REBELS 30 MILES FROM MADRID

Gov. Landon Attacks "Pig-in-Poke" Policies

FIRST MAJOR SPEECH MADE IN CAMPAIGN

Huge Crowds Hear Kansas Give Praise To American Principles

'UNSTABLE MEN' HIT BY SPEAKER

Resistance To Counsel of Despair Urged Upon U. S. People

WEST MIDDLESEX, Pa., Aug. 22 (AP)—Gov. Alf M. Landon today asserted the presidential campaign presented a "choice between the pig in the poke policies of the new deal and American 'freedom of enterprise'."

In his first major eastern address, the republican nominee pledged himself "so far as it lies within my power to protect for America our heritage of freedom and opportunity."

Here There

The Kansas spoke from a platform on the Tain O'Shanter golf course, a mile from the village of Middlesex, where he was born almost 49 years ago.

Under overcast skies, huge crowds gathered to hear Governor Landon.

The rambling old homes and business houses were festooned with flags and bunting while the town's 115 citizens jammed the streets with thousands visiting here for Landon's homecoming.

The candidate chose "The American Way of Life," as the subject of his first formal speech since he accepted the nomination almost a month ago and the first of three billed for his stump tour into vote-heavy eastern territory.

Meaning of "American"

"The word 'American' means an attitude of heart and mind," Landon said, an outlook on life. It means not only deep love of liberty and justice, but courage to face the dangers and responsibilities that go with liberty.

"This American way of life is being challenged. We are told that it does not meet modern requirements. . . . some are trying to change it."

Wise old Uncle Sam! He has observed, probably, that the neighbor who tries to stop a family fight is usually turned upon by ALL the combatants and is apt to come out of it with a broken head.

IF UNCLE SAM is as wise as his white whiskers should indicate, he will stay clear of these European ruckuses. He had a foolish streak in 1917 and lost himself in drawn in, and hasn't recovered yet from the bruises he received.

PICTURES from Spain show mere boys (and girls, also, for that matter) fighting in the armies on both sides in the bloody civil war. These children appear to be still in their teens.

Highlights of Landon Speech

WEST MIDDLESEX, Pa., Aug. 22 (AP)—These were some of the salient statements in the address delivered here today by Governor Alf M. Landon, republican presidential nominee:

Before our country is the choice between the pig in the poke policies of the present administration and those American institutions under which we have enjoyed more liberty and attained a higher standard of living than any other people in the world.

The American remedy for unemployment is real work at good wages.

The remedy for monopoly and special privilege is to do away with them.

Now in many parts of the world democracy is in retreat and dictatorships are advancing.

Some are trying to supplant our institutions by others from abroad.

Freedom of enterprise . . . has benefited every American. . . . Let us not forget, however, that a fair distribution of economic and social benefits has yet to be brought about.

Government power must always be used unflinchingly to correct abuses and inequalities which admittedly exist. So far as possible, this should be done by the individual states or by compacts among states.

WAR SCARE GIVES
WHEAT LEADERSHIP

Bread-Grain Supplants Corn As Guide In Chicago Pit

CHICAGO, Aug. 22 (AP)—Emerging from an eclipse caused by spectacular soaring of corn values, wheat is again the grain trader's chief guide, thanks largely to Europe's war scare.

Leading wheat market specialists say there is no question but that latest upturns of prices for the principal bread-grain, wheat, are in great measure due to possibilities that complications arising from strife throughout Spain may involve major countries overseas.

Corn from Argentina and with a threatened huge influx of corn from Argentina, corn has once more become secondary to wheat both as to top values and to volume of dealings, although for the week the corn market still displays the steepest relative upturn.

Compared to a week ago, wheat this morning was 15-20 cents a bushel higher, corn 2-3 cents up, oats 1-1 1/2 advanced, and rye 2-3 1/2 gain. Provisions were 5 cents to 40 cents down.

Scarce Article

Although in various quarters doubt is expressed that wheat values will permanently receive much help from war scares, some of the doubters assert nevertheless that wheat is to become a (Continued on Page Ten)

COUZENS SUPPORTS F. R.'S CANDIDACY

DETROIT, Aug. 22 (AP)—United States Senator James Couzens, Republican, in a statement today announced his intention of supporting President Roosevelt for re-election.

DROUGHT CURE PLANS OFFERED TO COMMITTEE

Roosevelt's Commission Listens To Boards Of Seven States

10-POINT PROGRAM GIVEN ATTENTION

Plans Designed To Bring Prosperity Back To Central Northwest

RAPID CITY, S. D., Aug. 22 (AP)—Planning boards of seven states put before President Roosevelt's drought committee here today a ten point program designed to make the central northwest region again "a great contributing factor to national welfare."

From voluminous recommendations of planners from North and South Dakota, Iowa, Minnesota, Nebraska, Montana and Wyoming, a committee selected general policies held applicable to the area.

The proposals in brief:

Land classification for use, federally with state and local cooperation, and perhaps followed by zoning "certain lands for special uses."

Conservation Water

A broad water conservation program, including protection of natural soil cover.

Measures to increase the proportion of land operated by owners.

Recognition of grasshopper and other pest control as a regional and national problem, demanding constant state and federal action.

A national land policy "which recognizes the right of every state to full development of its agricultural resources" for the "best interests of the nation as a whole."

Fitting of drought and other emergency expenditures to long time corrective programs.

Establishment of county planning boards or committees throughout the region to integrate their programs with regional, state and national policies.

Unification of relief, rehabilitation and development programs (Continued on Page Ten)

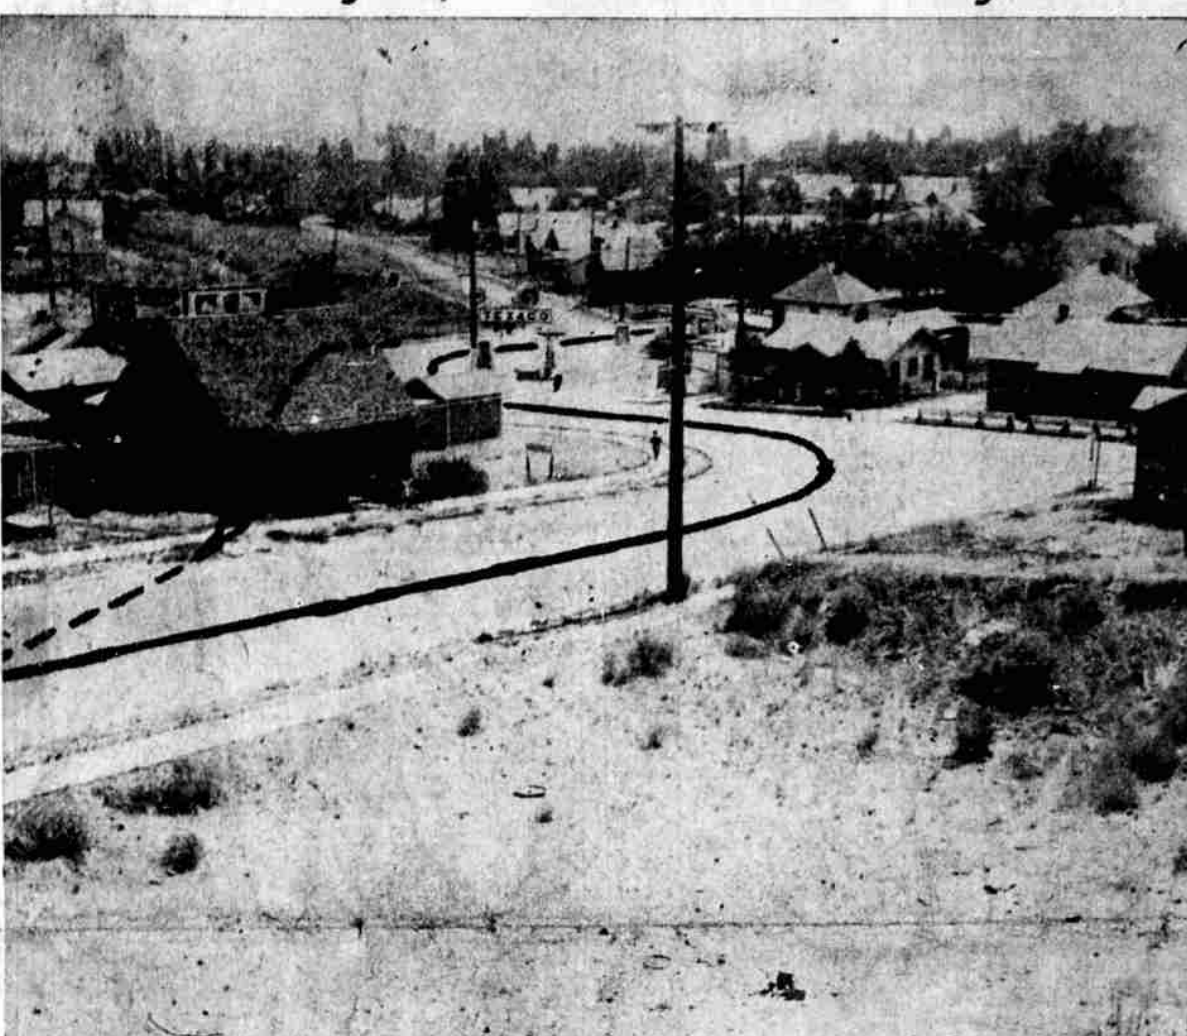

Sports Bulletins

NEWPORT, R. I., Aug. 22 (AP)—Bobby Riggs of Los Angeles, squared his season's accounts with Frankie Parker today when he defeated that experienced Springfield, N. J., youngster 8-0, 6-4, 8-10, 3-0, 6-1. In the final match of the 20th Newport Casino Tennis tournament.

Where Dangerous 'S' Curve Will Be Straightened

This picture shows the "S" curve on the Dalles-California highway at Oregon avenue, Upham and Prospect streets. The black line shows the cork-screw effect of the street at present. The dotted line indicates where the left line of the street will run when the improvement has been made. The unpainted corner house is the property the city has purchased to clear the way for the highway commission to make the change. The sharp corner inside the anvil-shaped figure made by the lines will be cut off and made into street.

SLAYER OF PAIR TAKES OWN LIFE

Triple Tragedy Occurs At Watsonville, Result of Unique Triangle

WATSONVILLE, Calif., Aug. 22 (AP)—Shot through the head, the body of Jack Bennett, sought for the slaying of a man and woman here, was found today in Madonna park, 10 miles east of here.

Chief of Police Matt Graves said Bennett, 55-year-old electrician, shot Mrs. Grace Mae Ayres, 28, and Austin W. Martin, 28, as they sat in a parked automobile one block from Watsonville.

LABOR TENSE OVER SEATTLE SITUATION

SEATTLE, Aug. 22 (AP)—Ranks of organized labor here grew tense today over the Seattle Post-Intelligencer newsroom strike as an American Federation of Labor representative pressed an investigation of the Seattle Central Labor council's action declaring the newspaper "unfair."

Rowland Watson, American Federation of Labor district representative here, said William Green, president, had asked for a "full report at once" of circumstances surrounding the strike called by the Seattle chapter of the American Newspaper Guild August 13.

James A. Taylor, president of the Washington State Federation of Labor, in a radio address last night, accused the Post-Intelligencer of misquoting a motion made by Dave Beck, president of the teamsters' council and international organizer, at the recent federation convention.

Miracle Story of Mine Entombment and Rescue Told By Two Survivors

MOBERLY, Mo., Aug. 22 (AP)—From miner to miner and all round the countryside today passed the "miracle" story—a stirring account of how two strong men were rescued alive from a coal mine that had been their black, gas-filled prison 110 feet underground for 72 hours.

Discovery that their two companions had died shortly after a fire and cave-in trapped the men Tuesday afternoon clothed the story with sadness.

In a hospital today, J. W. McCann, 50, and Demmer Sexton, 37, the latter in a critical condition, told of the terrifying ordeal of watching Edward Stoner, 27, and George T. Dameron, 27, a negro, drop dead; the dragging hours without food; the retreat from menacing gases; the dread that the sound of rescue operations might cease.

"I did everything I could to give the men courage," McCann related.

"I told them every funny story I could think of so that they would cheer up. You can't fear death when you are laughing and telling funny stories," he said.

"But Stoner and Dameron would not be encouraged. Both knelt on the floor of the tunnel and asked God to save them. As for me, I knew that if I was saved it would be through my own courage and my will to live."

"I tried to make Stoner and Dameron realize that we all had an equal chance of survival. The air which Sexton and I breathed was the same that Stoner and Dameron were breathing. It was (Continued on Page Ten)

7 NEW TEACHERS ON H. S. STAFF

Names of seven new instructors elected to the Klamath union high school staff for the next year were announced Saturday.

Beryl V. Ludington, who coached the Chiloquin high school debaters to a state championship last year, is included in the list of new Klamath high school teachers. Ludington will teach social science and public speaking, and will coach debate. He is a graduate of the University of Oregon.

BRITISH SEEKING RECIPROCAL PACT

Officials Claim Canadian Treaty Has Brought Equal Trade Gain

WASHINGTON, Aug. 22 (AP)—Federal economists reported today that movement of farm products to and from Canada had jumped 24 per cent during the first six months of the reciprocal trade treaty.

An analysis prepared by the agriculture department's bureau of foreign crops and markets showed the percentage of increase for exports and imports of agricultural products to be identical, as compared with the same period during 1935.

British Want Ore

The trade figures were made public shortly after Secretary Roper forecast negotiations for a reciprocal trade agreement with Great Britain. Returning from Europe, Roper said the "Canadian trade agreement has arrested" British attention.

The citrus industry in this country and cattlemen in Canada were said to be chief beneficiaries (Continued on Page Ten)

G. O. P. Adherent Makes Big Mistake, Bawls Hoover Out

EUGENE, Aug. 22 (AP)—So long as former President, Herbert C. Hoover, does not turn on the "fire hose" and WPA project programs, he may play his radio as loudly as he likes on Springfield streets, in the opinion of one Springfield man, who, along with his friends and neighbors was laughing heartily at his own expense following an encounter with the former president Friday afternoon.

The man was in a Springfield jewelry store when a big car drew up in front and parked. Two ladies left the car while the two men in it turned on the radio. The music sounding forth could be heard for blocks. The customer in the store decided he had better request the men "to tune down." He did, reminding the two men in the car they were parked in front of a city councilman's store. As he walked on down the street one of his fellow citizens stopped him with this remark:

CRUCIAL TILT FOR CAPITAL APPEARS NEAR

If Loyalists Dislodged From Toledo, Road To Prize Will Open

FASCIST COLUMNS MARCH FROM NORTH

Anti-Russian Feeling In Berlin Strong; Italy Accepts Pact

Copyright, 1936, by Associated Press

PAMPLONA, Spain, Aug. 22 The vanguard of southern rebel troops has reached the outskirts of Toledo, 30 miles from Madrid, in the march toward a crucial battle for possession of the Spanish capital, Gen. Francisco Franco, commander-in-chief, reported today.

This indicated fascist armies, inaugurating the "big push" in efforts to overthrow the socialist government, had turned eastward 60 miles from Navalcarlos.

Advance From North

The new position would place the southern troops directly below Madrid, with an unimpeded road to the capital if loyalists at Toledo could be dislodged.

Fascist columns marched also from the north, rebel headquarters here said, their advance heralded by the roar of artillery and preceded by aerial bombardment of loyalist positions.

A new offensive on the bitterly contested San Sebastian front also was under way.

Rebel officers emphasized, however, that the march would not be a frenzied dash. Troops halted frequently to consolidate positions and map the strategy of the attack.

200,000 in Army

Three columns already in the lofty Guadarramas north of Madrid, rebel leaders said, compared (Continued on Page Ten)

GOMER SMITH WILL COME HERE TUESDAY

Gomer Smith, the Oklahoma man who took the limelight at the Townsend convention when he defied President Roosevelt against bitter attacks of Father Coughlin and Gerald L. K. Smith, will visit Klamath Falls Tuesday.

Smith is coming here as a Townsend speaker, arrangements having been made by Mayor Willis Mahoney. Arrangements for his speech-making will be announced later.

Smith some time ago was defeated for the democratic nomination for the senate from Oklahoma. At the convention he was reportedly "read out" of the Townsend movement by Dr. Townsend, when he made a hot reply to Coughlin and Gerald Smith.

NEGRO CONVICTED IN MURDER CASE

ASHEVILLE, N. C., Aug. 22 (AP) Martin Moore, 22-year-old negro, was convicted of first degree murder here today for the slaying of Helen Cleveland. The verdict carried a mandatory death sentence. The jury was out an hour.
