Location Sought for South-End Bank

TULELAKE, Calif.—Representatives of the state board of banking control are spending several days each week here in the interest of a location for the proposed Bank of America, San Francisco officials. A. P. Canoe and others have decided that the location originally decided upon in the new Bank building now under construction, was not advantageously situated, and the least was not signed.

While other possible locations have been inspected, no definite action had as yet been taken on Tuesday. Bank officials had previously planned to be open for business by September 10, but the recent developments will postpone the opening date.

C. C. Spears, with whom banking officials have conferred on the possibility of using the building now occupied by the Tulelake Hardware company, is now in Portland, but prior to his leaving stated that it was possible some decision would be reached in the near future.
