OUTLOOK FOR OREGON STOCK OUTPUT GOOD

The 1937 market outlook for animal products is comparatively favorable for most items, with the prospective supply smaller than in 1936, according to the current agricultural situation and outlook report issued by L. R. Breithaupt, extension agricultural economist at Oregon State college.

The report deals with the poultry, dairy and livestock outlook, with considerable space devoted also to crop prospects of interest to Oregon growers.

The market outlook for dairy products is good, as the demand is growing stronger while the per capita supply of milk will probably be somewhat smaller during the next few years than during the immediate past. In the last 10 years the general trend of farm prices of butterfat in Oregon from year to year has been closely associated with the trend of consumer purchasing power as indicated by the factory payrolls in the United States, says Breithaupt. This has been increasing steadily since the low point of 1932 and further improvement is in prospect.

The other major factor in determining dairy products prices is the milk cow population. On Jan. 1 of this year the number of milk cows on farms in the United States was estimated at 25,623,000 or approximately 200 per thousand people, indications are for some reduction in cow numbers by next January, and further improvement in factory payrolls, which would be expected to result in some betterment in prices, seasonal changes considered.

Marketing of cattle and hogs during the next few months may be expected to be better, owing to the short supply and higher prices for feeds in areas affected by the drought, the circular continues. To some extent the increase in slaughter will be offset by stronger consumer demand, but the price outlook is better for beef next spring and summer than during the coming fall and winter. Well finished beef cattle are expected to be in better demand than stockers and feeders.

The 1937 market outlook for hogs is strong, although marketings may be heavy during the last half of 1936. The drought has materially affected the market outlook for hogs.

President and Governors to Confer on Drouth

Welford

Berry

Governor Landon

President Roosevelt

LaFollette

Marland

Herring

Miller

Cochran

Holt

Park

Governors of 11 states in the drought region will confer with President Roosevelt on his tour of the stricken areas, discussions to center on solutions of the relief problem and future planning to avert recurring disasters. A feature of the trip will be the meeting of the president and Governor Landon at one of the parleys. According to tentative plans, Roosevelt will meet first with Govs. Leslie A. Miller, Wyoming; W. Elmer Holt, Montana; Walter Welford, North Dakota; and Tom Berry, South Dakota. Next will come a conference with Govs. Floyd Olson, Minnesota, and Philip LaFollette, Wisconsin. Finally, the chief executive will confer, at some Iowa point, with Govs. Clyde Herring, Iowa; E. W. Marland, Oklahoma; R. L. Cochran, Nebraska; Guy B. Park, Missouri; and Landon.

EXAMINATIONS TO BE HELD SEPT. 5

Athletic officials' examination for the Oregon High Schools Athletic association will be held at 9:00 a. m. Saturday, September 5, at Klamath Union high school, according to an announcement from Principal Lloyd B. Emery, who will be in charge of the examination.

All high schools will use the national federation football rules this year, and as there are slight differences in the set-up, it is necessary that all athletic officials should familiarize themselves with the rules.

A fee of \$2.00 will be charged those desiring to take the examination, and those planning to do so are urged to turn in their names to Emery as soon as possible.

The O. H. S. A. A. athletic officials' examination will be held in 45 key cities of the state on September 5, according to a communication from John L. Gary, secretary of the association.

Athletic officials who are already accredited by the O. H. S. A. A. may raise their ranks by taking the examination, and new officials will be required to take it before the football season.

The first American expedition into the Arctic region left Philadelphia in 1753.

Kansas leads the world in stony meteorites. One-sixth of the world's known stony meteorites, which were not seen to fall, have been found within the borders of this state.

Wild tribesmen of Ceylon shoot from a sitting posture, and hold the bow with their toes and feet.

Glant turtles furnished ancient mariners with fresh meat on long voyages. The turtles were kept overturned and helpless until needed for food.

3 SUSPECTS HELD IN ACCIDENT CASE

MEDFORD, Ore., Aug. 24 (AP)—The state police and district attorney continued today their investigation of Lloyd S. Seabury, Lloyd Bungee and Gilbert S. Dickinson, all of Plainview, Neb., held in the county jail on minor charges, while "regarded as suspects," in the watermelon hurling episode on the Pacific highway last Thursday that resulted in neck and throat injuries to Mrs. Joe N. Marsh of this city.

The authorities reported there were no new developments in the case today. The three youths deny any part in the watermelon throwing.

The condition of Mrs. Marsh was reported as improved today. She was cut in the throat and neck, when a piece of watermelon, hurled from a passing auto, struck the windshield of the car in which she was riding. Flying pieces of glass struck her.

Bungee and Seabury were sentenced to 30 days in the county jail on a disorderly conduct charge. The pair admitted shooting a water pistol at a small boy on a bicycle. Dickinson was sentenced to serve 10 days for driving an auto with invalid out-of-state license plates.

TRADE AND WIN IN FOURTH WEEK

Monday began the fourth week of the merchants' Trade and Win contest, and candidates who are working for the fourth bicycle may cast their votes any time this week up to Saturday night at 5:30. The announcement of the winner of the third bicycle, period ending last Saturday at 5:30 p. m., will appear in Thursday's Evening Herald and Friday's Klamath News, August 27 and 28, with the list of standings of candidates who have cast votes and candidates who have entered the race since the last published standings.

A pep meeting of all candidates and parents was held Saturday afternoon at the armory. This meeting was attended by many enthusiastic candidates and parents.

No new candidates will be accepted after Saturday next week, September 5, it was announced from contest headquarters.

Murders occur in the United States on an average of one every 90 minutes.

Special \$65

Westinghouse AUTOMATIC ELECTRIC RANGE

\$65 for a new modern Westinghouse automatic electric range! Naturally, you are wondering how a good range can be sold for so low a price. Regularly, this same model sold for a great deal more money, and naturally we could not afford to sell any great number of these at this price. We did, however, obtain a small quantity in this special deal that makes it possible to pass the saving on to you as long as this particular lot lasts. This range has a white porcelain enamel finish; modern flat-top design; and a full-sized enamel lined, standard automatic Westinghouse oven; 3 standard Westinghouse surface plates, utility outlet and pilot light; standard Westinghouse switches and other Westinghouse exclusive features. You should by all means see these ranges at once before they are all gone. Our usual very easy terms apply.
