

# KLAMATH DUE FOR RECORD FARM YEAR

(Continued From Page One)

This report was made as of July 1st, and Tabb comments on the weather following from July 1 to July 15. "Crop outlook has not improved since the official estimate was made as of July 1. The ten days of intensely hot weather during the first half of July, coupled with a severe attack of aphids, are thought to have reduced the probable yield on the late plantings 20 to 25 per cent.

According to the July 1 estimate, the total production of the 39 late states shows an estimated crop this year of 264,523,000 bushels, as compared with harvested crop in 1935 of 318,887,000 bushels. Tabb's report would indicate that the 1936 estimate might be further reduced in the August 1 official report, which should be received at the county agent's office about August 19 or 22. In addition to the situation in all the major late states the crop has been short in early and intermediate states and, in general, has been considerably advanced, indicating that there will be no carry-over of intermediate potatoes into the late crop harvest, but on the contrary, a considerable quantity of late potatoes will be dug early, serving to decrease further the late crop production.

### Feed Stuff Advances

Food stuff markets are advancing sharply, reflecting widespread crop deterioration during the week ending August 4.

This is also of great importance to the Klamath basin, which produces quantities of feed.

All high protein feeds are strong, with alfalfa meal showing an advance from \$2.50 to \$3.00 per ton at Kansas City markets, and other feeds making similar advances.

At Chicago wheat feeds advanced from \$4.50 to \$5.00, and feed barley has advanced about \$3.00 per ton in the last 30 days.

Of particular interest in this area is the future for choice maiting type barley. On July 31, maiting barley was quoted at \$1.60 to \$1.75, reporting an advance of 50 cents during that month. Further increases have been reported since that time.

### Grain Caution

Virtually all the maiting type barley produced in the Klamath basin is Hamchen barley, which is of the choicest type, and brings premium prices.

Henderson said Thursday that prices on local barley could be increased by greater care in harvesting.

Managers prefer to have ears left on rather than having the grain threshed so closely that numerous kernels will be cracked from the skin.

Most barley samples taken from this district in the past year or two showed serious threshing injury, the county agent said.

Meetings of barley growers will be scheduled for the near future, and discussion of threshing practices will be held in an effort to increase the quality of the threshed crop.

### Grain

Grain harvesting is under way at present throughout the entire Klamath basin, with unusually heavy yields on dry lands.

Big Poe Valley Yield

A. N. Schupp, attorney, reports that he is threshing barley on his dry-land farm in Poe Valley, and that the first day's run showed a yield of 86 bushels per acre.

"Without question this year's dry-land grain crop will materially increase the total grain crop of the Klamath basin," the county agent said, in his crop forecast.

Some grain harvesting is being started in the Tulelake section on the drier portions of the district, and considerable cutting and blinding is under way on irrigated farms throughout the project.

Warm weather of the past two weeks has caused grain to mature and ripen rapidly, and the quality is reported to be excellent.

From reports received at the county agent's office, hay markets throughout the United States have strengthened considerably during the past week. During the past week eight cars of U. S. No. 1 alfalfa were received in Portland from the Klamath Falls area, and was selling to the trade at the close of the period at \$16.00 per ton, at least 50 cents stronger than the previous week. Growers in the northwest are generally holding their hay for around \$10 per ton baled f.o.b. cars. Kansas

## A Lull in Child Custody Fight

Despite bitter accusations directed at each other during a court fight over custody of their daughter, Marilyn, Judge G. J. Knight brought Mary Astor, film actress, and her former husband, Dr. Franklin Thorpe, together in an attempt at reconciliation. The experiment failed, however, and the court battle continued a day after this picture of the family group was taken.

City alfalfa market showed an active demand with firmer tone in the past week. All good leafy alfalfa was stronger and brought prices at or near the season's peak to date.

Kansas City alfalfa prices on August 3 for No. 1 extra leafy, \$19.00 to \$20.00; No. 2 leafy, \$16.50 to \$17.00; No. 3, \$14.00 to \$14.50 per ton.

Markets in San Francisco were steady to firm, with some inquiry for water shipments to the north Atlantic coast with bids of \$28.50 to \$29.00 delivered for U. S. No. 1, which would net about the same as local prices, which were U. S. No. 1, \$16.50 to \$17.00.

At the present time approximately 200 tons are being shipped by rail and truck weekly from the Klamath basin to points in northern California, northwestern and western Oregon. In addition, a considerable number of drought cattle are being brought into Klamath county, some arriving during the past few days and others being shipped from Montana points. Several Klamath stockmen are now in that district looking for additional cattle.

Winds threaten brush fire lines (Continued From Page One)

was slightly cooler at La Grande, with 98, but 100 degrees was expected today.

Grains Pass recorded 97 degrees yesterday and a 44-degree drop in temperature during the night, while it was 96 at Medford, five degrees under Tuesday.

## FINISH FIGHT FORECAST FOR TWO FACTIONS

(Continued From Page One)

men" bent on "enforcing the acceptance of minority rule within the A. P. of L."

Lewis flared back that the council's action was one of "incalculable and crazy stupidity" and that it was "dictated by personal selfishness and frantic fear." He said it "indicates a total absence of consideration for the well-being of the nation's workers" and warned that President William Green "and his confederates may continuously rue it."

The manner in which Green and Lewis, far different temperaments, reacted to what may prove to be a turning point in labor history was characteristic.

## Olympic Athletes Open New Assault on Record Books

(Continued From Page One)

fied for the final and placed sixth with 67.15 meters, 299 feet 3 1/2 inches.

The women's 80-meter hurdles final produced the closest finish yet in either men's or women's track events. Tribonada Valla of Italy, Anny Steur of Germany, Betty Taylor of Canada, and Claudia Testoni of Italy finished in a virtual dead heat. They were all clocked in 11.7 seconds, one-tenth second slower than the new Olympic record made yesterday by Miss Valla.

After viewing the photographs of the finish, the judges placed them in that order.

Japan finished one-two in the hop, step and jump final as Naoto Tajima won with a world-record jump of 16 meters, 52 feet 5 1/2 inches.

How They Stand

Roland Romero of Walsh, La., finished fifth with a jump of 15.93 meters, 49 feet 5 23/32 inches.

Point totals in the unofficial Olympic track and field team championship at the conclusion of today's competition stood (on 19-4-4-2-1 basis):

Men's track and field: United States 153, Germany 54, Finland 41, Japan 34 1/2, Great Britain 20 1/2, Italy 15 1/2, Canada 14 1/2, Sweden 11 1/2, Women's track and field: Germany 44, Poland 14, Italy 13, United States 12, Japan 7, Canada 4.

Before an overflow jam of 105,000 spectators, including Reichsbanner Adolf Hitler who arrived just as the 12-man field took the marks, the "metric mile" more than fulfilled expectations and justified the neighborhood. The greatest middle distance field since 1912, when A. N. S. Jackson of Great Britain won, lined up but it was all Lovelock when the time came for the payoff.

The German, Friedrich Schamberger, Cunningham and finally Sweden's veteran Eric Ny, took turns at setting the pace while Lovelock bounded along comfortably.

A Clevelandler is in a hospital after suffering a dizzy spell and falling down a hotel staircase. The clerk might have broached the size of the bill more gently.

The lowest air temperature ever observed was 133 degrees below zero, recorded on a sounding balloon sent up from the island of Java, near the equator.

There was not one death sentence passed in Scotland, nor was there one execution in Scottish prisons, in 1931.

## 'Last Mile' in Prison Break

A murderer paid with his life and two companions were wounded in an abortive attempt to escape from Oregon State Penitentiary, Salem, during a general riot. Photo shows prison hospital internes carrying from the hospital the body of Thomas Baughn, who was killed in the riot.

## Cadiz Falls to Loyalist Force

(Continued From Page One)

Spanish Morocco, had said the rebels proposed to land reinforcements in Spain proper for a final drive on the capital with the aid of a fleet of airplanes conveying three transport ships.

(General Francisco Franco, generalissimo of the Spanish revolt, planned to capture Madrid by an encircling movement, which would join insurgent troops marching from the south and the armies of General Emilio Mola descending on the city from the north.)

Would Halt March

Fervidly, the government poured reinforcements into the Guadarrama mountain gateways in expectation of a three-way advance to halt the rebel march to Madrid.

The military masses blocked the insurgent march at El Alto Del Leon—the Heights of the Lion—and captured the small town of Gorgones.

On the northern side of the mountainous front, rebels hastily moved men and arms into position in an equally vigorous preparation for prospective battle.

The fascists, from their high positions, were reported in sight of the capital buildings.

Reports reaching Madrid from the scene of bloody hand-to-hand fighting and artillery barrage showed no great advances by either side.

As loyalists prepared for what they hoped would be a final, crushing blow to the fascist cause in the Guadarrama mountains, disclosures of an astounding nature as to the plan for the revolution were made in the capital.

Government troops were reported

ed within 11 miles of Zaragoza in their drive to smash the fascist military machine in northern Spain and crush the threat of a rebel advance on Madrid from this area.

The government plans to put into the air no less than 300 machines to crush the revolt.

The fascists, too, are preparing for a war in the air which their commanders believe probably will prove decisive in quelling the revolution or overthrowing Madrid's leftist government.

PARIS, Aug. 6 (AP)—France today lined up seven European nations—including Great Britain, Germany, Russia and Italy—be-

## DIETING TO REDUCE Dangerous Fat

Cut out fat meats—you don't need them—eat sensibly of lamb, lean beef, fish and fowl.

Go light on butter, cream and sugary sweets—at fruit and vegetables in variety.

Gain in physical charm—look younger—feel younger.

Maryland lady writes: "I've lost exactly 21 lbs. and am so happy to get rid of that bulky fat. My skin is clearer and I feel so much better." Mrs. N. S.

Take one half teaspoonful of Kruschen Salts in a glass of hot water before breakfast every morning.

Kruschen costs but a trifle and is sold the world over—try one jar—if not joyfully satisfied—money back—Get That Kruschen Feeling.

## Cockroaches

To banish these pests in a hurry, just sprinkle BUSHACH across their trails (following them to their burrows if possible), and in cracks and crevices.

BUSHACH makes short work of insect pests, is guaranteed safe for human beings and animals. In Handy Sifter Cans 25c up at all Drug, Grocery, Seed Stores and Pet Shops.

## Piles All Gone

Without Salves or Cutting Itching, bleeding, protruding piles go quickly, if you remove the cause. Bad blood circulation in the hemorrhoidal veins causes piles by making the affected parts weak, flabby and lifeless. Salves and cutting often fail because only an internal medicine can actually correct these conditions. Dr. J. S. Leonhardt discovered a real Internal Pile medicine. After a fine record of success with it in his private practice he named it HEM-ROID. Underwood's pharmacy and all druggists invite every Pile sufferer to try HEM-ROID with guarantee of money back if not joyfully satisfied with the help one bottle gives.

bind her proposal for a non-intervention policy in Spain's civil war in an effort to insure the continued peace of the continent.

The other nations approving "in principle" a hands-off policy in Spain's fratricidal conflict were Belgium, The Netherlands and Czechoslovakia.

Both the Soviets and Italy attached reservations to their complete accord.

## CAR HITS REAR OF FIRE TRUCK

Slippery pavement and driving rain of Wednesday afternoon were blamed for an automobile accident which occurred at 2:30 o'clock, when an automobile driven by S. R. Courtney crashed into the rear of the city fire department truck. Courtney's machine was badly damaged.

The accident occurred at Sixth and Owens street as the fire department was en route to a sawdust fire at the Valley Lumber company plant. Courtney slammed on his brakes to avoid a crash, but his wheels skidded, and he slid into the big truck which was driven by C. H. Lewis.

A pick-up truck belonging to G. W. Bickenstaff, was slightly damaged Wednesday afternoon, when it was struck by a machine driven by a 14-year-old

## HAPPY RELIEF FROM PAINFUL BACKACHE

Caused by Tired Kidneys

Many of those growing, aching, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated to the right way.

The kidneys are one of Nature's chief ways of taking acid and waste out of the blood. A healthy person should pass about 2 pints a day and so get rid of more than 3 pounds of waste matter.

If the 16 miles of kidney tubes and filters don't work well, this waste stays in the body and may become poisonous. It may start nagging backaches, leg pains, loss of sleep and energy, getting up at night, swelling, puffiness under the eyes, headaches and dizziness. Don't let it lay you out.

At your druggist for Doan's Pills—used successfully by millions for over 40 years. They give happy relief and will help to flush out the 16 miles of kidney tubes. Get Doan's Pills.
