

STATE FEDERAL ROAD PROGRAM WINS APPROVAL

SALEM, Nov. 21 (AP)—The state highway commission approved yesterday a \$5,346,000 federal road program for the 1941 fiscal year in Oregon, providing for expenditure of \$2,584,000 in federal and \$1,726,000 in state funds.

The federal money has been authorized by congress but allocation will not be made until about Jan. 1. The total program would cost \$656,000 more than that of the present fiscal year but would be \$970,000 cheaper than that of 1939.

CLEAN MOTOR HELPS PREVENT MISHAPS

If you keep the car's motor clean and free from grease, oil and grit accumulations, it will be less likely to develop short circuits when wet weather arrives, according to the emergency road service department of the Oregon State Motor association.

Old oil and grease often cover badly worn insulation on ignition wires and these hidden spots, which otherwise would be repaired, are a cause of "shorts."
