

1939 VALUE OF MINERALS HITS RECORD HIGH

SAN FRANCISCO, Calif., Jan. 22 (U.P.)—Preliminary figures of the federal bureau of mines here show a greater total value of gold, silver, lead and copper produced in Oregon for 1939 than any year's reported production since 1852.

The value of the four minerals recovered in the state for the year is at present set at \$3,268,134, far below the fabulous gold production of which the old timers tell but still well above the figures previously reported to the mines bureau.

Gold contributed 98 per cent of this total, \$3,100 fine ounces worth \$3,188,500; silver production of 101,000 fine ounces was valued at \$68,558; copper, 94,000 pounds, valued at \$9,776, and 26,000 pounds of lead was produced at a total value of \$1,300.

The total value of the four metals in 1939 increased 11 per cent over 1938 production of \$2,935,053. No zinc production has been reported since 1937.

As in 1937, the bureau said, two-thirds of the gold produced came from placer operations and the remaining third from lode mining. Nearly the whole of the other minerals were recovered as by-products from gold recovery operations.

The report shows that gold mining in northeastern Oregon, chiefly Baker and Grant counties,

Other guests were Guy Young, Orville Boyd, Alturas; William Hooper, Harold Schilling and Patricia Bond, musician, all of Tulelake.

Flora A. Boyd is next Wednesday's program chairman.

BLY SCHEDULES PRESIDENT BALL

BLY—Definite plans have been made for the annual "President's Ball" in Bly. The dance will be held at the Shermont dance hall, which has been donated for the occasion by its owners, Monte Cline and Shirley Stockard, on Saturday night, February 3. Entire proceeds from the dance will go to the fund for the prevention and alleviation of infantile paralysis.

The support of the entire community is expected, since the Bly area has always supported benefits of this sort generously. Will Rogers and his orchestra from Lakeview will supply the music, charging only their travelling expenses.

BLY MUSIC CLASS PRESENTS RECITAL

The music students of Linden R. Lauer were presented in a recital Monday evening at the Bly school. The program of varied type proved entertaining to an appreciative audience. Assisting Mr. Lauer were Mrs. Ray Harris, vocalist, accompanied by Helen Alcorn, and Frank Meiser, violinist, accompanied by Mrs. Ed Dabino. The program was presented by the following students: Alice Patzke, Mrs. Eclair McGinnis, Abe Cruse, Cecil Wither, Wayne Osborn, Betty Abbott, Dick and Joan Patzke and Nettie Rone Cruse. DIVIDEND VOTED BY TIMBER UNION

After listening to year-end reports which showed a healthy growth in business and membership in 1939, members of the Weyerhaeuser credit union Wednesday night voted a 6 per cent dividend on shares.

The reports showed a gain of 337 members during the year, with \$37,000 paid in on shares. The credit union made 689 loans amounting to \$56,000.

Two members were elected to the board of directors and several other items of business were transacted.

Following the business part of the meeting the members listened to an address by Earl Powell of the farm credit administration.

After Powell's address President J. M. Kennedy announced that the Weyerhaeuser hotel staff would serve a lunch in the hotel dining room, and that the lunch had been provided by the Weyerhaeuser management. After a vote of thanks to the management the meeting adjourned to the dining room.

I do not maintain that balancing the budget is an easy feat, but it can be done if there is a conviction and determination that it must be done on the part of the president of the United States.—Senator Robert A. Taft (Rep., Ohio).

RESEARCH men may use fancier language, but they say the same thing about cigarettes as Roy Conacher (above), high-scoring forward of the Boston Bruins. Scientists know that nothing destroys the delicate elements of cigarette fragrance and flavor like the excess heat of too-fast burning. Slow-burning Camels give more pleasure per puff and more puffs per pack (see below).

In recent laboratory tests, CAMELS burned 25% slower than the average of the 15 other of the largest-selling brands tested—selling than any of them. That means, on the average, a smoking plus equal to
