off the valve promptly when he discovered there was trouble on the line and water was flowing into the place where the WPA worker had been doing interior welding on a new line.

ALTURAS, Cal.—The barber shop in the McCaughan building at Canby, Cal., opened Tuesday night. Ernie Bush is the proprietor. Mr. and Mrs. Tom Chambers opened the T & C cafe in the new building about the middle of July.

The third business to be housed in the new building is a grocery store which will be opened within the next week. The proprietors will be announced when final negotiations are completed. A well drilled 228 feet on the property delighted the owner as it brought in ice cold water. McCaughan also installed an electric lighting and power system for his business building.

Other improvements at Canby include the complete renovation of the old Caldwell hotel building, which is being done by Joe Walker, who recently purchased the property. W. R. Archer, county surveyor, spent several days on a survey establishing the legal corners of the sections. The Water-Hovey mill building project is going on steadily. In recently ordering "walking fish" from the tropics, America was a bit premature. Fish in what were midwestern lakes soon will get the knack.
